Western Balkans Western Balkans:

The Western Balkans in the World Florian Bieber, Nikolaos Tzifakis, 2019-06-26 This book provides a detailed understanding of how different types of engagements impact upon the reform and EU integration of the Western Balkan region. It examines the influence of Russia, China, Turkey and the UAE in the region and analyses the range of existing links. Contributors offer an academic and multifaceted perspective of the role of external and non-Western actors in the region that goes beyond on the one hand the tendency of some Western decision makers to perceive all engagement by third powers as a sinister threat and on the other the view of regional governments of all external involvement as a boon coming at a time of Western neglect and reduced foreign investments. By looking at the importance of Russia, Turkey, China and the UAE in the Western Balkans, the book sheds light on one key arena of global competition, offers new insights on the strengths and weaknesses of Euro-Atlantic integration and advances our knowledge of foreign policy and its economic, social and security dimensions for small and medium-sized countries. It will be of interest to academics, postgraduate and research students and think tankers with research interest in IR and Southeast European Studies. European decision makers will also gain an insight into the extent of non-Western influence in the region. Peace and Security in the Western Balkans Nemanja Džuverović, Věra Stojarová, 2022-08-16 This book outlines the main security threats, actors and processes in the Western Balkans following the dissolution of Yugoslavia. Exploring the state of peace and security in the region, it asks if a stable peace is achievable. The comparative framework explores state perspectives from Serbia, Montenegro, Northern Macedonia, Bosnia and Herzegovina, Albania and Kosovo alongside military, political, societal, economic and environmental security concerns. The interplay of international actors is also considered. Academics, scholars and practitioners who deal with Balkan issues either as a focus or comparatively and have interests in security and peace studies will find the volume invaluable along with students of political science, security studies, peace studies, area studies, Eastern European studies and/or Southeast European studies and international studies in general. **The Western Balkans and the EU** Morton Abramowitz, 2011 Today more than fifteen years after the end of the wars that accompanied Yugoslavia's dissolution, the Balkan question remains more than ever a European question. In the eyes of many Europeans in the 1990s, Bosnia was the symbol of a collective failure while Kosovo later became a catalyst for an emerging Common Foreign and Security Policy (CFSP). In the last decade, however, the overall thrust of the EU's Balkans policy has moved from an agenda dominated by security issues related to the war and its legacies to one focused on the perspective of the Western Balkan states' accession to the European Union. This Chaillot Paper, which features contributions from authors from various parts of the region, examines the current state of play in the countries of the Western Balkans with regard to EU accession. It brings together both views from the Balkan states themselves and overarching thematic perspectives. For the first time, the European Union has become involved in the formation of new nation states that also aspire to become members of the Union. The EU's transformative power has proved effective in integrating

established states now it is confronted with the challenge of integrating new and sometimes contested states Against this background this paper makes the case for a concerted regional approach to EU enlargement and a renewed and sustained commitment to the European integration of the Western Balkans

European Integration of Western Balkans Lucia Vesnic-Alujevic, 2012-04-29 PDF available for free on <http://martenscentre.eu/publications/european-integration-western-balkans-reconciliation-european-future> While most of Europe decided to unite in the 20th and 21st century a country in the Balkans split into seven independent states The efforts of these states to join the European Union and the reconciliation initiatives between the countries are detailed in this research paper Despite the efforts of the countries of the region and of the EU a lot of work is needed before these countries will become sufficiently mature in political economic and societal sense to become members of the European Union The promotion of dialogue grassroots movements civil society and cross border projects is needed in order to tackle unresolved problems in the region

Futures of the Western Balkans Marco Zoppi, 2022-03-15 This Brief provides a survey of key political social and economic issues affecting the Western Balkans region Taking a two pronged conceptual approach focusing on fragmentation and integration the volume highlights commonalities and differences in a number of simultaneous dynamics currently characterizing the region Europeanization and EU access market integration and migration and socio demographic transformations Stressing the interconnectedness of these issues the volume synthesizes key questions for the future of the region such as the relationship between socio demographic trends and economic development the effects of depopulation on further EU integration and the economic and political repercussions of enhanced intra regional trade Explicitly interdisciplinary this Brief will be useful for researchers and students specializing in the Balkans and Western Balkans post socialist countries European affairs enlargement foreign policy international relations regional studies economics economic transition and socio demographics

Hope and Strength in the Western Balkans, 2020 The Western Balkans have been a crossing point between Central Europe and the East for centuries Devastated by tragic conflicts nationalism and neglected investments the Western Balkan countries are striving to find a new equilibrium Citizens and institutions in the Balkans have repeatedly affirmed their ambition to become part of the European Union and have made significant efforts to turn this dream into reality The European Investment Bank EIB has done a lot in this region over the past 20 years It has helped build pan European transport corridors supported direct foreign investment helped redevelop urban areas provided technical assistance and additional finance to enhance and develop social and economic infrastructure and stimulated private sector growth to create jobs Looking ahead there is hope for a brighter and greener future for the Western Balkans Matteo Rivellini is the Head of Division in charge of lending operations in Slovenia Croatia and the Western Balkans at the EIB This is the thirteenth essay in the Big Ideas series created by the European Investment Bank

The Aftermath of War Albert Simkus, 2016-04-01 At a time when most observers saw war in Europe as belonging to an ever more distant past the wars of Yugoslav succession shattered this illusion The direct and

indirect consequences of these wars for people in the region are still not fully understood but it is clear that the war has had far reaching social and political consequences for each national society as a whole This groundbreaking volume provides a series of analyses of experiences and social attitudes in the Western Balkans in the aftermath of those wars Based on survey data from 22 000 respondents the editors have created a volume which contributes to our understanding of both specific war related effects as well as a detailed description of contemporary attitudes and values across these societies This book will be of interest to academic specialists and students interested in the effects of war on psychological health and on ethnic relations in the Western Balkans as well as how this applies to other post conflict societies It will also be of interest to sociologists political scientists and historians studying differences in attitudes between the countries ethnic groups and generations in this region related to diverse topics from ethnic tolerance to states responsibility for equality and gender roles

Integrating the Western Balkans into the EU Milica Uvalić,2023-10-10 Among the main stumbling blocks of European Union Western Balkan integration are the differences in perceptions on both sides Today the gap between what the Western Balkan politicians and citizens think about the European Union and what the politicians and citizens in the EU member states think about the Western Balkans is probably wider than ever This volume offers fresh insights about these misperceptions and how to possibly bridge the gap It examines perceptions about the region s European perspectives both on the side of the six Western Balkan countries Albania Bosnia and Herzegovina Kosovo Montenegro North Macedonia and Serbia and the key European Union member states Italy Germany Croatia international donors USA An analysis of the diverse views regarding the prospects of EU Western Balkan integration is today highly relevant in view of the current uncertainties regarding European Union s enlargement policy particularly after the attack of Russia on Ukraine and candidate status granted to Ukraine and Moldova

Western Balkan Integration and the EU Sanjay Kathuria,2008-01-01 This title explores ways for the Western Balkan countries to improve growth prospects through deepening of regional integration and improving selected elements of their investment climate It analyzes areas relating to trade in goods and services regional integration and selected aspects of the investment climate It suggests that countries in the region could reap sustained growth payoffs by focusing on deepening regional integration improving human capital reducing telecommunication costs and pre empting energy shortages

Peace, Conflict and Developments in the Western Balkans. The Role of EU Integration Reina Zenelaj Shehi,Eglantina Hysa ,2020-09-10 The Western Balkan countries are characterized by an entanglement of different national ethnic and religious groups Within all Balkan states nationalist rivalries have been and are exploited by political leaders as a propaganda tool when faced with internal unrest or unpopularity Yet the proximity of ethnic communities to their countries of ethnic origin tie all the Balkan states into a common problem the spillover effect of regional insecurity Existing and future disputes require an exhaustive survey of national ethnic religious territorial economic and political problems and this is precisely what this volume sets out to do
