Users Guide To Democracy Human Rights And Governance Programming:

A Global Political Economy of Democratisation Alison J. Ayers, 2018-02-13 The late twentieth century is often portrayed as an Age of Democratisation with democracy heralded as the best of all political systems Yet democracy has multiple meanings values and significances The start of the twenty first century has witnessed a massive revival of interest in the meaning and role of democracy not least as democracy understood in one highly particular sense has been increasingly recognised to be in crisis This book presents these deliberations in a new light by moving beyond the concept of the sovereign state as the dominant framework of enquiry and by rejecting the primacy of the state and the categorical separation of the domestic and the international Instead Ayers elaborates an account of democratisation through the global political economy encompassing a trenchant critique of mainstream democracy promotion in theory and practice and opening up possibilities for different histories of democratisation autonomous of the Western liberal and neoliberal project This innovative work will prove useful to scholars and students in the fields of Politics Political Economy International Relations Development African Studies History Geography and Sociology

Conceptualising Comparative Politics Anthony Petros Spanakos, Francisco Panizza, 2015-07-16 Comparative politics often involves testing of hypotheses using new methodological approaches without giving sufficient attention to the concepts which are fundamental to hypotheses particularly the ability of these concepts to travel Proper operationalising requires deep reflection on the concept not simply establishing how it should be measured Conceptualising Comparative Politics the flagship book of Routledge s series of the same name breaks new ground by emphasising the role of thoroughly thinking through concepts and deep familiarity with the case that inform the conceptual reflection In this thought provoking book established academics as well as emerging scholars in the field collect and invite scholarship in the tradition of conceptual comparative politics The book posits that concepts may be used comparatively as lenses building blocks and scripts and contributors show how these conceptual tools can be employed in original comparative research Importantly contributors to Conceptualising Comparative Politics do not simply use concepts in one of these three ways but they apply them with careful consideration of empirical variation The chapters included in this volume address some of the most contentious issues in comparative politics populism state capacity governance institutions elections secularism among others from various geographic regions and model how scholars doing comparative politics might approach such subjects Concepts make possible scholarly conversations including creative confrontations across paradigms Conceptualising Comparative Politics will challenge you to think of how to engage in conceptual comparative inquiry and how to use various methodologically sound techniques to understand and explain comparative politics

Mayville, 2019-11-30 The Transformation of Capacity in International Development exposes the transformation of capacity within the development discourse through a discursive analysis of USAID projects in Afghanistan and Pakistan between 1977 and 2017 As development agendas increasingly call for human rights approaches to development and the foreign policies of donor states sound alarms over global security threats capacity development has emerged as the solution to the complex problem of development Through this examination of USAID s attempts to build capacity in Afghanistan and Pakistan the book exposes how Western notions of progress constructed by institutions government officials scholars and private sector actors are obscured by the transformation of capacity As agendas are translated into projects they perpetuate historical relationships of global inequality that have corrupted and compete with indigenous models of governance The Transformation of Capacity in
