McGrath,2011-08-01 Religious themes concepts imagery and terminology have featured prominently in much recent science fiction In the book you hold in your hands scholars working in a range of disciplines such as theology literature history music and anthropology offer their perspectives on a variety of points at which religion and science fiction intersect From Frankenstein by way of Christian apocalyptic to Star Wars Star Trek Battlestar Galactica and much more and from the United States to China and back again the authors who contribute to this volume serve as guides in the exploration of religion and science fiction as a multifaceted multidisciplinary and multicultural phenomenon *Joyce's Ghosts* Luke Gibbons,2015-11-13 Luke Gibbons a prominent Irish scholar and Joycean here offers the first study to make a full and strong argument that Joyce s Irishness is intrinsic to his modernism It was common in the first generations of Joycean criticism to attribute Joyce s modernism to European exile and to portray Ireland as a romantic backwater the source of the nets from which Joyce was trying to escape Gibbons argues by contrast that the pressures of late colonial Ireland a country at once inside and outside the world system provided the ferment that gave rise to Joyce s most distinctive literary experiments Crucially Gibbons holds that Ireland features not just as subject matter or content but as form Gibbons further argues that Joyce s major achievement was to pioneer an idiom in which narrative is freighted with voices from both inside and outside a culture Joyce s use of free indirect discourse opens inner life to other voices and shadowy presences produced by a late colonial culture at odds with its own identity In this sense Gibbons shows Joyce s language is haunted by ghosts by voices testifying to forces technology empire urbanization off the page This book is sure to become a landmark study of this enduring and widely read novelist and advances our understanding of the connections between modernism and the nation *Joel Whitburn Presents Hot Country Albums* Joel Whitburn,2008 Title on spine Billboard hot country albums *Learning How to Trust... Again!* Ed Delph,2011-07-28 God is about to give the strength and courage to be healed at last How thick is the wall you ve built around your heart Maybe your wall is only one brick thick because of a hurt you experienced as a teenager Or maybe your wall is concrete slab thick because of the pain of a divorce or broken promise Either way you have decided not to trust even God This book speaks to the heart of your relationships and provides the tools to demolish the wall Deep down you know that the wall you ve built also keeps out the One who can restore you Through true life stories and God s Word you will learn How to regain your emotional physical and spiritual well being Steps to rebuild relationships 5 keys to regaining trust 3 barriers to completely trusting God What went wrong and how to fix it Choose to empower yourself by Learning How to Trust Again *Alpha Dogs* James Harding,2008-05-13 Alpha Dogs is the story of the men from an enormously influential campaign business called Sawyer

Miller who served as backroom strategists on every presidential contest from Richard Nixon's to George W Bush's David Sawyer was a New England aristocrat with dreams of a career as a filmmaker Scott Miller the son of an Ohio shoe salesman had a knack for copywriting Unlikely partners they became a political powerhouse directing democratic revolutions from the Philippines to Chile steering a dozen presidents and prime ministers into office and instilling the campaign ethic in corporate giants from Coca Cola to Apple Long after the firm had broken up and sold out its alumni had moved into the White House to dozens of foreign countries and into the offices of America's blue chip chief executives The men of Sawyer Miller were the Manhattan Project of spin politics a small but extraordinary group who invented an American style political campaigning and exported it around the world In this lively and engaging narrative James Harding tells the story of a few men whose political savvy entrepreneurial drive and sheer greed would alter the landscape of global politics It is a story full of office intrigue fierce rivalries and disastrous miscalculations And it is the tale of how world politics became American and how American business became political
