Understanding Rwandas Agribusiness And Manufacturing Sectors:

Understanding Rwanda's Agribusiness and Manufacturing Sectors Sachin Gathani, Dimitri Stoelinga, 2013-08 This book comes after the 50th anniversary of Rwanda's Independence and provides the first ever comprehensive overview of firms in the country's agribusiness and manufacturing sectors. *Understanding Rwanda's Agribusiness and Manufacturing Sectors* puts these sectors into context historically explaining how decisions and initiatives going back to the 1930s have contributed to determining the shape and composition of agribusiness and manufacturing in Rwanda today. These sectors more than any others have followed the ups and downs of Rwanda's history. The book also provides an in depth analysis of agribusiness and manufacturing in Rwanda today with a focus on understanding the origins, evolution and capabilities of firms and how these capabilities came to be. This overview or Enterprise Mapping gives the reader a detailed understanding of the ownership structures, products, systems, resources and exports of leading firms in Rwanda's agribusiness and manufacturing sectors today. Finally, this book individually profiles forty three of Rwanda's largest manufacturing and agribusiness firms. This book is targeted at policymakers, academics, business people and prospective investors interested in gaining a better understanding of Rwanda's industrial sector.

State Fragility Nematullah Bizhan, 2022-09-27 Presenting case studies and comparisons across seven countries, this book addresses key questions as to the nature of state fragility, policies used to mitigate it, assessment of outcomes and prospects. It offers a novel empirical contribution in examining a range of distinct but interdependent dimensions of state fragility, not only focusing on questions of state legitimacy, capacity and authority but also involving the economy and resilience to political and economic shocks as well as at vital questions of context and diversity. Examining Afghanistan, Lebanon, Burundi, Pakistan, Sierra Leone, Papua New Guinea and Rwanda within the context of their different local circumstances and within broader questions of global security, the book identifies unique factors that have played a part in their specific context and explores key drivers and dominant features. This book will be of key interest to scholars and students of state fragility and more broadly to students of politics, public policy, development studies, state-society relations, political economy, state building, peace and conflict studies, international studies, security studies, regional studies as well as NGOs and international organizations.

Industries Without Smokestacks Richard S. Newfarmer, Finn Tarp, John Page, 2018 Although manufacturing has played an important role in the growth of developing countries, Africa has lagged in this industry. This book argues that activities sharing the characteristics of manufacturing, including tourism and ICT, are beginning to play an important role in Africa, offering new opportunities for growth in coming decades.

Deals and Development Eric Werker, Lant Pritchett, Kunal Sen, 2018 When are developing countries able to initiate periods of rapid growth and why have so few been able to sustain growth over decades? This book provides a novel conceptual framework built from a political economy of business-government relations and applies it to nine countries across Africa and Asia, drawing actionable policy recommendations.
