Union Monitor 1861 65 New Vanguard:

Union Monitor 1861-65 Angus Konstam, 2002-01-25 The first seagoing ironclad was the USS Monitor and its profile has made it one of the most easily recognised warships of all time Following her inconclusive battle with the Confederate ironclad Virginia on March 9 1862 the production of Union monitors was accelerated By the end of the year a powerful squadron of monitor vessels protected the blockading squadrons off the Southern coastline and were able to challenge Confederate control of her ports and estuaries Further technological advancements were included in subsequent monitor designs and by the end of the war the US Navy possessed a modern coastal fleet carrying the most powerful artillery afloat This book covers the design development and operational history of the Union's Monitor fleet [Union River Ironclad 1861-65](#) Angus Konstam, 2012-12-20 At the start of the American Civil War neither side had warships on the Mississippi River which was a vital strategic artery In what would prove the vital naval campaign of the war both sides fought for control of the river While the Confederates relied on field fortifications and small gunboats the Union built a series of revolutionary river ironclads First commissioned in January 1862 these ironclads spent the next two years battling for control of the Mississippi fighting in a string of decisive engagements that altered the entire course of the war This book explains how these vessels worked how they were constructed how they were manned and how they were fought *Ironclad Captains of the Civil War* Myron J. Smith, Jr., 2018-11-29 From 1861 to 1865 the American Civil War saw numerous technological innovations in warfare chief among them was the ironclad warship Based on the Official Records biographical works ship and operations histories newspapers and other sources this book chronicles the lives of 158 ironclad captains North and South who were charged with outfitting and commanding these then revolutionary vessels in combat Each biography includes where known birth and death information pre and post war career and details about ships served upon or commanded **Tinclads in the Civil War** Myron J. Smith, Jr., 2010-01-13 Once the Union Army gained control of the upper rivers of the Mississippi Valley during the first half of 1862 slow and heavy ironclads proved ineffective in patrolling the waters Hastily outfitted steamboats were covered with thin armor and pressed into duty These tinclads fought Confederate forces attacking from the riverbanks provided convoy for merchant steamers enforced revenue measures and offered tow dispatch and other fleet support services This history documents the service records and duties of these little known vessels of the Union fleet [The Old War Horse](#) Myron J. Smith, Jr., 2024-02-26 With a unique prewar history as a snagboat and James B Eads noted catamaran salvage vessel the Benton survived a tumultuous government acquisition process and conversion to become flagship of the Union's Civil War Western river navy From Island No 10 through the Vicksburg and Red River campaigns the revolutionary ironclad participated in both combat and administrative activities earning a prominent place in nautical legend and literature This first book length profile of the warship reveals little known details of both her prewar and wartime career and reviews her final disposal **The USS Carondelet** Myron J. Smith, Jr., 2010-04-13 The USS Carondelet had a revolutionary ship design

and was the most active of all the Union's Civil War river ironclads. From Fort Henry through the siege of Vicksburg and from the Red River campaign through the Battle of Nashville the gunboat was prominent in war legend and literature. This history draws on the letters of Ensign Scott Dyer Jordan and Rear Adm Henry Walke's memoirs. After Vicksburg Myron J. Smith, Jr., 2021-11-01. This is the first published comprehensive survey of naval action on the Mississippi River and its tributaries for the years 1863-1865. Following introductory reviews of the rivers and of the U.S. Navy's Mississippi Squadron, chronological Federal naval participation in various raids and larger campaigns is highlighted, as well as counterinsurgency, economical support and control, and logistical protection. The book includes details on units, locations, and activities that have been previously underreported or ignored. Examples include the birth and function of the Mississippi Squadron's 11th District, the role of U.S. Army gunboats, and the war on the Upper Cumberland and Upper Tennessee Rivers. The last chapter details the coming of the peace in 1865 and the decommissioning of the U.S. river navy and the sale of its gunboats. *Duel of the Ironclads* Angus Konstam, 2003-03-11. Previously published in three separate volumes as *Campaign 103*, *Hampton Roads 1862*, *New Vanguard 41*, *Confederate Ironclad 1861-65*, and *New Vanguard 45*, *Union Monitor 1861-65*. When the ironclad USS Monitor steamed out to meet the CSS Virginia on 9 March 1862, the face of naval warfare was changed forever. A four-hour duel left neither ship victorious, but in the wake of the battle, wooden warships were rendered obsolete. This book details the clash at Hampton Roads, as well as tracing the development of ironclads within the Union and Confederate fleets. Union ironclads evolved quickly from the time of the production of the Monitor, so that by the end of the war, the US Navy possessed the most powerful artillery afloat. The Confederate fleet, meanwhile, was born out of the hulks of existing vessels in naval yards and backwaters, within sight of the enemy; its very existence was a tribute to the ingenuity of Southern shipbuilders.

American Civil War Railroad Tactics Robert R. Hodges Jr., Robert R. Hodges, 2009-08-18. Osprey's study of the battles fought on America's railroads during the Civil War, 1861-1865. The American Civil War was the world's first full-blown railroad war. The well-developed network in the North was of great importance in serving the Union army's logistic needs over long distances, and the sparser resources of the South were proportionately even more important. Both sides invested great efforts in raiding and wrecking enemy railroads and defending and repairing their own, and battles often revolved around strategic rail junctions. Robert Hodges reveals the thrilling chases and pitched battles that made the railroad so dangerous and resulted in a surprisingly high casualty rate. He describes the equipment and tactics used by both sides and the vital supporting elements: maintenance works, telegraph lines, fuel, and water supplies, as well as garrisoned blockhouses to protect key points. Full-color illustrations bring the fast-paced action to life in this fascinating read, a must-have volume for both rail and Civil War enthusiasts. *Confederate Blockade Runner 1861-65* Angus Konstam, 2022-05-26. The lifeblood of the Confederacy, the blockade runners of the Civil War usually began life as regular, fast-steam-powered merchant ships. They were adapted for the high-speed dashes through the Union blockade, which closed off all the major Southern ports, and for

much of the war they brought much needed food clothing and weaponry to the Confederacy This book traces their operational history including the development of purpose built blockade running ships and examines their engines crews and tactics It describes their wartime exploits demonstrating their operational and mechanical performance whilst examining what life was like on these vessels through accounts of conditions on board when they sailed into action
