Ways of Worldmaking Nelson Goodman,1978-01-01 Provides a workable notion of the kinds of skills and capacities that are central for those who work in the arts

Cultural Ways of Worldmaking Vera Nünning,Ansgar Nünning,Birgit Neumann,2010-06-29 Taking as its point of departure Nelson Goodman s theory of symbol systems as delineated in his seminal book *Ways of Worldmaking* this volume gauges the possibilities and perspectives offered by the worldmaking approach as a model for the study of culture Its main objectives are to explore the usefulness and scope of the approach for the study of culture and to supplement Goodman s philosophy of worldmaking with a number of complementary disciplinary perspectives literary and cultural approaches and new questions and applications It focuses on three key issues or concepts which illuminate ways of worldmaking and their interdisciplinary relevance and ramifications viz 1 theoretical approaches to ways of worldmaking 2 the impact of media on ways of worldmaking and 3 narratives as ways of worldmaking The volume serves to demonstrate how specific media and narratives affect the worlds that are created and shows how these worlds are established as socially relevant It also illustrates the extent to which ways of worldmaking are imbued with cultural values and thus inevitably implicated in power relations

Worldmaking William Pencak,1996 We are not born into a world We create one from an infinity of possible worlds The critic of institutions makes us aware of this The seventeen essays in this volume comprise investigations into religious

philosophical racial gendered literary legal federalist class based historical and scientific worldmaking They semiotically inquire into the diverse contexts and contents of worldmaking which define the collective adventure of humanity **Against Relativism** James Franklin Harris,1992 Recent decades have witnessed the extraordinary growth of radical relativism a doctrine which now dominates the entire culture from popular music to journalism and from religion to school curricula According to the radical relativist creed any proposition can be true or false in relation to a chosen framework the evaluation of fundamental theories or paradigms is beyond argument there are no universal standards of rationality and methodologically Anything goes As James Harris explains in *Against Relativism* the new relativism undoes the work of the Enlightenment and inevitably leads to the conclusion that Galileo was wrong to insist that the Earth indeed moves Succor for relativism has come from many philosophical schools both Analytic and Continental Among the sources of the new relativism are the collapse of Logical Positivism and the shift within anthropology from a linear evolutionary model to numerous models for understanding human culture In this detailed critique Professor Harris has selected the strongest and most plausible arguments for relativism within contemporary academic philosophy He turns the techniques of relativism against relativism itself showing that it is ultimately self refuting or otherwise ineffectual He demonstrates that Quine s rejection of the analytic synthetic distinction appeals to the very analytic truths Quine tries to dispel that Kuhn s celebrated account of paradigms must be either self refuting or unintelligible that Rorty cannot avoid presupposing the epistemological principles he attacks and that although feminist criticisms of science exert a welcome corrective attempts to develop a distinctively feminist science are misconceived and unhelpful to feminism In all these discussions the author explains the arguments he is criticizing for the benefit of the non specialist reader so that this work can serve as a partisan but fair introduction to some of the most important of present day philosophical debates Indian Philosophical Quarterly ,1985 **The Journal of Aesthetic Education** ,1991 Includes special issues **Journal for the Study of the Old Testament** ,1992 *Philosophy Unmasked* Laurie Calhoun,1997 A scathing critique of analytic philosophy contending that philosophy is a subjective enterprise and snubbing its nose at all first order philosophical theories Biting the hand that feeds her Calhoun philosophy State U of New York advances a metaphilosophical theory arguing that academia discourages skepticism among students excludes non philosophers from dialogue and perpetuates a false notion of philosophical proof which renders contemporary philosophy inaccessible and of little relevance to human life She bolsters her criticism with references to Richard Rorty and is clear as a bell in her polemics This volume will surely upset stomachs in the ivory tower Annotation copyrighted by Book News Inc Portland OR Planetary Biostyles Rodanthi Tzanelli,2025-01-09 This innovative book addresses what life is in scholarship and public culture explores how it has been valued in the Anthropocene since the birth of critical theory and designs a new approach to understanding biographical styles of life or biostyles **The Persistence of Reality** Joseph Margolis,1986 *World-making* Lorraine Beryl Valestuck,1995 *Music and Signs* Ioannis Zannos,1999
