Reading Rural Landscapes Robert Stanford, 2015-09-15 Everywhere we go in rural New England the past surrounds us In the woods and fields and along country roads the traces are everywhere if we know what to look for and how to interpret what we see A patch of neglected daylilies marks a long abandoned homestead A grown over cellar hole with nearby stumps and remnants of stone wall and orchard shows us where a farm has been reclaimed by forest And a piece of a stone dam and wooden sluice mark the site of a long gone mill Although slumping back into the landscape these features speak to us if we can hear them and they can guide us to ancestral homesteads and famous sites Lavishly illustrated with drawings and color photos Provides the keys to interpret human artifacts in fields woods and roadsides and to reconstruct the past from surviving clues Perfect to carry in a backpack or glove box A unique and valuable resource for road trips genealogical research naturalists and historians

Garden Spot David J. Walbert, 2002 Lancaster County Pennsylvania has been known for two centuries as the Garden Spot of America a quintessentially rural place Walbert considers what it means to be the Garden Spot in a culture that associates rurality with the past and asks whether or not a truly rural future is possible for such communities
