Handbook of Constructionist Research James A. Holstein, Jaber F. Gubrium, 2013-10-21 Constructionism has become one of the most popular research approaches in the social sciences But until now little attention has been given to the conceptual and methodological underpinnings of the constructionist stance and the remarkable diversity within the field This cutting edge handbook brings together a dazzling array of scholars to review the foundations of constructionist research how it is put into practice in multiple disciplines and where it may be headed in the future The volume critically examines the analytic frameworks strategies of inquiry and methodological choices that together form the mosaic of contemporary constructionism making it an authoritative reference for anyone interested in conducting research in a constructionist vein

Lectures on Political Theory 1941-45 John Anderson, 2007-12-07 Delivered during the years of heightened national security of World War II these lectures present Anderson s views on the major questions in political theory in relation to the major influences upon his own early education modern Idealism and Marxism In place of a simplistic contrast between individual and state Anderson insisted upon the complex interplay of movements institutions and traditions His modernist realist project drew upon the major theorists of conflict struggle and cyclic historical movement Heraclitus Vico and Sorel

Thinking Ethnographically Paul Atkinson, 2017-05-08 Written by a leading authority this book discusses a wide range of

analytic ideas that can and should inform ethnographic analysis In introducing the notion of granular ethnography it argues for an approach to qualitative research that is sensitive to the complexities of everyday social life A much needed antidote to superficial research and analysis the text deals not merely with the practical methods of fieldwork but with the far more ambitious enterprise of turning ethnographic data into productive ideas and concepts Paul Atkinson enables us not merely to do ethnography but truly to think ethnographically His book will prove invaluable to students and researchers across the social sciences

Thinking Ecologically in Educational Policy and Research Sarah Winchell Lenhoff, Jeremy Singer, Michael Gottfried, 2024-02-29 This book places a focus on educational ecosystems that is understanding the complex nature of educational experiences and promoting a coordinated set of policy and practice solutions to address interrelated problems that manifest in school and student outcomes Educational policy and politics have been dominated by school improvement initiatives that locate educational problems and solutions in schools themselves rather than in the systemic and structural roots of those problems segregation poverty and histories of compounding inequality Youth outcomes that we associate with schools e g achievement attendance graduation are the consequences of systemic structural and environmental factors that interact with the lived experiences of students in their communities and schools This insightful volume provides examples of how to understand and analyse educational issues ecologically and evidence on the opportunities and challenges with forging cross sector partnerships to address educational issues ecologically Thinking Ecologically in Educational Policy and Research will be a key resource for practitioners and researchers of education leadership and policy educational administration educational research educational studies and sociology This book was originally published as a special issue of the Peabody Journal of Education
