The Thinking Machine on the Case Jacques Futrelle, 2015-12-22 America's smartest sleuth solves his most puzzling cases yet Professor Augustus S F X Van Dusen may look and sound like an egghead scientist because he is one but there is no detective in the world villains fear more With the help of his friend and sidekick newspaper reporter Hutchison Hatch the criminologist known as The Thinking Machine applies cold hard logic to the most bizarre of mysteries and always finds the solution In this comprehensive collection Van Dusen investigates the enigmas of The Midnight Message The Gap in the Trail A Fool of Good Intention The Woman in the Case and many others No matter how twisted the trail of clues or diabolical the evildoer the Thinking Machine knows that two and two make four not some times but all the time In other words take heed crooks your cleverest schemes are not match for this genius detective This ebook has been professionally proofread to ensure accuracy and readability on all devices

The Thinking Machine Jacques Futrelle, 2014-08-26 For the world's most brilliant criminologist every mystery has a solution His name is Professor Augustus S F X Van Dusen but to the newspapers he is known as The Thinking Machine Slender stooped his appearance dominated by his large forehead and perpetual squint Van Dusen spends his days in the laboratory and his nights puzzling over the details of extraordinary crimes What seems beyond comprehension to the police is mere amusement to the professor All things that start must go somewhere he firmly believes and with the application of logic all problems can be solved Whether unraveling a perfect murder investigating a case of corporate espionage or reasoning his way out of an inescapable prison cell Van Dusen lets no detail elude his brilliant mind In this highly entertaining collection featuring many of the stories that made The Thinking Machine a national sensation ingenious criminals and ruthless villains are no match for an egghead scientist This ebook has been professionally proofread to ensure accuracy and readability on all devices

The Thinking Machine on the Case Jacques Futrelle, 1908 The Thinking Machine Jacques Futrelle, 2023-06-06 This entertaining short story collection features Professor Augustus S F X Van Dusen nicknamed The Thinking Machine a brilliant but abrasive scientist who proves time and again that any puzzle can be solved by the application of logic Could you beat the world chess master in one try if you'd never played or studied the game Or plot and execute a successful escape from an inescapable prison cell And could you do it at the turn of the twentieth century without benefit of modern technology Sound impossible Never use that word in the presence of The Thinking Machine it angers him greatly and does not give him a favorable impression of the user Professor Augustus S F X Van Dusen knows that both feats are indeed possible having accomplished them himself But he also applies his superior intellect and deductive reasoning to more official ends namely helping the police solve impossible crimes With assistance from reporter Hutchinson Hatch who is only too happy to suggest potential cases and then write about the outcome The Thinking Machine proves that no puzzle is unsolvable not corporate espionage nor a kidnapped baby nor a pilfered necklace And certainly not a perfect murder

The Supernatural and Fantastic in Short Detective Fiction Laird R. Blackwell, 2020-10-30 Although

fantasy and supernatural literature have long and celebrated histories many critics contend that the fantastic and the supernatural have no place in the logical rational world of the detective story This book is the first extensive study of the fantastic in detective fiction and it explores the highly debated question of whether detective fiction and the fantastic can comfortably coexist The locked room mystery which often uses the fantastic as a red herring to eventually be debunked by reason and logic has long been among the most popular subgenres of detective fiction This book also explores stories featuring almost supernaturally gifted detectives stories where the supernatural is truly encountered and stories with ambiguous endings Close to 500 detective stories from 1841 to 2000 in which the fantastic or supernatural plays a central role are discussed and analyzed Although not all the stories are judged to be successful as detective tales in the great majority the fantastic enlivens the tale and deepens the mystery without weakening the detective elements **The**

Futrelle,2018-09-15 The Problem of Cell 13 Jacques Futrelle The public knew Professor Augustus S F X Van Dusen as The Thinking Machine and perhaps this phrase described him best of all He always was in his small laboratory where he invented brilliant theories that shocked scientists and had a profound effect on the world Once he argued with his friends he tried to convince that the mind is master of everything No man can escape from a cell just using only his brain If it could be possible no prisoners would be at all Just let s imagine a case A cell for prisoners who are condemned to death These men will do anything to try to escape Imagine you were in that cell Could you escape Certainly lock me in any cell of any prison where you want in any time give me only casual clothes and I ll escape from there only in a week
