Profitable Posts Social Media Marketing Plan to Build an Online Business to Profit Up to Six Figures

,2024-01-22 INTRODUCTION There comes a time when the elastic snaps When you push yourself to breaking point and everything crashes down My breaking point came on a gloomy Monday morning commute in 2015 Sitting in my car waiting for the lights to change I looked at two guys in their cars on either side of me They looked as miserable as I felt At that moment I burst into tears What the fuck was I doing with my life I was unhappy in my personal life and hated my job I couldn't see a way out I was too invested in my career too old to start again Looking back I didn't know jack shit about building a fitness business Corporate marketing is one thing Doing everything from scratch alone in a different industry is another I didn't have a creative agency or a multimillion pound budget All I had was a Personal Trainer certificate and the ironparadisefitness.com domain name Nevertheless I started building my online empire Or as I now refer to it pissing in the wind for two years I would write lousy articles post selfies and wonder why clients weren't beating down my virtual door Desperate to carve a way out of corporate life I vowed not to quit My business was my obsession Going out meeting friends and taking a break were a rarity I thought it was the only way to be successful I became a hermit A recluse Like the creepy guy kids fear in horror movies That's Old Man Mitchell from No 29 He never leaves the house Some say he only goes outside to dispose of the dead bodies I wasn't that bad but my social life went on ice I studied nutrition and learned the intricacies of exercise mechanics I read books and invested in courses on social media copywriting and web design Iron Paradise Fitness had consumed my entire life and I loved it It was the fire in my belly I'd been missing The passion I needed Although it did make for awkward conversations on Tinder dates What do you like to do in your spare time The innocent question would come Well I'm building my own business right now so that's my main focus Ah cool But what do you like to do for fun Work on my business Yeah but what about when you're not doing that I'm either working on my business thinking about working on my business or eating Oh

The Resurrection of America C. Warren Ellis, 2010-04 The Resurrection of America brings to the attention of Americans the many dangers facing our country from within This book looks at the issues that exist today as a result of an out of control government and it offers some proposed solutions The author suggests changes at all levels of government and commerce based on our constitutional rights The Resurrection of America looks at the policies and actions of the federal and state governments the current economic disaster the huge and ever growing federal debt and individual states that are struggling with financial challenges Emphasis is placed on the rights of consumers in an increasingly corporate dominated economy The inspiration for this book came straight out of the Constitution of the United States C Warren Ellis was born in rural Pennsylvania the second youngest in a family of seven children After being honorably discharged from the Air Force before his 21st birthday he held several jobs prior to returning to technical school to further his education in electronics With over 50 years of both blue and white collar employment in such well known companies as IBM he has observed first hand the effects of government on tax burdens the economy and

unemployment The realization that the United States is on a slippery slope away from the Constitution in terms of government and civil rights led to this book One half of the author s proceeds from the sale of this book is pledged to the Wounded Warrior Project www.woundedwarriorproject.org Publisher s website <http://www.strategicpublishinggroup.com> title The Resurrection of America htm

The Bluejacket's Manual Thomas J. Cutler,2017-11-15 From the days of oars and coal fired engines to the computerized era of the 21st century The Bluejacket s Manual has been an essential part of the American Sailor s sea bag for over one hundred years serving as an introduction to the Navy for new recruits and as a reference book for Sailors of all ranks Written by a Sailor whose decades of naval service included sea duty in patrol craft destroyers cruisers and aircraft carriers as both an officer and a white hat this newest edition has been overhauled to reflect the current state of the ever evolving United States Navy and includes chapters on ships and aircraft uniforms weapons damage control communications naval customs and ceremonies security leadership pay and benefits naval missions military fundamentals and seamanship Since Lieutenant Ridley McLean wrote the first edition of this perennial classic the Navy has grown from fledgling sea power to master of the world s oceans and both technology and American culture have changed in ways probably unimaginable in his day Although The Bluejacket s Manual has necessarily evolved through more than twenty revisions to reflect those changes its original purpose has remained steadfastly on course Like its predecessors this new edition makes no attempt to be a comprehensive textbook on all things naval to do so today would require a multivolume set that would defy practicality but it continues to serve two very important purposes First it serves as a primer that introduces new recruits to their Navy and helps them make the transition from civilian to Sailor Second it serves as a handy reference that Sailors can rely on as a ready source of basic information as they continue their service whether for only one hitch or for an entire career To that end this 25th edition has been reorganized to more efficiently reflect those dual purposes with the first part of the book consisting of Chapters that provide introductions and basic explanations that Sailors new to the Navy will find most helpful and the second part consisting of Tabs that deal with specifics often mere tables that seasoned Sailors will find useful for reference purposes Also unique to this latest edition has been the creation of an accompanying website that will serve to keep the book current and provide valuable supplementary material In total this latest edition of a recognized Navy classic continues to serve today s Bluejackets and Old Salts in the traditional manner while providing a fresh approach that will be welcomed by potential recruits Navy buffs and a growing number of Bluejacket Manual collectors
