Wereldgeschiedenis Van Prehistorie Tot Heden Deel 1 Oudheid En Middeleeuwen:

Echoing Events Tina van der Vlies, 2022-12-12 Echoing Events questions the perpetuation actualization and canonization of national narratives in English and Dutch history textbooks wide reaching media that tendentially inspire a sense of meaning memory and thus also identity The longitudinal study begins in the 1920s when the League of Nations launched several initiatives to reduce strong nationalistic visions in textbooks and ends in the new millennium with the revival of national narratives in both countries The analysis shows how and why textbook authors have narrated different histories which vary in terms of context epoch and place as echoing events by using recurring plots and the same combinations of historical analogies This innovative and original study thus investigates from a new angle the resistance of national narratives to change National Union Catalog ,1956 Includes entries for maps and atlases *De dam bij Wijk en het Kromme Rijngebied in de middeleeuwen* A.A.B. van Bommel, K.M. The subject of this study is a relatively rare category of artefacts bronze and terracotta statuettes that represent deities human figures and animals They were introduced in the northwestern provinces by Roman troops from the end of the 1st century BCE onwards The statuettes have been recovered from military and non military settlements the surrounding landscape and to a far lesser extent from sanctuaries and graves Until now their meaning and function have seldom been analysed in relation to their find spots Contrary to traditional studies they have been examined as one separate category of artefacts which offers new insights into the distribution pattern and iconographic representation of deities When studying a group of artefacts a large research area or a large dataset is required as well as dateable artefacts and find contexts These conditions do not apply to the Netherlands and to the majority of statuettes that are central to this study Moreover although the changing appearance of statuettes suggest a transformation of cults the identities of the owners of these statuettes remain invisible to us Therefore the issue of Romanization is not put central here Instead the focus is on a specific aspect of religion known as lived religion within the wider subject of its transformation in the Roman period how people used statuettes in everyday life in the context of their houses and settlements *Programme des cours* Université catholique de Louvain (1835-1969), 1962 **Grote Winkler Prins** J.
