What Is The Human Being Kants Questions:

What is the Human Being? Patrick R. Frierson, 2013-02-11 Philosophers anthropologists and biologists have long puzzled over the question of human nature It is also a question that Kant thought about deeply and returned to in many of his writings In this lucid and wide ranging introduction to Kant s philosophy of human nature which is essential for understanding his thought as a whole Patrick R Frierson assesses Kant s theories and examines his critics He begins by explaining how Kant articulates three ways of addressing the question what is the human being the transcendental the empirical and the pragmatic He then considers some of the great theorists of human nature who wrestle with Kant s views such as Hegel Marx Darwin Nietzsche and Freud contemporary thinkers such as E O Wilson and Daniel Dennett who have sought biological explanations of human nature Thomas Kuhn Michel Foucault and Clifford Geertz who emphasize the diversity of human beings in different times and places and existentialist philosophers such as Sartre and Heidegger He argues that whilst these approaches challenge and enrich Kant s views in significant ways all suffer from serious weaknesses that Kant s anthropology can address Taking a core insight of Kant s that human beings are fundamentally free but finite he argues that it is the existentialists particularly Sartre who are the most direct heirs of his transcendental anthropology The final part of the book is an extremely helpful overview of the work of contemporary philosophers particularly Christine Korsgaard and Jürgen Habermas Patrick R Frierson explains how these philosophers engage with questions of naturalism historicism and existentialism while developing Kantian conceptions of the human being Including chapter summaries and annotated further reading What is the Human Being is an outstanding introduction to some fundamental aspects of Kant s thought and a judicious assessment of leading theories of human nature It is essential reading for all students of Kant and the philosophy of human nature as well as those in related disciplines such as anthropology politics and sociology **Kant on Freedom and Human Nature** Luigi Filieri, Sofie Møller, 2023-08-25 The essays in this volume provide new readings of Kant s account of human nature Despite the relevance of human nature to Kant s philosophy little attention has been paid to the fact that the question about human nature originally pertains to pure reason The chapters in this volume show that Kant s point is not to state once and for all what the human being actually is but to unite pure reason s efforts within a unitary teleological perspective The question about human nature is the cornerstone of reason s unity in its different activities and domains Kant s question about human nature goes beyond our empirical inquiries to show that the notion of humanity represents the point of convergence and unity of pure reason s most fundamental interests Kant on Freedom and Human Nature will appeal to scholars and advanced students working on Kant s philosophy System and Freedom in Kant and Fichte Giovanni Pietro Basile, Ansgar Lyssy, 2022-06-30 This book investigates various aspects of freedom as developed in the philosophical systems of Kant and Fichte Freedom both Kant and Fichte insist does not mean that we can choose or think independently from all rules or necessity but rather that we willingly accept a certain kind of submission under these rules

Therefore the conditions of our knowledge affect and inform our self understanding our willing and the ways we justify our practical choices The essays in this volume explore both philosophers conceptions of human freedom as they relate to art history politics and religion They reveal how integrating freedom into a system of thought is crucial for our understanding of modern philosophy System and Freedom in Kant and Fichte will be of interest to scholars and advanced students working on Kant modern philosophy and German Studies

The Mystery of Existence Ingolf U. Dalferth, 2025-08-22 Philosophy of religion as is often demanded today must change from a philosophy of religion to a philosophy of religions otherwise it has no academic future in a pluralistic world It should look at religions worldwide in all their diversity and no longer be content with a construct of religion in the tradition of Western theism The criticism is often justified However the proposed alternatives do not offer a solution but only multiply the problems That is why this study takes a different approach We can learn from Kant and Kierkegaard that existential problems and not questions of religion are at the center of the philosophy of religion Philosophy of religion is not primarily concerned with knowledge about religion or religions but with self knowledge Like all critical philosophy it aims to enable self thinking self assessment and self action This existential turn in the philosophy of religion is concretized in four central areas of existential challenges the relationship between existence and the idea of God between meaning absurdity and existence between existence and evil and between infinite love and finite existence Das Mysterium der Existenz Religionsphilosophie und die existentielle Wende Religionsphilosophie so wird heute oft gefordert muss sich von einer Religionsphilosophie zu einer Philosophie der Religionen wandeln sonst hat sie in einer pluralistischen Welt keine akademische Zukunft Sie sollte die Religionen weltweit in ihrer ganzen Vielfalt in den Blick nehmen und sich nicht mehr mit einem Konstrukt von Religion in der Tradition des westlichen Theismus begnügen Die Kritik ist oft berechtigt Die vorgeschlagenen Alternativen bieten jedoch keine Lösung sondern vervielfachen nur die Probleme Deshalb wählt diese Studie einen anderen Ansatz Von Kant und Kierkegaard können wir lernen dass existenzielle Probleme und nicht Fragen der Religion im Mittelpunkt der Religionsphilosophie stehen In der Religionsphilosophie geht es nicht in erster Linie um Wissen über Religion oder Religionen sondern um Selbsterkenntnis Wie jede kritische Philosophie zielt sie darauf ab Selbstdenken Selbstbeurteilung und Selbsthandeln zu ermöglichen Diese existenzielle Wende in der Religionsphilosophie wird in vier zentralen Bereichen existenzieller Herausforderungen konkretisiert dem Verhältnis zwischen Existenz und Gottesidee zwischen Sinn Absurdität und Existenz zwischen Existenz selbst und Beseitigung und zwischen unendlicher Liebe und endlicher Existenz

Kant's Human Being Robert B. Louden, 2011-07-25 In Kant's Human Being Robert B Louden continues and deepens avenues of research first initiated in his highly acclaimed book Kant's Impure Ethics Drawing on a wide variety of both published and unpublished works spanning all periods of Kant's extensive writing career Louden here focuses on Kant's under appreciated empirical work on human nature with particular attention to the connections between this body of work and his much discussed ethical theory Kant repeatedly claimed that the question What is the human being is philosophy's

most fundamental question one that encompasses all others Louden analyzes and evaluates Kant's own answer to his question showing how it differs from other accounts of human nature This collection of twelve essays is divided into three parts In Part One Human Virtues Louden explores the nature and role of virtue in Kant's ethical theory showing how the conception of human nature behind Kant's virtue theory results in a virtue ethics that is decidedly different from more familiar Aristotelian virtue ethics programs In Part Two Ethics and Anthropology he uncovers the dominant moral message in Kant's anthropological investigations drawing new connections between Kant's work on human nature and his ethics Finally in Part Three Extensions of Anthropology Louden explores specific aspects of Kant's theory of human nature developed outside of his anthropology lectures in his works on religion geography education and aesthetics and shows how these writings substantially amplify his account of human beings Kant's Human Being offers a detailed and multifaceted investigation of the question that Kant held to be the most important of all and will be of interest not only to philosophers but also to all who are concerned with the study of human nature

Nietzsche's Engagements with Kant and the Kantian Legacy Marco Brusotti, Herman Siemens, João Constâncio, Tom Bailey, 2017-02-23 Nietzsche has often been considered a thinker independent of the philosophy of his time and radically opposed to the concerns and concepts of modern and contemporary philosophy But there is an increasing awareness of his sophisticated engagements with his contemporaries and of his philosophy's rich potential for debates with modern and contemporary thinkers Nietzsche's Engagements with Kant and the Kantian Legacy explores a significant field for such engagements Kant and Kantianism Bringing together an international team of established Nietzsche scholars who have done extensive work in Kant contributors include both senior scholars and young upcoming researchers from a broad range of countries and traditions Working from the basis that Nietzsche is better understood as thinking with and against Kant and the Kantian legacy they examine Nietzsche's explicit and implicit treatments of Kant Kantians and Kantian concepts as well as the philosophical issues that they raise for both Nietzschean and Kantian philosophy Divided into three volumes the focus is on specific areas and texts of Kant's philosophy Nietzsche Kant and the Problem of Metaphysics Nietzsche and Kantian Ethics Nietzsche and Kant on Aesthetics and Anthropology Each volume draws extensively on the flourishing recent literature from both analytic and continental traditions in English German and other languages By responding to scholarly interest in the critical relations between Nietzsche and Kant this series of volumes presents the first systematic study of the pairing of two major European thinkers from the modern period

An Essay Intended to Interpret and Develop Unsolved Ethical Questions in Kant's 'Groundwork of the Metaphysics of Ethics' David Rowland, 1871 **An Essay intended to interpret and develop unsolved ethical questions in Kant's "Groundwork of the Metaphysic of Ethics."** David ROWLAND (Solicitor.), 1871

Immanuel Kant's Critique of Pure Reason Immanuel Kant, 1881 *Kant: Anthropology from a Pragmatic Point of View* Immanuel Kant, 2006-03-02 This volume offers a translation of Kant's pioneering contribution to the discipline of

anthropology Kant and the Problem of Metaphysics Martin Heidegger,1990 This edition of Heidegger's work on Kant's Critique of Pure Reason originally published in 1929 includes marginal notations made by Heidegger in his personal copy of the book and four new appendices of his postpublication notes his review of Ernst Cassirer's Philosophy of Symbolic Forms his response to reviews by Rudolf Odebrecht and Cassirer and an essay On the History of the Philosophical Chair since 1866 No index Annotation copyrighted by Book News Inc Portland OR **Immanuel Kant's Critique of Pure Reason, in Commemoration of the Centenary of Its First Publication** Immanuel Kant,1905 **Kant** William Wallace,1882 A Commentary to Kant's Critique of Pure Reason Norman Kemp Smith,1918 *Kant and the Problem of Metaphysics* Martin Heidegger,1962 **A Study of Kant's Psychology with Reference to the Critical Philosophy** Edward Franklin Buchner,1897 **A Study of Kant's Psychology** Edward Franklin Buchner,1897 **Kant on Human Dignity** Oliver Sensen,2011 Immanuel Kant is often considered to be the source of the contemporary idea of human dignity but his conception of human dignity and its relation to human value and to the requirement to respect others have not been widely understood Kant on Human Dignity offers the first in depth study in English of this subject Based on a comprehensive analysis of all the passages in which Kant uses the term dignity as well as an analysis of the most prominent arguments for a value of human beings in the Kant literature the book carefully examines different ways of construing the relationship between dignity value and respect for others It takes seriously Kant's Copernican Revolution in moral philosophy Kant argues that moral imperatives cannot be based on any values without yielding heteronomy Instead it is imperatives of reason that determine what is valuable The requirement to respect all human beings is one such imperative Respect for human beings does not follow from human dignity for this would violate autonomy but is an unconditional command of reason Following this train of thought yields a unified account of Kant's moral philosophy **Kant's radical evil. Religion within the boundary of pure reason** Melissa Grönebaum,2014-02-03 Essay from the year 2013 in the subject Philosophy Philosophy of the 17th and 18th Centuries grade 1 2 National University of Ireland Galway language English abstract Der Mensch ist von Natur aus böse Human nature is evil Stating this Kant refers to a problem which has been from time immemorial a problem of Moral Philosophy But what exactly does Kant mean stating this One interpretation could be that nature brings the evilness from the outside and makes a human evil that it is the environment which is responsible for any human evilness Another interpretation could be that men are evil by nature in a way that they are born evil and evilness is a human's feature why everybody is evil Probably Kant did not either mean the one nor the other *Kant.
