Within And Without Empire Scotland Across The Postcolonial Borderline:

Within and Without Empire Theo van Heijnsbergen, Carla Sassi, 2014-01-08 The concept of the border evoked by the title of the present volume provides a central interpretative key for our project at more than one level as it is suggestive both of Scotland as a theoretical borderland in relation to the Empire and postcoloniality and of our attempt at bringing into dialogue scholars from different disciplinary backgrounds including Scottish Celtic and postcolonial studies The Scotland of the present volume's title is thus suggestive of a critical standpoint *Medievalia et Humanistica, No. 41* Reinhold F. Gleijeses, 2015-12-17 Since its founding in 1943 *Medievalia et Humanistica* has won worldwide recognition as the first scholarly publication in America to devote itself entirely to medieval and Renaissance studies Since 1970 a new series sponsored by the Modern Language Association of America and edited by an international board of distinguished scholars and critics has published interdisciplinary articles In yearly hardcover volumes the new series publishes significant scholarship criticism and reviews treating all facets of medieval and Renaissance culture history art literature music science law economics and philosophy Volume 41 is a special issue which features twelve outstanding articles from the International Conference on Medieval and Renaissance Scottish Language and Literature **Recovering Scotland's Slavery Past** Tom M. Devine, 2015-09-17 The first ever book length attempt to strip away the myths and write the real history of Scotland's slavery past Written to appeal to a wide audience it contains many original surprising and uncomfortable conclusions

Gaelic Scotland in the Colonial Imagination Silke Stroh, 2016-12-15 Can Scotland be considered an English colony Is its experience and literature comparable to that of overseas postcolonial countries Or are such comparisons no more than patriotic victimology to mask Scottish complicity in the British Empire and justify nationalism These questions have been heatedly debated in recent years especially in the run up to the 2014 referendum on independence and remain topical amid continuing campaigns for more autonomy and calls for a post Brexit indyref2 *Gaelic Scotland in the Colonial Imagination* offers a general introduction to the emerging field of postcolonial Scottish studies assessing both its potential and limitations in order to promote further interdisciplinary dialogue Accessible to readers from various backgrounds the book combines overviews of theoretical social and cultural contexts with detailed case studies of literary and nonliterary texts The main focus is on internal divisions between the anglophone Lowlands and traditionally Gaelic Highlands which also play a crucial role in Scottish English relations Silke Stroh shows how the image of Scotland's Gaelic margins changed under the influence of two simultaneous developments the emergence of the modern nation state and the rise of overseas colonialism

Empire and Emancipation S. Karly Kehoe, 2022-01-28 Catholics Colonies and the Imperial State Imperial Security and Catholic Relief Colonial Catholics and Constitutional Change Developments in Cape Breton Island and Nova Scotia Engaging with Imperial Traditions Military Mobilization and Slavery Enabling Ambition through Education The Decline of Lay Authority Ecclesiastical Reorganization and Imperial Power in Trinidad and Newfoundland **Scotland and the Caribbean,**

c.1740-1833 Michael Morris, 2015-03-12 This book participates in the modern recovery of the memory of the long forgotten relationship between Scotland and the Caribbean Drawing on theoretical paradigms of world literature and transnationalism it argues that Caribbean slavery profoundly shaped Scotland's economic social and cultural development and draws out the implications for current debates on Scotland's national narratives of identity Eighteenth to nineteenth century Scottish writers are re-examined in this new light Morris explores the ways that discourses of improvement in both Scotland and the Caribbean are mediated by the modes of pastoral and georgic which struggle to explain and contain the labour conditions of agricultural labourers both free and enslaved The ambivalent relationship of Scottish writers including Robert Burns to questions around abolition allows fresh perspectives on the era Furthermore Morris considers the origins of a hybrid Scottish Creole identity through two nineteenth century figures Robert Wedderburn and Mary Seacole The final chapter moves forward to consider the implications for post devolution post referendum Scotland Underpinning this investigation is the conviction that collective memory is a key feature which shapes behaviour and beliefs in the present the recovery of the memory of slavery is performed here in the interests of social justice in the present Reappraisals of British Colonisation in Atlantic Canada, 1700-1930

Karly Kehoe, 2020-05-01 This collection offers new perspectives on the legacy of British colonisation by concentrating on Atlantic Canada a region that was pivotal to safeguarding Britain's imperial ambitions between 1750 and 1930 **Contested Identities** Roger Nicholson, Gertrud Szamosi, Claudia Marquis, 2015-09-04 This volume brings together essays that individually and collectively address the force of the literary text with regard to problematic identities They work out of shared concerns with literary representations of this issue in different regions nations and communities that often prove divided they pursue questions related to textual identity where the literary text itself is contested internally or in its generic and historical relations In sum these studies actively test identity as social or literary concept discovering in difference the very condition of a useful if paradoxical sense of personal or textual coherence What happens to us when we move between different cultures or different societies defined in geographical or historical terms What happens to texts and textual practices in these same circumstances What happens to us when we are obliged to adapt to a new social order Homi Bhabha speaks of cultural difference as calling into play what he calls cultural translation What happens to identity the narrative that fashions a continued sense of self in this case Difference raised to alterity demands that we accord functional and philosophical value not just to other aspects but also to the aspect of the other At the level of personal or textual agency however difference contests and threatens to subvert stable selfhood composing a scene of conflict Even so it often proves to be instrumental in re-charging a sense of the cultural valence of the literary text not least by virtue of its political implications In this regard the border where difference materialises has considerable presence in contributions to this volume prompting appreciation of texts that work on or travel across such borders however haphazardly and dangerously but also those that compose border textualities The Scottish Experience in Asia, c.1700 to

the Present T. M. Devine, Angela McCarthy, 2016-11-22 This pioneering volume focuses on the scale territorial trajectories impact economic relationships identity and nature of the Scottish Asia connection from the late seventeenth century to the present It is especially concerned with identifying whether there was a distinctive Scottish experience and if so what effect it had on the East Did Scots bring different skills to Asia and how far did their backgrounds prepare them in different ways Were their networks distinctive compared to other ethnicities What was the pull of Asia for them Did they really punch above their weight as some contemporaries thought or was that just exaggerated rhetoric If there was a distinctive Scottish effect how is that to be explained

Gaelic in Scotland McLeod Wilson McLeod, 2020-09-04 In this extensive study of the changing role of Gaelic in modern Scotland from the introduction of state education in 1872 up to the present day Wilson McLeod looks at the policies of government and the work of activists and campaigners who have sought to maintain and promote Gaelic In addition he scrutinises the competing ideologies that have driven the decline marginalisation and subsequent revitalisation of the language Taking an interdisciplinary approach at the boundary of history law language policy and sociolinguistics the book draws upon a wide range of sources in both English and Gaelic to consider in detail the development of the language policy regime for Gaelic that was developed between 1975 and 1989 It examines the campaign for the Gaelic Language Scotland Act 2005 its contents and implementation and assesses the development and delivery of development and delivery of Gaelic education and media from the late 1980s to the present
