This Way Gnosis Without Gnosticism:

This Way Jeremy Puma, 2011-10-01 Beginning with the premise that modern so called Gnostic organizations are actually products of the 19th Century Occultist and New Age movements This Way Gnosis Without Gnosticism embraces the most recent scholarship which concludes that there was no ancient Gnosticism Consequently modern organizations which refer to themselves as Gnosticism are in no way related to ancient heretical sects in historical reality but are instead entirely modern creations As a response This Way Gnosis Without Gnosticism presents an applied spirituality based on the writings found in the Nag Hammadi Library and Zen Buddhism for people interested in a simple mature approach to gnosis that doesn't rely on unprovable claims of apostolic succession or New Age neo Templar silliness but instead acknowledges the limitations of the material If you are looking for a context for a modern approach to gnosis that can be practiced by anyone alone or within an extant organization This Way Gnosis Without Gnosticism is the book for you *Gnosticism and the History of Religions*

David G. Robertson, 2021-08-12 Building on critical work in biblical studies which shows how a historically bounded heretical tradition called Gnosticism was invented this work focuses on the following stage in which it was essentialised into a sui generis universal category of religion At the same time it shows how Gnosticism became a religious self identifier with a number of sizable contemporary groups identifying as Gnostics today drawing on the same discourses This book provides a history of this problematic category and its relationship with scholarly and popular discourse on religion in the twentieth century It uses a critical historical method to show how and why Gnosis Gnostic and Gnosticism were taken up by specific groups and individuals practitioners and scholars at different times It shows how ideas about Gnosticism developed in late nineteenth and twentieth century scholarship drawing from continental phenomenology Jungian psychology and post Holocaust theology to be constructed as a perennial religious current based on special knowledge of the divine in a corrupt world David G Robertson challenges how scholars interact with the category Gnosticism and contributes to our understanding of the complex relationship between primary sources academics and practitioners in category formation

Essential Gnostic Scriptures Marvin Meyer, Willis Barnstone, 2011-11-22 The people we've come to call gnostics were passionate advocates of the view that salvation comes through knowledge and personal experience and their passion shines through in the remarkable body of writings they produced over a period of more than a millennium and a half Willis Barnstone and Marvin Meyer have created a translation that brings the gnostic voices to us from across the centuries with remarkable power and beauty beginning with texts from the earliest years of Christianity including material from the Nag Hammadi library and continuing all the way up to expressions of gnostic wisdom found within Islam and in the Cathar movement of the Middle Ages The twenty one texts included here serve as a compact introduction to Gnosticism and its principal ideas and they also provide an entrance to the pleasures of gnostic literature in general representing as they do the greatest masterpieces of that tradition **Paul, the Gnostic Opponent of Peter, Not an Apostle of Historic**

Trompf, Gunner B. Mikkelsen, Jay Johnston, 2018-10-03 The Gnostic World is an outstanding guide to Gnosticism written by a distinguished international team of experts to explore Gnostic movements from the distant past until today These themes are examined across sixty seven chapters in a variety of contexts from the ancient pre Christian to the contemporary The volume considers the intersection of Gnosticism with Jewish Christian Islamic and Indic practices and beliefs and also with new religious movements such as Theosophy Scientology Western Sufism and the Nation of Islam This comprehensive handbook will be an invaluable resource for religious studies students scholars and researchers of Gnostic doctrine and history *The New Schaff-Herzog Encyclopedia of Religious Knowledge* Johann Jakob Herzog, Albert Hauck, Samuel Macauley Jackson, Charles Colebrook Sherman, George William Gilmore, 1909 **The Nature of Truth in "The Gospel of Truth" and in the Writings of Justin Martyr** Cullen I.
