Three Faces of Hermeneutics Roy J. Howard, 1982 Three Faces of Hermeneutics Roy J. Howard, 2023-11-15 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1982 *Cornelius Van Til's Doctrine of God and Its Relevance for Contemporary Hermeneutics* Jason B. Hunt, 2019-09-27 Cornelius Van Til's Doctrine of God and Its Relevance for Contemporary Hermeneutics seeks to answer the question What does Van Til have to do with hermeneutics It is argued that some of the most relevant concerns in the field of contemporary hermeneutics are similar to those addressed by Van Til in the area of apologetics Van Til's approach involved a self-conscious consistency between method and theology proper in order to reason according to the Christian worldview found in Scripture Just as one's apologetic method should be consistent with the theology revealed in the Bible so also should one's hermeneutic This work not only argues that Van Til has an important place in the hermeneutical discussion but also demonstrates his place in terms of the main contours in his doctrine of God In doing so certain influences on evangelical hermeneutics are considered according to consistency with theology proper Lastly a Van Tillian hermeneutic is applied to the often debated issue concerning the New Testament use of the Old Testament Gadamer and Ricoeur Francis J. Mootz III, George H. Taylor, 2011-04-14 Hans Georg Gadamer and Paul Ricoeur were two of the most important hermeneutical philosophers of the twentieth century Gadamer single-handedly revived hermeneutics as a philosophical field with his many essays and his masterpiece Truth and Method Ricoeur famously mediated the Gadamer/Habermas debate and advanced his own hermeneutical philosophy through a number of books addressing social theory religion psychoanalysis and political philosophy This book brings Gadamer and Ricoeur into a hermeneutical conversation with each other through some of their most important commentators Twelve leading scholars deliver contemporary assessments of the history and promise of hermeneutical philosophy providing focused discussion on the work of these two key hermeneutical thinkers The book shows how the horizons of their thought at once support and question each other and how in many ways the work of these two pioneering philosophers defines the issues and agendas for the new century **Identifying Selfhood** Henry Isaac Venema, 2000-09-28 Traces the decentered formulation of self at the heart of Paul Ricoeur's philosophy from his earliest works to his most recent **The Encyclopedia of Human Ecology** Julia R.
