Walkin Over Medicine Traditional Health Practices In African American Life:

Walkin' over Medicine Loudell F. Snow, 1998-02-01 A cultural look at the traditional health beliefs and practices of African Americans Representing more than twenty years of anthropological research Walkin over Medicine originally published by Westview Press in 1993 presents the results of Loudell F Snow s community based studies in Arizona and Michigan work in two urban prenatal clinics conversations and correspondence with traditional healers and experience as a behavioral scientist in a pediatrics clinic Snow also visited numerous pharmacies grocery stores and specialty shops in several major cities accompanied families to church services and attended weddings baptisms graduations and funerals

African American Voices Ruth W. Johnson, 1999 Prominent health educators explore the pressing cultural and health needs of African Americans Discussions on child abuse teenage pregnancy mental illness access to health care racism lifestyles and community values depict the complexity of problems affecting African Americans from a cross section of different communities Essential for all nurse educators students and anyone interested in the future of health care One of a four book series that explores the implications of cultural factors in the delivery of health care to particular communities Other titles in the VOICES series Native American Voices Native American Health Educators Speak Out Asian Voices Asian and Asian American Health Educators Speak Out Hispanic Voices Hispanic Health Educators Speak Out **African American Religion** Hans A. Baer, 2024-07-31 Now in an updated second edition African American Religion remains an invaluable overview of the great diversity of religious groups within the modern African American community This plethora of forms reflects a tension that has characterized African American religion since its beginnings a tension between accommodation to and protest against white society s domination Viewing African American sectarianism as a response to racism and social stratification in the larger society the authors trace the history beliefs social organization and ritual content of religious groups in four types of sects These include the Black mainline churches messianic nationalist sects such as the Nation of Islam conversionist sects such as the Holiness Pentecostal groups and Primitive Baptists and thaumaturgical sects including the Spiritual churches For this new edition the authors have incorporated research that has appeared since the book s original appearance in 1992 and have added two new chapters African Religious Healing and Folk Medicine and African American Sacred Music because of these topics enormous significance to the African American religious experience

Sex, Sickness, and Slavery Marli F. Weiner, Mayzie Hough, 2012-06-21 This study of medical treatment in the antebellum South argues that Southern physicians scientific training and practice uniquely entitled them to formulate medical justification for the imbalanced racial hierarchies of the period Challenged with both helping to preserve the slave system by acknowledging and preserving clear distinctions of race and sex and enhancing their own authority with correct medical diagnoses and effective treatment doctors sought to understand bodies that did not necessarily fit into neat dichotomies or agree with suggested treatments Expertly drawing the dynamic tensions during this period in which Southern culture and

the demands of slavery often trumped science Weiner explores how doctors struggled with contradictions as medicine became a key arena for debate over the meanings of male and female sick and well black and white North and South

Caring for Patients from Different Cultures Geri-Ann Galanti, 2013-05-25 What happens when a Cherokee patient summons a medicine man to the hospital or when an Anglo nurse refuses to take orders from a Japanese doctor Why do Asian patients rarely ask for pain medication while Mediterranean patients seem to seek relief for even the slightest discomfort If the goal of the American medical system is to provide optimal care for all patients healthcare providers must understand cultural differences that create conflicts and misunderstandings and can result in inferior medical care Geri Ann Galanti's updated classic *Caring for Patients from Different Cultures* is even more comprehensive than the first three editions containing new appendices for quick reference an expanded and updated bibliography with Internet resources and a detailed index *Caring for Patients from Different Cultures* contains more than 200 case studies illustrating crosscultural misunderstanding and culturally competent health care The chapters cover a wide range of topics including birth end of life traditional medicine mental health pain religion and multicultural staff issues The case studies illustrate important concepts from the fields of cultural diversity and medical anthropology This volume is an important resource for nurses and physicians in achieving cultural competency

Doctoring the South Steven M. Stowe, 2011-01-20 Offering a new perspective on medical progress in the nineteenth century Steven M Stowe provides an in depth study of the midcentury culture of everyday medicine in the South Reading deeply in the personal letters daybooks diaries bedside notes and published writings of doctors Stowe illuminates an entire world of sickness and remedy suffering and hope and the deep ties between medicine and regional culture In a distinct American region where climate race and slavery and assumptions about southernness profoundly shaped illness and healing in the lives of ordinary people Stowe argues that southern doctors inhabited a world of skills medicines and ideas about sickness that allowed them to play moral as well as practical roles in their communities Looking closely at medical education bedside encounters and medicine's larger social aims he describes a country orthodoxy of local social medical practice that highly valued the art of medicine While not modern in the sense of laboratory science a century later this country orthodoxy was in its own way modern Stowe argues providing a style of caregiving deeply rooted in individual experience moral values and a consciousness of place and time
