General Education Essentials Paul Hanstedt, 2012-04-25 General Education Essentials Full time and part time faculty in any discipline and at any size campus with any type of mission can pick up this volume and learn something that will help her or him improve teaching and learning From the Foreword by Terrel L Rhodes vice president for Curriculum Quality and Assessment Association of American Colleges and Universities Every year hundreds of small colleges state schools and large research oriented universities across the United States and increasingly Europe and Asia revisit their core and general education curricula often moving toward more integrative models And every year faculty members who are highly skilled in narrowly defined fields ask two simple questions Why and How is this going to affect me General Education

Essentials seeks to answer these and other questions by providing a much needed overview of and a rationale for the recent shift in general education curricular design a sense of how this shift can affect a faculty member s teaching and an understanding of how all of this might impact course and student assessment Filled with examples from a variety of disciplines that will spark insights General Education Essentials explores the techniques that can be used to ensure that students are gaining the skills they need to be perceptive scholars and productive citizens This is THE ONE BOOK for academics to get up to speed about reforming general education Jerry Gaff senior scholar Association of American Colleges and Universities

Filling Up Justine J. Reel, 2016-10-31 Benefiting readers ranging from students researching topics in food psychology and eating disorders to parents and general readers seeking to better understand a variety of issues regarding the psychology of food and eating this book examines a wide range of complex issues such as emotional eating food as a form of social bonding and personal identity and changes in eating throughout the lifespan Filling Up The Psychology of Eating addresses a broad subject area that some may rarely think about but that actually encompasses topics relevant to all individuals regardless of culture or ethnicity Eating is often an emotionally charged event and as such it involves powerful feelings thoughts and emotions Why are we driven to eat what we do and how we do what are the current controversies and debates that surround the psychology of eating and how are eating patterns outside of the United States different than ours and why A new addition to the Psychology of Everyday Life series this book provides a comprehensive examination of issues surrounding food and eating across the lifespan and around the globe Many of the positive aspects of food such as social bonding and continuance of ethnic identity and pride through food and family traditions are highlighted as are the serious negative aspects of eating such as food borne pathogens unhealthy trendy diets and the various health issues that result from over or undereating The book identifies and inspects numerous historical trends related to eating styles over time including the history of fast food the advent and booming popularity of food trucks and food based traditions like the wedding cake Readers will benefit from scholarly essays that tackle interesting issues such as whether or not sugar addiction is real and the merits of a Paleo diet and that examine both sides of the debate and empower readers to reach their own informed opinions
