With its unique blend of political history and political theory this book is a welcome addition to the series on Politics Culture and Society in the New Europe. Nick Hewlett begins his fascinating study with a discussion of the various ways in which the concept of democracy has been interpreted. He continues by tracing the effect of France's revolutionary tradition on the theory and practice of democracy since the Enlightenment looking in particular at both republican democracy and direct democracy. Hewlett examines the implications for democracy of profound social and political conflict in France and offers an unusual critique of the institutions and structures of formal politics suggesting that their relationship with democracy is more tenuous than is often assumed. The political philosophy of new liberals such as Luc Ferry and Marcel Gauchet is also discussed in detail. Thought provoking original and closely argued this book explores some key aspects of politics in France whilst making a strong case for greater direct participation of ordinary people in politics. Nick Hewlett is Professor of French Studies and Director of the Centre for European Research at Oxford Brookes University.
