The Dog and his Philosopher Martin Balluch,2017-10-16 The dog Kuksi lives together with his human friend Martin Balluch on an equal footing Especially on their long excursions into the wild they can only survive if they communicate cooperate and help each other Indeed Kuksi turns out to be someone not something who is acting responsibly and with reason These experiences recounted at the beginning of the book are supported by findings in behavioural science and ethology detailed in the following chapters It leads the author a learnt philosopher to conclude that his dog friend must be considered as a person with free will over and above any genetic drive and operant conditioning Usually the ethics of animal welfare and even animal rights are supported by arguments based on the capacity to suffer In his book *The Dog and His Philosopher* the author Martin Balluch uses a different approach He observes that even if animals are considered capable of suffering as in animal welfare laws they are not considered as self aware beings with their own view of the world wanting to run their lives in their own way In other words beings with their own will to autonomy Using his experiences with his dog friend Kuksi he claims that dogs and hence other sufficiently similar animals must be seen as beings with reason in the sense of Immanuel Kant a central philosopher of the enlightenment on whose work the idea of fundamental human rights as a means to protecting human freedom is based Reformulating Kant with an evolutionary understanding of reason the author concludes that nonhuman animals are also capable of what Kant considers freedom and autonomy and hence must be protected by rights too
