The Weirdness Of Being Heideggers Unheard Answer To The Seinsfrage:

The Weirdness of Being Ivo De Gennaro, 2014-10-20 The ongoing publication of Heidegger's complete works has called into question the interpretive and translative practices that have historicized Heidegger's thinking through the adaptation of categories and mind sets inherited from metaphysics Ivo De Gennaro argues that the posthumous treatises in particular many of which have yet to be translated into English show that the other onset of thinking that Being and Time inaugurated and which those historicizing accounts have interpreted and translated away has already taken place This book on the other hand speaks solely from that other onset that of being itself While arguing the one pointedness of Heidegger's entire path of thinking De Gennaro draws mainly on the posthumous treatises to offer both a provisional exploration of and an introduction to a thinking whose sense and implications have barely begun to emerge This challenging and original interpretation marks an important contribution to Heidegger scholarship *Das Denken Martin Heideggers III 1 herausgegeben von Hans-Christian Günther* Hans-Christian Günther, 2021 II Brief Summary of the Book Heidegger and Kant explores the Auseinandersetzung between these two great thinkers on various levels including the finitude of human knowledge moral action and responsibility and the interdependence between language and art It is shown that Heidegger's attempt to uncover and appropriate what is unthought in Kant's thinking extends across the entire Critical philosophy Conversely this task of destructive retrieval has implications for transforming Heidegger's ontological project which comes to light to two of his pivotal books after Being and Time specifically Contributions to Philosophy From Enowning and Mindfulness Historical Dictionary of Heidegger's Philosophy Frank Schalow, 2019-11-29 Martin Heidegger's thinking is a complex and his terminology is as nuanced as any thinker in the history of philosophy As the historian of philosophy par excellence he also exhibits both a greater appreciation and mastery of previous thinkers than any almost any other philosopher before or since The Historical Dictionary of Heidegger's Philosophy Third Edition addresses this dual challenge of reading understanding and interpreting Heidegger's vast writings The book provides a comprehensive and detailed account of the key terms shaping Heidegger's philosophy as well as outlining the development of his thought spanning the entirety of his career spanning almost sixty years The Dictionary also includes a discussion of Heidegger's seminal writings the spanning his entire Gesamtausgabe Complete Edition up through volume 99 of the projected 102 volumes This third edition of Historical Dictionary of Heidegger's Philosophy Third Edition contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 800 cross referenced entries that provides a clear and comprehensive exposition of the key developments in his life and his thought This book is an excellent resource for students researchers and anyone wanting to know more about Martin Heidegger **Heidegger's Ecological Turn** Frank Schalow, 2021-09-05 This book makes explicit the ecological implications of Martin Heidegger It examines how the trajectory of Heidegger's thinking harbors an ecological turn which comes to the forefront in his attempt to anticipate the impending crisis precipitated by

modern technology Schalow's emphasis on such key motifs as stewardship dwelling and letting be *Gelassenheit* serves to coalesce the problem of freedom in a new and innovative way in order to expand the interpretive or hermeneutic horizon for re-examining Heidegger's philosophy. By prioritizing a response to today's environmental crisis and the possible impact upon future generations, the author traverses a divide within Heidegger scholarship by developing a deeper critical outlook on his philosophy without either reiterating standard interpretations or rejecting them wholesale. He develops a trans-human approach to ethics which, by prioritizing the welfare of the earth, nature and animals, counters the anthropocentric bias and destructive premise of modern technology. Heidegger's Ecological Turn will be of interest to Heidegger scholars and researchers working in phenomenology, hermeneutics, continental philosophy and environmental philosophy.

The Enigma of Art: On the Provenance of Artistic Creation Gino Zaccaria, 2021-05-25 In this book Gino Zaccaria offers a philosophical meditation on the issue of art in light of its originary sense. He shows how this sense can be fully understood provided that our thinking, on the one hand, returns to the ancient Greek world where it must heed the voice and hints of the goddess Athena and, on the other hand, listens to artist-thinkers close to our current epoch such as Cézanne, van Gogh and Boccioni. Indeed, the path of this meditation has as its guide the well-known sentence by the painter from Aix-en-Provence which reads: *Je vous dois la vrit en peinture et je vous la dirai*. What will finally appear in this way will not be an abstract or historical notion of art but its enigma, that is to say, the promise of another initiation of art itself. *Wallace Stevens and Martin Heidegger* Ian Tan, 2022-06-20 This book is a unique contribution to scholarship of the poetics of Wallace Stevens, offering an analysis of the entire oeuvre of Stevens's poetry using the philosophical framework of Martin Heidegger. Marking the first book-length engagement with a philosophical reading of Stevens, it uses Heidegger's theories as a framework through which Stevens's poetry can be read and shows how philosophy and literature can enter into a productive dialogue. It also makes a case for a Heideggerian reading of poetry, exploring his later philosophy with respect to his writing on art, language and poetry. Taking Stevens's repeated emphasis on the terms being, consciousness, reality and truth as its starting point, the book provides a new reading of Stevens with a philosopher who aligns poetic insight with a reconceptualization of the metaphysical significance of these concepts. It pursues the link between philosophy, American poetry as reflected through Stevens, and modernist poetics, looking from Stevens's modernist techniques to broader European philosophical movements of the twentieth century.

The New Yearbook for Phenomenology and Phenomenological Philosophy Burt C. Hopkins, Daniele De Santis, 2023-10-31 Volume XXI Special Issue 2023 Part 1: Phenomenological Perspectives on Aesthetics and Art; Part 2: Heidegger and Contemporary French Philosophy. Aim and Scope: The New Yearbook for Phenomenology and Phenomenological Philosophy provides an annual international forum for phenomenological research in the spirit of Husserl's groundbreaking work and the extension of this work by such figures as Reinach, Scheler, Stein, Heidegger, Sartre, Levinas, Merleau-Ponty and Gadamer. The Ethics of Economic Responsibility Ralf Lüfter, 2020-12-09 The Ethics of Economic Responsibility raises fundamental ethical questions related to the conceptualization of economic responsibility that is the imperative to fulfil certain economic obligations It builds on a basic characterization of the question of ethics in order to introduce responsibility as a constitutive element for a new determination of economic knowledge Drawing on the metaphysical tradition of philosophy the book explores the distinction between operability based responsibility and end in itself based responsibility and also considers what is tentatively called being related responsibility By presenting these arguments about the notion of economic responsibility the book contributes to the growing calls for ethical questions to not be merely complementary to the ongoing discourse of economic sciences but rather to sit at its core in such a way as to restore the intrinsic ethical dimension of economics itself The book marks a significant contribution to the literature on the philosophy of economics applied ethics more broadly and the critical discourse concerning mainstream economics

Transcendental Idealism and Metaphysics Daniele De Santis, 2023-10-19 Winner of the Edward Goodwin Ballard Prize as announced at the Society for Phenomenology and Existential Philosophy Meeting on September 27 2024 The book offers a systematic reconstruction of the disagreement between Husserl and Heidegger from the former's point of view but without falling into any form of Husserlian apologetics The main thesis is that Husserl's critique of Heidegger's existential analytics as a form of philosophical anthropology entails a deeper fundamental thesis namely that Heidegger confuses the subject matter of first philosophy the transcendental subject with metaphysics in the Husserlian sense of the expression At stake in Husserl's critique of Heidegger's philosophy in Being and Time is the refusal to transcendentalize the irrational aspects of our human existence This second volume focuses on the question of being clarifying the distinction between ontology and metaphysics in Husserl's thought In fact contrary to a long standing and established interpretive tradition according to which Husserl's phenomenology is metaphysically neutral the book shows to what extent Husserl always understood as the ultimate goal of his philosophizing the positive foundation of a metaphysics This volume appeals to students and researchers

Principles of Philosophy Ivo De Gennaro, 2021-04-07 This book offers a phenomenologically informed reading of some fundamental positions of the philosophical tradition Its objective is not that of giving an exhaustive account of the thinking of any single philosopher much less of the trajectory of philosophy as a whole rather the aim is to retrace a few key moments in the course of philosophical enquiry from its outset to

its accomplishment in Nietzsche's metaphysics with a focus on the main motive of that enquiry the always new attempt to establish a sufficient knowledge of the ultimate principle on which to build a human ethos
