with an eye to recognizing their contributions and restoring their stature **To Be Continued** Hope Apple, Merle L. Jacob, 2000-10-10 Keeping track of prolific authors who write fiction series was quite challenging for even the most ardent fan until *To Be Continued* debuted in 1995. Now readers will be happy that the soon to be released second edition has added 1 600 new books and 400 new series. *To Be Continued* Second Edition maintains the first volume's successful formula that featured concise A to Z entries packed with useful information including titles, publishers, publication dates, genre categories, annotations, and subject terms. Among the genre categories that can be found in *To Be Continued* are romance, science fiction, crime, novel, horror, adventure, fantasy, humor, western, war, Christian fiction, and others **Furry Tales** Fred Patten, 2019-09-26 Tales featuring anthropomorphic animals have been around as long as there have been storytellers to spin them from Aesop's Fables to Reynard the Fox to Alice in Wonderland. The genre really took off following the explosion of furry fandom in the 21st century with talking animals featuring in everything from science fiction to fantasy to LGBTQ coming out stories. In his lifetime Fred Patten 1940-2018, one of the founders of furry fandom and a scholar of anthropomorphic animal literature, authored hundreds of book reviews that comprise a comprehensive critical survey of the genre. This selected compilation provides an overview from 1784 through the 2010s covering such popular novels as *Watership Down* and *Redwall* along with forgotten gems like *The Stray Lamb* and *Where the Blue Begins* and science fiction works like *Sundiver* and *Decision at Doona* *The Whole Story* John E. Simkin, 1996 This work is the only comprehensive guide to sequels in English with over 84 000 works by 12 500 authors in 17 000 sequences **To be Continued** Merle Jacob, Hope Apple, 1995 This guide identifies both in print and out of print works of fiction featuring continuing themes, plots, or characters in which there is a sense of development and passage of time. Entries are arranged alphabetically by author and are accompanied by bibliographic information **Livestock and Literature** Liza B. Bauer, 2024-08-08 This book explores the past and current traces that cows, pigs, chickens, and other animals used by humans have left in Anglophone literary fiction. In times of accelerated global warming, an acute pandemic, and breakthroughs in bioengineering practices, discussions on how to rethink the relationships to these animals have become as heated as perhaps never before. *Livestock and Literature* examines what literature has to contribute to these debates. In particular, it draws on counter narratives to so-called livestock animals' commodification in selected science and speculative fiction (SF) works from the twenty-first century. These texts imagine what if scenarios where livestock practice resistance, transform into biotechnologically modified postanimal beings, or live in close companionship to humans. Via these three points of access, the study delineates the formal and thematic strategies SF authors apply to challenge anthropocentric and speciesist thought patterns. The aim is to shed light on how these alternative storyworlds expand readers' understanding of the lives of farmed animals, seeking insight into how literature shapes human-animal relationships beyond the page.
