Di Summa, 2022-10-20 The question of whether movies can deliver philosophical content is a leading topic in the cognitive and analytic debate on film But instead of turning to the well trodden terrain of narrative and emotional engagement this is the first time fashion and costume choices are analyzed to demonstrate how movies can be said to be doing philosophy Considering how fashion and costumes can deliver the epistemic content of a film and act as a guidance to the interpretation of the philosophical content of a film Laura T Di Summa examines fashion and costume choices in classical and contemporary films She discusses a number of cinematic examples and the costumes and fashion elements within them illustrating the importance of issues such as the performative side of fashion the alteration between novelty and repetition the pivotal role of the body and the relation between fashion style and individual as well as collective identity Featuring close examinations of 1950s melodramas

Hollywood blockbusters and documentaries such as *All That Heaven Allows*, *Mad Max: Fury Road* and *McQueen: Di Summa* uses an innovative new lens to provide fresh philosophical analysis of films. The result is not only an advancement of our understanding of the aesthetic means through which film can do philosophy but the first insights into a philosophy of fashion.

John McAndrew's Modernist Vision Mardges Bacon, 2018-11-06 John McAndrew's *Modernist Vision* tells the compelling story of the architect, scholar and curator John McAndrew who played a key role in redefining modernism in the United States from the 1930s onward. The designer of the Vassar College Art Library, arguably the first modern interior on a college campus and the curator of architecture at the Museum of Modern Art in New York from 1937 to 1941, McAndrew was instrumental in creating a distinct and innovative aesthetic that bridged the European modernist lineage and American regional vernacular. Providing a fascinating glimpse into McAndrew's life, his associations with important architects and artists and the historical context that shaped his work, this book is a thoroughly researched testament to a man who left a powerful mark on the evolution of American architecture. *Extravagant Inventions* Wolfram Koeppe, 2012 Catalogue published in conjunction with the exhibition *Extravagant Inventions: The Princely Furniture of the Roentgens on view at The Metropolitan Museum of Art, New York* from October 30 2012 through January 27 2013 *Library Literature & Information Science*, 2009 An index to library and information science literature *The Victoria and Albert Museum Pocket Diary 2009* Frances Lincoln Editors, Frances Lincoln Staff, 2008-04-28 A celebration of the jewels, gems and glamour held in the V&A Museum *Romantic Anatomies of Performance* James Q. Davies, 2014-04-04 *Romantic Anatomies of Performance* is concerned with the very matter of musical expression: the hands and voices of virtuosic musicians. Rubini, Chopin, Nourrit-Liszt, Donzelli, Thalberg, Velluti, Sontag and Malibran were prominent celebrity pianists and singers who plied their trade between London and Paris, the most dynamic musical centers of nineteenth-century Europe. In their day, performers such as these provoked an avalanche of commentary and analysis, inspiring debates over the nature of mind and body, emotion and materiality, spirituality and mechanism, artistry and skill. J. Q. Davies revisits these debates, examining how key musicians and their contemporaries made sense of extraordinary musical and physical abilities. This is a history told as much from scientific and medical writings as traditionally musicological ones. Davies describes competing notions of vocal and pianistic health, contrasts techniques of training and explores the ways in which music acts in the cultivation of bodies.
