

A black and white illustration of a hand holding a knife, surrounded by red splatters. The hand is rendered in a detailed, sketchy style, with the knife held firmly. The background is filled with dynamic, expressive red splatters and brushstrokes, creating a sense of violence and chaos. The overall composition is dramatic and intense.

developments Do we need to create emotionally intelligent justice systems or are we messing recklessly with the rational foundations of liberal criminal justice This volume brings together leading criminologists and sociologists from across the world in a much needed conversation about how to re calibrate reason and emotion in crime and justice today The contributions range from the micro analysis of emotions in violent encounters to the paradoxes and tensions that arise from the emotionalisation of criminal justice in the public sphere They explore the emotional labour of workers in police and penal institutions the justice experiences of victims and offenders and the role of vengeance forgiveness and regret in the aftermath of violence and conflict resolution The result is a set of original essays which offer a fresh and timely perspective on problems of crime and justice in contemporary liberal democracies *Emotion and Historiography in Polybius' Histories* Regina M. Loehr, 2023-12-29 This volume explores emotion and its importance in Polybius conception of history his writing of historiography and the benefits of this understanding to readers of history How and why did ancient historians include emotions in their texts This book argues that in the Histories of Polybius the Greek historian who recorded Rome's rise to dominion in the ancient Mediterranean emotions play an effective role in history used by the historian to explain the causes of actions connect events and make sense of human behavior Through analysis of the emotions in the narrative and theory of Polybius Histories using critical terminology and frameworks from modern philosophy psychology and political science this work calls into question assumptions that emotions were purely irrational and detrimental in ancient history politics and historiography Emotions often positively shape Polybius historical narrative provide criteria for the success and morality of agents actions and even historians and aid the historian in guiding readers to become intelligent leaders and citizens of a new world centered on Rome *Emotion and Historiography in Polybius Histories* is a fascinating read for students and scholars of ancient historiography and history as well as those working on ancient political thought emotions in the ancient Greek world and emotion in history and literature more broadly **The Encyclopedia of Peace Psychology**, 2011-12-12 The Encyclopedia of Peace Psychology available online through Wiley Online Library or as a three volume print set is a state of the art resource featuring almost 300 entries contributed by leading international scholars that examine the psychological dimensions of peace and conflict studies First reference work to focus exclusively on psychological analyses and perspectives on peace and conflict Cross disciplinary linking psychology to other social science disciplines Includes nearly 300 entries written and edited by leading scholars in the field from around the world Examines key concepts theories methods issues and practices that are defining this growing field in the 21st century Includes timely topics such as genocide hate crimes torture terrorism racism child abuse and more A valuable reference for psychologists and scholars students and practitioners in peace and conflict studies An ALA 2013 Outstanding Reference Source *Words and Stones* Daniel Lefkowitz, 2004-07-22 Social and ethnic identity are nowhere more enmeshed with language than in Israel Words and Stones explores the politics of identity in Israel through an analysis of the social life of language By examining the social choices Israelis make when they

speaking and the social meanings such choices produce Daniel Lefkowitz reveals how Israeli identities are negotiated through language Lefkowitz studies three major languages and their role in the social lives of Israelis Hebrew the dominant language Arabic and English He reveals their complex interrelationship by showing how the language a speaker chooses to use is as important as the language they choose not to use in the same way that a claim to an Israeli identity is simultaneously a claim against other opposing identities The result is a compelling analysis of how the identity of Israeliness is linguistically negotiated in the three way struggle among Ashkenazi Jewish Mizrahi Jewish and Palestinian Arab Israelis Lefkowitz's ethnography of language use is both thoroughly anthropological and thoroughly linguistic and provides a comprehensive view of the role language plays in Israeli society His work will appeal to students and scholars of sociolinguistics anthropology and linguistic anthropology as well as students and scholars of Israel and the Middle East

Antisocial Personality Richard Howard, Conor Duggan, 2022-02-03 It remains something of a mystery why some

individuals behave in persistently malevolent and destructive ways towards their fellows causing untold harm both to themselves and their victims This book argues that to understand the roots of antisocial behaviour one first has to understand what motivates the majority of people to behave prosocially to think feel and act in non malevolent ways All people are motivated to seek emotion goals to feel thrilled and excited to feel safe from the threats of others to feel a sense of justice and to feel gratified However some individuals seek these emotion goals in antisocial ways due to an excess of emotions such as distrust boredom greed vengeance and insecurity The authors outline interpersonal and neurobiological correlates of antisocial personality its developmental antecedents its frequency and pattern across different societies and cultures and different approaches to its treatment and rehabilitation
