The Waffen Ss Hitlers Elite Guard At War 1939 45:

The Waffen SS George H. Stein,1966 This landmark study first published by Cornell University Press in 1966 shows how Hitler s elite army grew from a praetorian guard of barely 28 000 men at the beginning of the Second World War to a combat hardened army of more than 500 000 in 1945 George H Stein examines in detail the structure and organization of the Waffen SS and describes the rigid personnel selection and intensive physical military and ideological training that helped to create the tough and dedicated cadre around which the larger force of the later war years was built *The Waffen SS. behaviour of individuals were moulded by the Party as the Reich took the road to Total War The ever increasing numbers of German workers conscripted into the Wehrmacht were replaced with forced foreign workers and slave labourers and concentration camp prisoners The interaction in everyday life between German civilian society and these coerced groups is explored as is that society's relationship to the Holocaust From early 1943 the war on the home front was increasingly dominated by attack from the air The role of the Party administration police and courts in providing for the vast numbers of those rendered homeless in bolstering civilian morale with miracle weapons propaganda and in maintaining order in a society in disintegration is reviewed in detail For society in uniform the war in the east was one of ideology and annihilation with intensified indoctrination of the troops after Stalingrad The social profile of this army is analysed through study of a typical infantry division The volume concludes with an account of the various forms of resistance to Hitler's regime in society and the military culminating in the failed attempt on his life in July 1944 The Nazi Holocaust.
