Stephen Pickard, Tracy Preece

The Way We Live Now Controversies Of The 90s:

The New Inheritors Madeleine Mattarozzi Laming, 2012-12-20 This groundbreaking book examines why the majority of Australian school leavers want to go to university and have resisted government attempts to promote alternative forms of tertiary education The New Inheritors explores differences in young people's understanding of the purpose of university and their reasons for wanting to enrol The book reveals that although there has been a general shift in values towards the utilitarian perspective there is still significant support for the traditional liberal idea of university education as a cultural experience This support is concentrated in well educated families regardless of their financial resources but there is a substantial number of young people from less well educated families who have absorbed the liberal perspective The book begins with an extensive and unique overview of changes in Australian federal government tertiary education policy and changes in the public discourse on education This overview provides a framework against which differences among today's students are examined in detail Drawing on a study of over 200 secondary school students from diverse backgrounds The New Inheritors records their attitudes to university including access fees and the role of government and explores how these are formed by their family backgrounds and influenced by public policy on education The New Inheritors uncovers the complexity of young people's attitudes and what processes occur in the forming and reforming of those attitudes to university and what young people really want from university education Dr Madeleine Mattarozzi Laming is a Lecturer in Education at Australian Catholic University She has given numerous conference papers on transition from school to university and teaching students from diverse backgrounds In 2011 she received an Australian Learning and Teaching Council Citation for an outstanding contribution to student learning particularly at the first year

Starting with the Spirit Stephen Pickard, Tracy Preece, 2001-12-31 Within the field of theology per se a fundamental issue is raised when we begin with the Spirit This issue concerns the particular shape and trajectory of the Christian faith How will the doctrine of God at the heart of theology be re configured when the Spirit becomes the fundamental theme To begin with the Spirit is to place such a question at the centre of the theological agenda

The Future Once Happened Here Fred Siegel,2010-10 In *The Future Once Happened Here* Fred Siegel tells an incredible story about the fate of America's most influential cities New York Washington D C and Los Angeles Standing as metaphors for America's urban life because of their stature as nerve centers of the nation these three cities once celebrated for their excitement and creativity as well as their ability to incorporate immigrants and solve the nation's problems were all caught up in the social policies born in the 60s and 70s and as a consequence faltered badly in dealing with the politics of race and the quality of their residents' lives in the 80s and 90s Each of Siegel's three urban portraits shows the desperate remedies undertaken by cities searching for a lifeline back to the future whose promise they once seemed to embody In a narrative that acknowledges the large historical forces that have remade the face of America over the last three decades but insists that social policies are not merely foregone conclusions waiting to happen Siegel holds up a mirror to our urban nature and tells us much about the way we live now [Conversations Through the Portal of Time: A Journey Through 90s Culture](#) Pasquale De Marco,2025-04-26 *Conversations Through the Portal of Time A Journey Through 90s Culture* is a comprehensive exploration of the cultural landscape of the 1990s a decade that witnessed immense change and innovation across music film television technology and society In the realm of music the 1990s saw the rise of grunge alternative rock and the indie film scene Grunge bands like Nirvana Pearl Jam and Soundgarden took the world by storm with their raw and emotional sound while alternative rock bands like R E M Red Hot Chili Peppers and Radiohead gained mainstream success The decade also saw the emergence of independent films which challenged the dominance of Hollywood and paved the way for a new generation of filmmakers The 1990s was also a time of great technological change The personal computer revolutionized the way we lived and worked making computers more accessible and user friendly than ever before The internet still in its infancy began to change the way we communicated learned and did business In addition to these cultural and technological shifts the 1990s was also a time of great social and political change The fall of the Berlin Wall in 1989 and the end of the Cold War raised hopes for a more peaceful world but the rise of ethnic nationalism and the outbreak of new conflicts in the Balkans and elsewhere tempered that optimism The decade also saw a growing awareness of environmental issues and a growing movement for social justice *Conversations Through the Portal of Time A Journey Through 90s Culture* explores all of these cultural technological and social changes in detail providing a comprehensive overview of a decade that was both tumultuous and transformative It is a must read for anyone interested in the recent history of popular culture technology and
