Tamdgidi, 2021-06-01 Omar Khayyam's Secret Hermeneutics of the Robaiyat in Quantum Sociological Imagination is a twelve book series of which this book is the third volume subtitled Khayyami Astronomy How Omar Khayyam's Newly Discovered True Birth Date Horoscope Reveals the Origins of His Pen Name and Independently Confirms His Authorship of the Robaiyat Each book is independently readable although it will be best understood as a part of the whole series In the overall series the transdisciplinary sociologist Mohammad H Tamdgidi shares the results of his decades long research on Omar Khayyam the enigmatic 11th 12th centuries Persian Muslim sage philosopher astronomer mathematician physician writer and poet from Neyshabour Iran whose life and works still remain behind a veil of deep mystery Tamdgidi's purpose has been to find definitive answers to the many puzzles still surrounding Khayyam especially regarding the existence nature and purpose of the Robaiyat in his life and works To explore the questions posed he advances a new hermeneutic method of textual analysis informed by what he calls the quantum sociological imagination to gather and study all the attributed philosophical religious scientific and literary writings of Khayyam Omar Khayyam's true birth date horoscope as newly discovered in this series is comprised of a dazzling number of Air Triplicities sharing a vertex on a Sun Mercury Cazimi point on the same Ascendant degree 18 of Gemini Among other features his Venus Sextile with Moon also plays a lifelong secretly creative role to intentionally balance his chart These features would not have escaped the attention of Omar Khayyam a master astronomer and expert in matters astrological no matter how much he embraced doubted or rejected astrological interpretations In this third book of the series conducting an in depth hermeneutic analysis of Khayyam's horoscope Tamdgidi reports having discovered the origins of Khayyam's pen name in his horoscope The long held myth that Khayyam was a parental name even if true in no way takes away from the new finding it only adds to its intrigue Tamdgidi's hermeneutic analysis of Khayyam's horoscope in intersection with extant Khayyami Robaiyat also leads him to discover an entirely neglected signature quatrain that he proves could not be from anyone but Khayyam one that provides a reliably independent confirmation of his authorship of the Robaiyat He also shows how another neglected quatrain reporting its poet to have aged to a hundred is from Khayyam This means all the extant Khayyami quatrains are now in need of hermeneutic reevaluation Tamdgidi's further study of a sample of fifty Khayyami Robaiyat leads him to conclude that their poet definitively intended the poems to remain in veil that they were considered to be a collection of interrelated quatrains and not sporadic separate quatrains written marginally in pastime that they were meant to offer a life's intellectual journey as in a book of life that the poems critically nuanced engagement with astrology was not incidental but essential throughout the collection and that judging from the

signature quatrain discovered 1000 quatrains were intended to comprise the collection Oddly it appears that after all The Khayyam who stitched his tents of wisdom was a trope that had its origins in Omar Khayyam s horoscope heavens

*Omar Khayyam's Secret: Hermeneutics of the Robaiyat in Quantum Sociological Imagination: Book 11: Khayyami Robaiyat: Re-Sewing the Tentmaker's Tent: 1000 Bittersweet Wine Sips from Omar Khayyam's Tavern of Happiness*

Mohammad H. Tamdgidi, 2024-10-25 Omar Khayyam s Secret Hermeneutics of the Robaiyat in Quantum Sociological Imagination by Mohammad H Tamdgidi is a 12 book series of which this book is the 11th volume subtitled Khayyami Robaiyat Re Sewing the Tentmaker s Tent 1000 Bittersweet Wine Sips from Omar Khayyam s Tavern of Happiness Each book independently readable can be best understood as a part of the whole series In Book 11 having shared the three parts of the Robaiyat attributed to Khayyam in the Books 8 9 and 10 of the series Tamdgidi offers the entire set of the 1000 quatrains including the Persian originals and his new English verse translations for each The poems comprising Khayyam s songs of doubt hope and joy are organized according to the three phased method of inquiry he introduced in his philosophical writings respectively addressing the questions Does Happiness Exist What Is Happiness and Why Does or Can Happiness Exist When Khayyam discussed the three phased method of inquiry in his treatise Resalat fi al Kown wa al Taklif Treatise on the Created World and Worship Duty he noted an exception to the rule of asking when studying any subject whether it exists what it is and why it exists or can exist He distinguished between things objectively existing independent of the human mind and those created by the human mind The normal procedure applies to the former but for products of the human mind he advised the procedure must be modified to asking first what something is then whether it exists and then why it exists or can exist This is

because for products of the human mind such as created works of art we would not know whether something exists and why it exists unless we first know what it is To illustrate his point he used the example of the mythical bird Anqa Simorgh in Persian or the Phoenix in English He argued that only when we know what the metaphor stands for would we be able to say whether it exists say in a work of art or even as a person represented by it and why it exists or can exist Khayyam s elaboration implies that one has to make a distinction between objective and human objectified realities which implies that for some objects such as happiness we in fact confront a hybrid reality where aspects of it may be externally conditioned but other aspects being dependent on the human will Once we realize the significance of Khayyam s point then we appreciate that his Robaiyat can also be regarded as a way of poetically portraying and advancing human happiness its poetic Wine being not just reflective but also generative of the happiness portrayed By way of his poetry therefore Khayyam has offered a severe critique of the then prevalent fatalistic astrological worldviews blaming human plight on objective conditions in favor of a conceptualist view of reality in which happiness can be achieved despite the odds depending on the creative human agency itself being an objective force Tamdgidi further shows that the triangular geometry of the logic governing Khayyam s Robaiyat the numerical values of whose three sides are proportional to the Grand Tent governing Khayyam s birth chart further supports the view expressed in Khayyam s own quatrains that for him his Robaiyat poetically represented the tent of which he regarded himself to be a tentmaker revealing another key explanation for his pen name The geometric structure of a tent proportional to the Grand Tent of Khayyam s chart as well as the metaphor of the Robaiyat as Simorgh songs are hidden in the deeper structure of Khayyam s 1000 piece solved puzzle the same way he embedded his own triangular golden rule in the design of the North Dome of Isfahan Khayyam s Robaiyat are his Simorgh s millennial rebirth songs served in his tented tavern as 1000 sips of his bittersweet Wine of happiness
