THOMAS AQUINAS 1225 1274 widely considered the Catholic Church's greatest theologian. Famously consulted immediately after the Bible on religious questions at the Council of Trent, Aquinas's masterpiece has been considered a summary of official Church philosophy ever since. Aquinas considers approximately 10,000 questions on Church doctrine covering the roles and nature of God, man, and Jesus, then lays out objections to Church teachings and systematically confronts each using Biblical verses. Theologians and philosophers bolster his arguments. In Volume III, Aquinas addresses faith and heresy, charity, peace and war, mercy, anger and justice, prayer, truth, and much more. This massive work of scholarship, spanning five volumes, addresses just about every possible query or argument that any believer or atheist could have and remains essential more than seven hundred years after it was written for clergy, religious historians, and serious students of Catholic thought.

**The Bhagavata Purana Part 2** J.L. Shastri, Dr. G.P. Bhatt, 2004-01-01. The Purana is a class of literature that treats ancient religion, philosophy, history, sociology, politics, and other subjects. It is an Encyclopaedia of various branches of knowledge and ancient wisdom. It has been defined as a class of literature that contains material on the topics of Creation, Dissolution of Manus, Ages of Manus, Genealogies, and the History of glorious kings. For dealing primarily with these subjects, it has been called Pancalaksana, a little that was incorporated in the Puranas themselves and had become popular by the Fifth Century A.D. for it was included by Amarasingha in his lexicon, Amarakosa. But as the process of interpolation continued, the Pancalaksana definition was found inadequate. The Puranic redactors adopted a Dasalaksana definition that

suited the contemporary text Still the dynamic forces were at work and the process of insertion modification and abridgement went on and it was soon discovered that the Dasalaksana definition too fell short of an actual fact It was found that the Puranas contained certain aspects that were not covered by any of the five or ten characteristics Besides some of the characteristics covered by the Pancalaksana or Dasalaksana definition were not found in certain Puranas In fact the Purana as a class represents the different phases and aspects of the life of diverse ages It is impossible to adopt a standard definition for the class of literary composition that contains heterogeneous phases and aspects Moreover a definition framed on the numerical basis of points is bound to be imperfect The Puranas are divided into two classes the Mahapuranas and the Upapuranas Each class consists of eighteen Puranas Thus the number of the Puranas is thirty six
