The Witness of the Stars Ethelbert William Bullinger, 2020-09-28 Some years ago it was my privilege to enjoy the acquaintance of Miss Frances Rolleston of Keswick and to carry on a correspondence with her with respect to her work Mazzaroth or the Constellations She was the first to create an interest in this important subject Since then Dr Seiss of Philadelphia has endeavoured to popularize her work on the other side of the Atlantic and brief references have been made to the subject in such books as Moses and Geology by Dr Kinns and in Primeval Man but it was felt for many reasons that it was desirable to make another effort to set forth in a more complete form the witness of the stars to prophetic truth so necessary in these last days To the late Miss Rolleston however belongs the honour of collecting a mass of information bearing on this subject but published as it was chiefly in the form of notes unarranged and unindexed it was suited only for but was most valuable to the student She it was who performed the drudgery of collecting the facts presented by Albumazer the Arab astronomer to the Caliphs of Grenada 850 a d and the Tables drawn up by Ulugh Beigh the Tartar prince and astronomer about 1650 a d who gives the Arabian Astronomy as it had come down from the earliest times Modern astronomers have preserved and still have in common use the ancient names of over a hundred of the principal stars which have been handed down but now these names are used merely as a convenience and without any reference to their significance This work is an attempt to popularize this ancient information and to use it in the interests of truth For the ancient astronomical facts and the names with their signification I am from the very nature of the case indebted of course to all who have preserved collected and handed them down but for their interpretation I am alone responsible It is for the readers to judge how far my conclusions are borne out by the evidence and how far the foundation of our hopes of coming glory are strengthened by the prophecies which have been written in the stars of heaven as well as in the Scriptures of truth

Witness of the Stars Ethelbert W. from a masterpiece that brings ancient light to a new generation In addition to teaching the constellations Bullinger s book gives insights that build faith in God The fact that most of the stars ancient names can be found and were used in the Bible to convey messages in one word adds even more credence to the truth of God s Word and that fact that God is still in control The witness of the stars as explained in this book may well be a fulfillment of that passage in Romans 16 where Paul states that God has revealed the gospel to all nations For centuries men have looked to the stars for navigation and signs for successful farming By showing the Biblical symbolism of the constellations Bullinger a respected Bible scholar shows how the stars are also God s blackboard in the sky Readers who desire untouched evidence of God will find it in this historical account in the stars from ancient civilizations on the message God sent back then to us He telleth the number of the stars he calleth them all by their names Psalms 147 4 The stars reveal God s glory His power and His truth The Witness of the Stars E. this book E W Bullinger used his Biblical scholarship alongside research of the origins of the astronomical constellations He demonstrates through a close reading of the Old and New Testaments how each of the star signs relates to the Bible s stories Gradually it is revealed how God makes himself known to us through the Bible s astronomy The symbolism of the star signs are shown as important in the Bible Their presence in verse relates not simply to their appearances such as Libra s scales or Aries as a ram but also the way in which Biblical figures behave after looking at the heavens for guidance The Book of Job is highlighted by Bullinger for being significantly influenced by the stars
