Marion,Joshua B. Hill,2019-05-08 In 1996 California became the first state to legalize medical marijuana Since then 30 states and the District of Columbia have passed laws legalizing marijuana in some form Nine of those states including Alaska Oregon Colorado and Washington have legalized marijuana for recreational use Many states including Arizona and Ohio are

considering legislation to allow for legalized cannabis use Marijuana 360 Differing Perspectives on Legalization examines the perception of marijuana legalization from the perspective of those who are directly involved in some aspect of legal marijuana Nancy E Marion and Joshua B Hill interweaves the interviews from a variety of representatives from different integral groups that have been affected by marijuana legalization in both states that have legalized or are considering the legalization of marijuana to get their impressions of the impact the law has made or will make in their area These groups include medical professionals educators parents lawmakers drug users and others There is more public support for reform than ever before but still much debate over the issues of legalizing marijuana Marijuana 360 increases our understanding of what different professionals think about the legalization of marijuana Homicide Sara Skott,2022-07-15 Homicide Towards a Deeper Understanding offers an in depth analysis into the phenomenon of homicide examining different types of homicide and how these types have changed over time Based on original analysis on Scottish data this book draws upon an international body of research to contextualize the findings in a global setting filling an important gap in the homicide literature pertaining to the relationship between trends in homicide and violence Examining homicide from gendered as well as Gothic perspectives this book also relates homicide to novel critical theory The book covers a thorough description of different types of homicide including sexual homicide and provides an explorative approach to the identification of homicide subtypes The book also explores how these findings relate to current homicide theory and proposes a new theoretical framework to gain a deeper understanding of this crime The main argument of the book is that if homicide and its relationship to wider violence is to be fully understood theoretically as well as empirically this crime needs to be disaggregated in a way that reflects the underlying data Overall this book therefore fills an important gap in criminological literature providing an in depth understanding of one of the most serious violent crimes
