Gordin,G. John Ikenberry,2020-01-14 A multifaceted portrait of the Hiroshima bombing and its many legacies On August 6 1945 in the waning days of World War II the United States dropped an atomic bomb on the Japanese city of Hiroshima The city s destruction stands as a powerful symbol of nuclear annihilation but it has also shaped how we think about war and peace the past and the present and science and ethics *The Age of Hiroshima* traces these complex legacies exploring how the meanings of Hiroshima have reverberated across the decades and around the world Michael D Gordin and G John Ikenberry bring together leading scholars from disciplines ranging from international relations and political theory to cultural history and science and technology studies who together provide new perspectives on Hiroshima as both a historical event and a cultural phenomenon As an event Hiroshima emerges in the flow of decisions and hard choices surrounding the bombing and its aftermath As a phenomenon it marked a revolution in science politics and the human imagination the end of one age and the dawn of another *The Age of Hiroshima* reveals how the bombing of Hiroshima gave rise to new conceptions of our world and its precarious interconnectedness and how we continue to live in its dangerous shadow today *China and the West* Lili Hernández,2012-03-15 The meeting point between China and the West is a striking subject in a wide range of disciplines This collection scrutinises how China and the West interact in aspects of culture arts politics and everyday life Within a complex web of actors dimensions technologies spaces and social structures cultural encounters are nevertheless problematic China

and the West come together within the stream of a global world The essays in this anthology analyse new and emerging dynamics that challenge authoritative views imposed on the other while deconstructing traditional responses to otherness too Bringing these essays together responds to a commitment to a critical assessment of the various shapes that such convergence takes within globalisation China and the West Encounters with the Other in Culture Arts Politics and Everyday Life will appeal to scholars and practitioners in communications the visual arts cultural studies sociology media studies anthropology literature and politics The non academic reader interested in the vibrant and emerging interface between China and the West will find this enlightening too Engaging Terror Marianne Vardalos,2009 Engaging Terror A Critical and Interdisciplinary Approach is a collection of select extended papers drawn from The Human Condition Series THCS conference on Terror that took place in May 2008 The international scope of the conference drew participants from twenty three countries including Brazil Columbia Cuba France Israel Lebanon Lithuania New Zealand Nigeria Pakistan the Philippines Scotland Singapore South Africa Turkey and the United Kingdom The thirty five essays presented here are a representative sample of the interdisciplinary discussion which sought to analyze popular concepts like terrorism and terrorist as social political and psychosocial phenomena Engaging Terror seeks to reveal the diverse forms of terror that persist in contemporary societies For instance cultural forms such as the fine arts film literature mass media religion and market economy continue to define and limit rationality and freedom through institutionalized forms of terror In this way terror shapes our experiences not only through the politics of nation building and international relations but also through the social and ideological production of fear in everyday life Topics covered in this volume include the representation and production of terror from a multiplicity of sites ranging from mental health practices and organized religion to news coverage and musical scores This book will appeal to both scholars and general readers interested in how seemingly benign forms of terror shape and maintain the contemporary human condition Reaching beyond mainstream studies on terror as simply an international political phenomenon this interdisciplinary collection of work multiplies the fields of critical research to broaden the scope of analysis and fundamentally challenge the state of modernity *The Ways of the Word* Garrett Stewart,2022-01-15 In *The Ways of the Word* Garrett Stewart steps aside from theory to focus on the sheer pleasure of attentive reading and the excitement of recognizing the play of syllables and words upon which the best literary writing is founded Emerging out of teaching creative writing and a broader effort to convene writers and critics Stewart s episodes in verbal attention track the means to meaning through the byways of literary wording Through close engagement with literary passages and poetic instances whose imaginative demands are their own reward Stewart gathers exhibits from dozens of authors from Dickinson Dickens and DeLillo to Whitman Woolf and Colson Whitehead In the process idiom tense etymology and other elements of expressive language and its phonetic wordplay are estranged and heard anew *The Ways of the Word* fluidly and intuitively reveals a verbal alchemy that is as riveting as it is elusive and mysterious *God's Forever Family*

Larry Eskridge, 2013-05-31 The Jesus People were an unlikely combination of evangelical Christianity and the hippie counterculture. God's Forever Family is the first major examination of this phenomenon in over thirty years. It shows that the Jesus People not only helped create a new engaged evangelical relationship to youth and popular culture but proved to be a major force in reshaping a resurgent evangelical movement. The Long Way West Hershell H. Nixon, 2003 Follows the adventures of seventeen-year-old George Wend as he leaves home in Philadelphia to go to Oregon in the mid 1800s.
