No Wood, No Kingdom Keith Pluymers, 2021-05-21 In early modern England wood scarcity was a widespread concern Royal officials artisans and common people expressed their fears in laws petitions and pamphlets in which they debated the severity of the problem speculated on its origins and proposed solutions to it No Wood No Kingdom explores these conflicting attempts to understand the problem of scarcity and demonstrates how these ideas shaped land use forestry and the economic vision of England's earliest colonies Popular accounts have often suggested that deforestation served as a push for English colonial expansion Keith Pluymers shows that wood scarcity in England rather than a problem of absolute supply and demand resulted from social conflict over the right to define and regulate resources difficulties obtaining accurate information and competing visions for trade forestry and the English landscape Domestic scarcity claims did encourage schemes to develop

wood dependent enterprises in the colonies but in practice colonies competed with domestic enterprises rather than supplanting them Moreover close studies of colonial governments and the actions of individual landholders in Ireland Virginia Bermuda and Barbados demonstrate that colonists experimented with different often competing approaches to colonial woods and trees including efforts to manage them as long term resources albeit ones that nonetheless brought significant transformations to the land No Wood No Kingdom explores the efforts to knot together woods around the Atlantic basin as resources for an English empire and the deep underlying conflicts and confusion that largely frustrated those plans It speaks to historians of early modern Europe early America and the Atlantic World but also offers key insights on early modern resource politics forest management and political ecology of interest to readers in the environmental humanities and social sciences as well as those interested in colonialism or economic history Ireland William Laffan, Christopher P. Ireland 1690 1830 is the first book to apply recent trends in new materialist criticism to Ireland It radically shifts familiar colonial stereotypes of the feminized racialized cottier according to the Irish peasantry's subversive entanglement with nonhuman materiality Each of the chapters engages a focused case study of an everyday object in colonial Ireland coins flax spinning wheels mud and pigs to examine how each object's unique materiality contributed to the colonial ideology of British paternalism and afforded creative Irish expression The main argument of Irish Materialisms is its methodology of reading literature through the agency of materiality and nonhuman narrative in order to gain a more egalitarian and varied understanding of colonial experience Irish Materialisms proves that new materialism holds powerful postcolonial potential Through an intimate understanding of the materiality Irish peasants handled on a daily basis this book presents a new portrait of Irish character that reflects greater empowerment resistance and expression in the oppressed Irish than has been previously recognized

Early Modern Ireland Sarah Covington, Valerie McGowan-Doyle, Vincent Carey, 2018-12-21 Early Modern Ireland New Sources Methods and Perspectives offers fresh approaches and case studies that push the field of early modern Ireland and of British and European history more generally into unexplored directions The centuries between 1500 and 1700 were pivotal in Ireland's history yet so much about this period has remained neglected until relatively recently and a great deal has yet to be explored Containing seventeen original and individually commissioned essays by an international and interdisciplinary group of leading and emerging scholars this book covers a wide range of topics including social cultural and political history as well as folklore medicine archaeology and digital humanities all of which are enhanced by a selection of maps graphs tables and images Urging a reevaluation of the terms and assumptions which have been used to describe Ireland's past and a consideration of the new directions in which the study of early modern Ireland could be taken Early Modern Ireland New Sources Methods and Perspectives is a groundbreaking collection for students and scholars studying early modern Irish history

[The Irish tower house](#) Victoria L. McAlister, 2019-07-04 This book examines the social role of castles in late medieval and early modern Ireland It uses a multidisciplinary methodology to uncover the lived experience of this historic culture demonstrating the interconnectedness of society economics and the environment Of particular interest is the revelation of how concerned pre modern people were with participation in the economy and the exploitation of the natural environment for economic gain Material culture can shed light on how individuals shaped spaces around themselves and tower houses thanks to their pervasiveness in medieval and modern landscapes represent a unique resource Castles are the definitive building of the European Middle Ages meaning that this book will be of great interest to scholars of both history and archaeology

Making Empire Jane Ohlmeyer, 2023 Ireland was England's oldest colony Making Empire revisits the history of empire in Ireland in a time of Brexit the culture wars and the campaigns around Black Lives Matter and Statues must fall to better understand how it has formed the present and how it might shape the future Empire and imperial frameworks policies practices and cultures have shaped the history of the world for the last two millennia It is nation states

that are the blip on the historical horizon Making Empire re examines empire as process and Ireland's role in it through the lens of early modernity It covers the two hundred years between the mid sixteenth century and the mid eighteenth century that equate roughly to the timespan of the First English Empire c 1550 c 1770s Ireland was England's oldest colony How then did the English empire actually function in early modern Ireland and how did this change over time What did access to European empires mean for people living in Ireland This book answers these questions by interrogating four interconnected themes First that Ireland formed an integral part of the English imperial system Second that the Irish operated as agents of empire's Third Ireland served as laboratory in and for the English empire Finally it examines the impact that empire's had on people living in early modern Ireland Even though the book's focus will be on Ireland and the English empire the Irish were trans imperial and engaged with all of the early modern imperial powers It is therefore critical where possible and appropriate to look to other European and global empires for meaningful comparisons and connections in this era of expansionism What becomes clear is that colonisation was not a single occurrence but an iterative and durable process that impacted different parts of Ireland at different times and in different ways That imperialism was about the exercise of power violence coercion and expropriation Strategies about how best to turn conquest into profit to mobilise and control Ireland's natural resources especially land and labour varied but the reality of everyday life did not change and provoked a wide variety of responses ranging from acceptance and assimilation to resistance This book based on the 2021 James Ford Lectures Oxford University suggests that the moment has come revisit the history of empire if only to better understand how it has formed the present and how this might shape the future
