Dyrness, Oscar García-Johnson, 2015-11-24 Global theology represents one of the most important trends in theology today What does it mean to do theology in a global context How can Christian theology be understood as a conversation between different parts of the world and various streams of Christian history This concise introduction explores the major issues involved in rethinking theology in light of the explosion of world Christianity Combining the voices of a Western and a non Western theologian it integrates Western theological tradition with emerging global perspectives This work will be of interest to theology and missiology students as well as church leaders and readers interested in the changing face of world Christianity **Theology without Borders** Leo D. S. Barefoot, 2024-12-23 Many Western initiatives exist for theological development in the majority world but how often do practitioners from the West pause to examine the role they should play in that endeavor Missions history and church history have revealed inadequacies of imposing foreign theology on local churches yet the alternative of withdrawing from local theological development appears equally problematic If therefore the outsider's role is neither to impose theology nor withdraw from the task then what is his or her role Hermeneutical Community addresses this fundamental question and seeks to lay a sound missiological foundation for local theological development *Practical Theology and Majority World Epistemologies* Alfred Brunson, Calida Chu, 2024-11-08 This book offers insights into the thinking of majority world practical theologians and introduces the reader to faith realities previously unknown in a quest to create a more inclusive and welcoming practical theological network Practical theologians are situated in all corners of the globe attempting to make sense of their lived experiences and of those around them from a faith perspective Historically practical theology tended to be constructed from academics situated in the West and indirectly marginalized those in and from the majority world Against this backdrop this book is a deliberate attempt to empower practical theological voices from the further corners of the global village based upon the conviction that sharing epistemologies creates an opportunity not only to learn about others and the contexts in which they live but from them enhancing the meaning making of practical theology in the present Cognisant that epistemology as a formal discipline does not always centre lived experience practical theology has historically prioritised the importance of wisdom worldview and a way of life for individual and collective knowing The diverse issues addressed in this work offers insights into the thinking of mainly Asian and African practical theologians and introduces readers to the faith realities previously unknown to create a more inclusive and welcoming practical theological network This book was originally published as a special issue of the journal Practical Theology **Why Evangelical Theology Needs the Global Church** Stephen T. Pardue, 2023-08-22 Christianity Today 2024 Award of Merit Missions Global Church Christian theologians and students are aware that evangelicals in the Majority World now outnumber those in North America and Europe and many want to know more about emerging voices in the global church At the same time these voices are largely absent from Western evangelical theology Stephen Pardue seeks to bridge this divide by arguing biblically and theologically that it is imperative for Western evangelical theology to engage with the global church and he provides examples of how this can be done Case studies throughout the book illustrate opportunities for fruitful engagement with non Western theology in various

areas of Christian doctrine Readers will be given an introduction to the riches available within the worldwide body of Christ and learn how to engage productively with the global church

The Spirit over the Earth Gene L. Green, Stephen T. Pardue, K. K. Yeo, 2016-12-31 Though the global center of Christianity has been shifting south and east over the past few decades very few theological resources have dealt with the seismic changes afoot The Majority World Theology series seeks to remedy that lack by gathering well regarded Christian thinkers from around the world to discuss the significance of Christian teaching in their respective contexts The contributors to this volume reflect deeply on the role of the Holy Spirit in both the church and the world in dialogue with their respective contexts and cultures Taking African Asian and Latin American cultural contexts into account gives rise to fresh questions and insights regarding the Spirit's work as witnessed in the world and demonstrates how the theological heritage of the West is not adequate alone to address the theological necessities of communities worldwide

T&T Clark Handbook of Political Theology Rubén Rosario Rodríguez, 2019-10-03 The T and the contributors then build on previously discussed historical resources and methods to engage with contemporary issues and challenges emphasizing interreligious dialogue even while addressing concerns of relevance to a particular faith tradition The volume concludes with three essays that look at the future of political theology from the perspective of each Abrahamic religion Complete with select bibliographies for each topic this companion features the most current overview of political theology that will reach a broader global audience of students and scholars

Majority World Theology Gene L. Green, Stephen T. Pardue, K. K. Yeo, 2020-12-01 More Christians live in the Majority World than in Europe and North America Yet most theological literature does not reflect the rising tide of Christian reflection coming from these regions Bringing together theological resources from past and present East and West this work engages conversations with leading global scholars on theology faith and mission for the enrichment of the entire church

Theologies of Land K. K. Yeo, Gene L. Green, 2020-12-24 The Crosscurrents series highlights emerging theologies and biblical interpretations from Majority World and minoritized communities The first volume in the series elaborates theologies of land a theme often missing or ignored by churches and theologians especially in the Global North In this volume four authors who represent Palestinian First Nations Latinx and South African communities examine the intricate relationship among land landscape migration and identity Together with a Malaysian Chinese the authors deliberate on the complex issues arising out of political domination as well as humanity's conquest and abuse of land that create unjust space landless people and the broken landscape of God's creation

Encyclopedia of Christianity in the Global South Mark A. Lamport, 2018-06-01 Christianity has transformed many times in its 2 000 year history from its roots in the Middle East to its presence around the world today From the mid twentieth century onward the presence of Christianity has increased dramatically in Asia Africa and Latin America and the majority of the world's Christians are now nonwhite and non Western The Encyclopedia of Christianity in the Global South traces both the historical evolution and contemporary themes in Christianity in more than 150 countries and regions The volumes include

maps images and a detailed timeline of key events The phrases Global Christianity and World Christianity are inadequate to convey the complexity of the countries and regions involved this encyclopedia with its more than 500 entries aims to offer rich perspectives on the varieties of Christianity where it is growing how the spread of Christianity shapes the faith in various regions and how the faith is changing worldwide *Mission as Integrated Witness* Jae-Suk Lee, 2021-05-25 This study aims to read Jesus's foot washing narrative missionally John 13:1-38 A missional reading is identical to a missional hermeneutics based on the literary theological interpretation of the text John uses sending language and formulae and the frame of as so throughout the whole Gospel which clarifies Jesus's and his disciples mission as integrated witness In this literary context the foot washing narrative signifies the integrated witness of Jesus and the disciples The narrative consists of two parts one Jesus's symbolic action for his death and the other for its interpretation for the disciple community Jesus's death as his unique mission results in purifying both his disciples and the world so that they might dwell in the holy union with the triune God The disciples are sent into the world Just as Jesus did so must they proclaim Jesus and his teachings Also they should bear witness to him by living Jesus's life pattern of self-giving sacrificial love and humble service Their verbal proclamation as evangelism and life witness cannot be separated to testify to Jesus and their identity Finally today's Christians specifically Evangelicals are invited to participate in the Johannine mission as the integrated witness of evangelism and life witness

Emerging Theologies from the Global South Mitri Raheb, Mark A. Lamport, 2023-03-29 In recent decades there has been a seismic shift in world Christianity Whereas formerly Christianity existed as a Caucasian Euro American phenomenon the majority of Christians today reside in the Southern Hemisphere or the Global South And what is true for the demographics of Christianity has followed lockstep for its theological developments The era of German theologians setting the tone for global church are gone Today some of the loudest and most creative voices in theology speak from the emerging contingencies of the Global South for example promoting Latinx Black Caribbean and Asian theologies and their influence often influences the conversation in the United States and Europe In addition just as the center of Christianity has moved geographically from north to south so with theological seminaries in the west which have declined as training centers for clergy These events coincide with new theological centers are opening in Asia Africa Oceania and Latin America The bottom line is contemporary Christianity today looks significantly different than it did a century ago and publications have been slow to acknowledge let alone describe and elaborate upon this major shift to the largest religion in the world These shifts guide our intentions in this book Such a reference book which could also be used as a textbook therefore is very much needed In fact there is nothing like the contents of this single volume book in the publishing market which allows for high quality interdisciplinary and international dialogue *The Pentecostal Gender Paradox* Joseph Lee Dutko, 2023-11-16 The distinct subjects of eschatology and gender equality have seen an explosion of interest in recent decades particularly within Pentecostal scholarship Pentecostalism is regarded ideally as both an eschatological and egalitarian movement However many Pentecostals have

lamented the inconsistency between the early egalitarian impulse of the movement and its current restrictive practices This situation has been described as the so called Pentecostal gender paradox referring to the conflicting freedoms and limitations experienced by Pentecostal women Pentecostals have also recognized the waning eschatological fervor within the movement and its shifting eschatological convictions leading to calls to rediscover the eschatological heart of the movement Despite the renewed interest in both eschatology and women s equality little research has been done to put these two areas into conversation with each other eschatological convictions are often absent in the debate on gender roles in the church For Pentecostals eschatology has often been about urgency in saving souls rather than attending to social issues but could Pentecostal eschatology be the key to re discovering greater equality for women in the church Is the waning of both eschatology and women s equality within Pentecostalism potentially interrelated For over one hundred years the role of women in Pentecostalism has been debated without a firm consensus By examining gender solely through an eschatological lens in history Scripture and praxis this work provides a valuable and creative contribution to one of the most important theological and global issues of our time women s in equality This book is also one of the first comprehensive studies to approach a single social issue solely through an eschatological lens and to provide attention to developing a thorough and methodologically connected eschatological praxis By uncovering the unified eschatological egalitarian narrative thread within both the Pentecostal and biblical story this work suggests that the present end of women s inequality begins with fidelity to the future eschaton of gender equality

Christ Meets Culture Jair Fernandes de Melo Santos, 2020-07-10 How does Christ meet engage change challenge dialogue interact with and bridge cultures What is the role of the gospel in transforming ethics and culture These daunting questions guide the present investigation about Evangelical Christianity in Brazil the largest Catholic country in the world This book critiques the quantitative and qualitative growth of Evangelical Christianity in Brazil and presents tools for studying the global south and other cultures Indeed sociocultural factors play a significant role in the translation of the gospel and may work as bridges and or barriers within the cultural and religious milieu of the largest country in Latin American Particularly four traits impacts the preaching of the Christian message in Brazil namely cordiality religiosity the Brazilian way of coping and collectivism Through oral history methodology and literature review this book evaluates how biblically sound translation happens through the Brazilian Baptist Convention as suggested by key leadership writings practices and memoirs This work features an overview of the history of Brazilian Christianity including its Animistic background African Brazilian religious influences the present Pentecostal majority and the challenge of Neopentecostalism in an era of music TV and social media
