Mastering the Toltec Way Susan Gregg, 2025-09-12. Toltec culture flourished in Mexico around 800 AD. Its wisdom has been brought to millions by the wildly popular teacher don Miguel Ruiz. Also based on the ancient teachings of the Toltec people, *Mastering the Toltec Way* helps readers follow in the footsteps of the Toltec into living fully, truthfully, and passionately day by day. Secret knowledge embraced by the Toltec transcends normal everyday awareness. Using *Mastering the Toltec Way*, readers gain access to this ancient knowledge and learn daily how to be happy no matter what their circumstances and how to gain complete freedom to be themselves. *Mastering the Toltec Way* is structured on the lunar calendar. Each of the 13 chapters concludes with 28 daily entries that illustrate how to apply the Toltec way to today's world. From the book: Beginning on a full or new moon, readers start by reading a story that weaves the Toltec philosophy into modern life and lights the way for the exercises to follow. Do visualizations that help them use their imaginations to disengage their minds and re-engage their spirits. Meditate in various ways plus learn to pay attention to their five senses among other active exercises to put the Toltec way into daily practice. For those who want to experience everyday life more deeply and gain lasting personal freedom, *Mastering the Toltec Way* guides seekers on a well-traveled ancient path.

Metanoia Adam Ellwanger, 2020-02-25. Western culture is in a moment when wholly new kinds of personal transformations are possible, but authentic transformation requires both personal testimony and public recognition. In this book, Adam Ellwanger takes a distinctly rhetorical approach to analyzing how the personal and the public relate to an individual's transformation and develops a new vocabulary that enables a critical assessment of the concept of authenticity. The concept of metanoia is central to this project. Charting the history of metanoia from its original use in the classical tradition to its adoption by early Christians as a term for religious conversion, Ellwanger shows that metanoia involves a change within a person that results in a truer version of him or herself, a change in character or ethos. He then applies this theory to our contemporary moment, finding that metanoia provides unique insight into modern forms of self-transformation. Drawing on ancient and medieval sources including Thucydides, Plato, Paul the Apostle, and Augustine, as well as contemporary discourses of self-transformation such as the public testimonies of Caitlyn Jenner and Rachel Dolezal, Ellwanger elucidates the role of language in signifying and authenticating identity. Timely and original, Ellwanger's study formulates a transhistorical theory of personal transformation that will be of interest to scholars working in social theory, philosophy, rhetoric, and the history of Christianity.
