News As Discourse Teun A. van Dijk,2013-10-28 First Published in 1990 This book presents a new interdisciplinary theory of news in the press Against the background of developments in discourse analysis it is argued that news should be studied primarily as a form of public discourse Whereas in much mass communication research the economic social or cultural dimensions of news and news media are addressed the present study emphasizes the importance of an explicit structural analysis of news reports Such an analysis should provide a qualitative alternative to traditional methods of content analysis Also attention is paid to processes of news production by journalists and news comprehension by readers in terms of the social cognitions of news participants In this way news structures can also be explicitly linked to social practices and ideologies of news making and indirectly to the institutional and macro sociological contexts of the news media

News Grazers Richard Forgette, 2018-01-12 Politicians and journalists have never been among the most trusted professional classes in this book author Richard Forgette posits a news grazing explanation of how and why Forgette an expert on the U S Congress and public policy draws upon direct experimental research to argue that the diffusion of media outlets and media technologies have resulted in an increasingly fragmented and distracted news audience **Avoiding the News** Benjamin Toff, Ruth Palmer, Rasmus Kleis Nielsen, 2023-12-26 Winner 2025 Hazel Gaudet Erskine Best Book Award International Journal of Press Politics Winner 2024 Choice Outstanding Academic Title A small but growing number of people in many countries consistently avoid the news They feel they do not have time for it believe it is not worth the effort find it irrelevant or emotionally draining or do not trust the media among other reasons Why and how do people circumvent news Which groups are more and less reluctant to follow the news In what ways is news avoidance a problem for individuals for the news industry for society and how can it be addressed This groundbreaking book explains why and how so many people consume little or no news despite unprecedented abundance and ease of access Drawing on interviews in Spain the United Kingdom and the United States as well as extensive survey data Avoiding the News examines how people who tune out traditional media get information and explores their folk theories about how news organizations work The authors argue that news avoidance is about not only content but also identity ideologies and infrastructures who people are what they believe and how news does or does not fit into their everyday lives Because news avoidance is most common among disadvantaged groups it threatens to exacerbate existing inequalities by tilting mainstream journalism even further toward privileged audiences Ultimately this book shows persuading news averse audiences of the value of journalism is not simply a matter of adjusting coverage but requires a deeper more empathetic understanding of people's relationships with news across social political and technological boundaries
