Uneasy Partnership The Politics Of Business And Government In Canada:

Uneasy Partnership Geoffrey Hale, 2018-01-25 The Canadian government's pursuit of economic growth is central to its economic policy and to the nature of its relationship with the business community. The government depends on business investment for economic growth vital to the prosperity of citizens, the generation of tax revenues and enough public satisfaction to win re-election. Businesses depend on the government for stable sets of rules that are necessary for success. They often look to governments for protection against threats to their well-being and for assistance in competing with other businesses. In this new edition of *Uneasy Partnership* Geoffrey Hale examines the interdependent relationship between Canadian governments and businesses considering the political role of the government in the economy and what effect this has on the business environment. Hale provides an overview of the historical dimensions of Canada's political economy and relations between government and business giving readers background to consider topics such as corporate power, the implications of Canada's economic structure, regional economic differences and the role of interest groups in political and policy processes among others. In a thoughtful and well-researched style Hale lays out how the partnership between business and government in Canada is an uneasy one and one whose capacity to adapt to ongoing changes is essential in an uncertain world.

Remaking the Rust Belt Tracy Neumann, 2016-05-26 Cities in the North Atlantic coal and steel belt embodied industrial power in the early twentieth century but by the 1970s their economic and political might had been significantly diminished by newly industrializing regions in the Global South. This was not simply a North American phenomenon; the precipitous decline of mature steel centers like Pittsburgh, Pennsylvania and Hamilton, Ontario was a bellwether for similar cities around the world. Contemporary narratives of the decline of basic industry on both sides of the Atlantic make the postindustrial transformation of old manufacturing centers seem inevitable: the product of natural business cycles and neutral market forces. In *Remaking the Rust Belt* Tracy Neumann tells a different story, one in which local

political and business elites drawing on a limited set of internationally circulating redevelopment models pursued postindustrial urban visions They hired the same consulting firms shared ideas about urban revitalization on study tours at conferences and in the pages of professional journals and began to plan cities oriented around services rather than manufacturing all well in advance of the economic malaise of the 1970s While postindustrialism remade cities it came with high costs In following this strategy public officials sacrificed the well being of large portions of their populations Remaking the Rust Belt recounts how local leaders throughout the Rust Belt created the jobs services leisure activities and cultural institutions that they believed would attract younger educated middle class professionals In the process they abandoned social democratic goals and widened and deepened economic inequality among urban residents

Navigating a Changing World Geoffrey Hale, Greg Anderson, 2021-05-05 This volume addresses the governance and evolution of Canada's international policies and the challenges facing Canada's international policy relations on multiple fronts

Understanding Canadian Public Administration Gregory J. Inwood, 2025-03-07 Understanding Canadian Public Administration introduces students to both the theory and the practice of public administration in Canada It surveys the basic elements of the field in a historical context but with close attention to contemporary issues and developments to emphasize the real day to day impacts of public administration The text provides an overview of the field in the context of democratic government including a comparison of the roles of the private and public sectors The real world of government is examined with a focus on how theoretical ideas are translated into practice This fifth edition features updates on topical issues and new developments in the field including the impact of the Covid 19 pandemic on governmental policy and action as well as new and updated sections on Aboriginal self government human resources accountability financial management and intergovernmental administrative relations Understanding Canadian Public Administration invites students to examine the issues of public administration from their own viewpoints and through their own experiences bringing the field to life and making it immediately relevant to their current context

Forgotten Partnership Redux, *The Politics of Fiscal Federalism* Adam Harmes, 2019-05-13 What does federalism have to do with the political struggle between conservatives and progressives over economic policy How do economic theories of fiscal federalism influence European North American and global forms of governance In the first comprehensive account of the left right politics of multilevel governance across federal regional and global levels Adam Harmes identifies both free market and interventionist political projects related to fiscal federalism Harmes argues that these political projects and the interests that promote them explain a diverse range of phenomena across national contexts across levels of governance and over time This includes the left right dynamics of US and Canadian federalism the free market origins of British euroscepticism and the Brexit vote the complex politics behind the NAFTA renegotiations and the emergence of both populist and progressive challenges to global free trade A highly accessible outline of fiscal federalism theory The Politics of Fiscal Federalism also expands upon the broader value and policy differences

between neoliberal classical liberal and Keynesian welfare economics on issues such as the role of the state subnational and global trade economic nationalism and monetary integration This original and innovative work demonstrates that a political economy approach is essential to the study of federalism and why federalism and multilevel governance is a critical area of study for political economists **Intergovernmental Policy Capacity in Canada** Gregory J. Inwood, Patricia

O'Reilly, Carolyn M. Johns, 2011 In a highly networked world where governments must cope with increasingly complex and inter related policy problems the capacity of policy makers to work intergovernmentally is not an option but a necessity regory Inwood Carolyn Johns and Patricia O Reilly offer unique insights into intergovernmental policy capacity revealing what key decision makers and policy advisors behind the scenes think the barriers are to improved intergovernmental policy capacity and what changes they recommend Senior public servants from all jurisdictions in Canada discuss the ideas institutions actors and relations that assist or impede intergovernmental policy capacity Covering good and bad economic times and comparing insiders concerns and recommendations with those of scholars of federalism public policy and public administration they provide a comparative analysis of major policy areas across fourteen governments ntergovernmental policy capacity while of increasing importance is not well understood By examining how the Canadian federation copes with today s policy challenges the authors provide guideposts for federations and governments around the world working on the major policy issues of our day
