Unholy Wars: Afghanistan, American and International Terrorism John K. Cooley, 2001 **America's War against Global Jihad** William R. Nester, 2018-03-06 A specter haunts America the specter of Global Jihad Islamic Holy War This specter was never more horrific than on September 11 2001 when nineteen fanatics hijacked four jetliners and used them as guided missiles to destroy the twin World Trade Towers damage the Pentagon murder nearly 3 000 people and cause as much as several hundred billion dollars worth of direct and indirect damage to New York City and the national economy But Jihadists have periodically attacked Americans ever since November 1979 when mobs shouting death to America overran the American embassy in Tehran and held 52 officials hostage for 444 days President George W Bush responded to the September 11 atrocities by declaring a global war on terror Now in its second decade that war has cost the United States thousands of lives and trillions of dollars Americans are haunted by horrific televised images from across a swath of the Muslim world of bomb blasted cities hundreds of slaughtered bodies thousands of refugees huddled in squalid camps and American journalists in orange jump suits kneeling in the desert before the black robed and masked men who will behead them Americans increasingly question whether the global war on terror has been worth those costs for their own nation and the lands where it is fought This book analyzes America's crusade against Jihadism The key related questions it addresses are these Looking back what were the successes and failures of Washington's counter Jihadist strategy before and after September 11 Looking ahead should Americans stay the course or cut their losses in Iraq Afghanistan and elsewhere Was the catastrophic September 11 attack a one time event or could its equivalent or worse in death and destruction happen again Renowned Harvard professor Samuel Huntington asserted that The underlying problem for the West is not Islamic fundamentalism it is Islam a different civilization whose people are convinced of the superiority of their culture and are obsessed with the inferiority of their power Is that true Just

what of Muhammad's words and deeds if any justifies the barbarism of al Qaeda Islamic State and other Jihadists Finally just how corporeal is that specter of global Jihad to the United States A startling surprise awaits the reader in the final chapter as acclaimed expert William Nester weighs the specter of global Jihad against an array of other national security threats

Hubris, Self-Interest, and America's Failed War in Afghanistan Thomas P. Cavanaugh, 2015-07-22 This book describes the conduct of the US led post 9 11 war in Afghanistan Adopting a long term perspective it argues that even though Washington initially had an opportunity to achieve its security goals and give Afghanistan a chance to enter a new era it compromised any possibility of success from the very moment it let bin Laden escape to Pakistan in December 2001 and found itself locked in a strategic overreach Given the bureaucratic and rhetorical momentum triggered by the war on terror in America the Bush Administration was bound to deploy more resources in Afghanistan sooner or later despite its focus on Iraq The need to satisfy unfulfilled counter terrorism objectives made the US dependent on Afghanistan's warlords which compromised the country's stability and tarnished its new political system The extension of the US military presence made Washington lose its leverage on the Pakistan army leaders who aware of America's logistical dependency on Islamabad supported the Afghan insurgents their historical proxies more and more openly The extension of the war also contributed to radicalize segments of the Afghan and Pakistani populations destabilizing the area further In the meantime the need to justify the extension of its military presence influenced the US led coalition into proclaiming its determination to democratize and reconstruct Afghanistan While highly opportunistic the emergence of these policies proved both self defeating and unsustainable due to an inescapable collision between the US led coalition's inherent self interest hubris limited knowledge limited attention span and limited resources and on the other hand Afghanistan's inherent complexity As the critical contradictions at the very heart of the campaign increased with the extension of the latter's duration scale and cost America's leaders entrapped in path dependence lost their strategic flexibility Despite debates on troops resource allocation and more sophisticated doctrines they repeated the same structural mistakes over and over again The strategic overreach became self sustaining until its costs became intolerable leading to a drawdown which has more to do with a pervasive sense of failure than with the accomplishment of any noble purpose or strategic breakthrough **Terrorism and Global Security** Ann E.

Robertson, 2010-06-23 Presents a guide to the issues of global security and terrorism including primary sources important documents research tools organizations and notable persons **The Failure of a Pseudo-Democratic State in**

Afghanistan Francisco José Berenguer López, Juan Ignacio Castien Maestro, 2024-09-13 This edited volume provides a multidisciplinary analysis of the failure of democratic state building in Afghanistan Encompassing insights from diverse perspectives and different theoretical viewpoints most importantly those of Afghan nationals the chapters address complex issues including the extent of global hegemonic power the efficacy of nation building strategies the clash between modernization and cultural legacies and the intricate task of establishing enduring institutions amid pervasive clientelist

networks The volume is divided into sections addressing a key aspect of the situation state institutions and society insecurity and corruption social and economic development women s rights Drawing crucial lessons from a turbulent past to inform and guide future endeavors towards a stable prosperous Afghanistan this volume will be of interest to researchers and students of Middle East politics peace and conflict studies security studies development history and sociology *Afghanistan* Chris Johnson, Jolyon Leslie, 2009-03-15 Widely portrayed as the success of the war on terror Afghanistan is now in crisis Increasingly detached from the people it is meant to serve and unable to manage the massive amounts of aid that it has sought the administration in Kabul struggles to govern even the diminishing areas of the country over which it has some sway Whatever political progress that has been possible now takes place against a backdrop of mounting casualties among innocent Afghan civilians and NATO troops Many Afghans feel themselves to be trapped hostage between two forces both of which claim to be their liberators Perceived by some to be part of a wider struggle that extends to Iraq and Palestine NATO s campaign in the south seems unwinnable Now more than ever it is important to understand Afghanistan and examine the recent experience of international engagement and the myths and half truths that abound Drawing on long experience of living and working in Afghanistan Chris Johnson and Jolyon Leslie examine what the changes of recent years have meant in terms of Afghans sense of their own identity and hopes for the future They argue that lasting peace and stability will only be brought about through a form of engagement that respects the rights of Afghans to determine their own political future while delivering on the responsibilities that come with military intervention *Inside War* Fabio Armao, 2016-02-22 The post Cold War era was characterised by both the recurrence of state wars and the spread of forms of organised violence other than wars Asymmetric warfare between alliances led by the USA and groups of insurgents such as those witnessed in Afghanistan and Iraq coexist alongside domestic conflicts such as that of former Yugoslavia and more recently Libya and Syria and still other conflicts involving gangs mafias or narco traffickers The massive military industrial complexes conceived in the context of the threat of nuclear Armageddon are still there of course but they now coexist with irregular armies of insurgents carrying out massacres through the use of light weapons and improvised explosives devices This book opposes the idea that this situation prefigures the return to an anarchical pre political condition by assuming that new wars are rather the product of the blurring of the public private divide induced by the end of the Cold War together with globalisation As a consequence also the internal and external factors are blurred and ever more permeable and elusive is becoming even the border between war and crime *Inside War* goes beyond a state centered analysis and adopts an interdisciplinary and multilayered approach and is intended to foster the dialogue among researchers from different fields It places war at the core of analysis assuming that the reality of war is what we make of it and that the only insurmountable limit to our comprehension of war is our way of knowing and representing it Fabio Armao teaches courses in Politics and Globalisation Processes and Criminal Systems He has been Visiting Professor at Cornell University and co convenor of the Standing Group on Organized Crime European

Consortium for Political Research Founding member of T wai Torino World Affair Institute he is also member of the Editorial Board of Global Crime His research interests and publications focus on international wars and geopolitics on violent non state actors and transnational organised crime and on urban security A Military History of Afghanistan Ali Ahmad Jalali, 2017-03-17 The history of Afghanistan is largely military history From the Persians and Greeks of antiquity to the British Soviet and American powers in modern times outsiders have led military conquests into the mountains and plains of Afghanistan leaving their indelible marks on this ancient land at the juncture of Europe Asia and the Middle East In this book Ali Ahmad Jalali a former interior minister of Afghanistan taps a deep understanding of his country s distant and recent past to explore Afghanistan s military history during the last two hundred years With an introductory chapter highlighting the major military developments from early times to the foundation of the modern Afghan state Jalali s account focuses primarily on the era of British conquest and Anglo Afghan wars the Soviet invasion the civil war and the rise of the Taliban and the subsequent U S invasion Looking beyond persistent stereotypes and generalizations e g the graveyard of empires designation emerging from the Anglo Afghan wars of the 19th century and the Soviet experience of the 1980s Jalali offers a nuanced and comprehensive portrayal of the way of war pursued by both state and non state actors in Afghanistan against different domestic and foreign enemies under changing social political and technological conditions He reveals how the structure of states tribes and social communities in Afghanistan along with the scope of their controlled space has shaped their modes of fighting throughout history In particular his account shows how dynastic wars and foreign conquests differ in principle strategy and method from wars initiated by non state actors including tribal and community militias against foreign invasions or repressive government Written by a professional soldier politician and noted scholar with a keen analytical grasp of his country s military and political history this magisterial work offers unique insight into the military history of Afghanistan and thus into Afghanistan itself
