

FAIRE PROGRESSER L'EUROPE SOCIALE ET SOLIDAIRE

Plusieurs décennies après la mise en place du marché commun et d'une monnaie unique, l'Union européenne va mal. La crise de 2008 a déclenché des phénomènes de déflation sociale interne, avec une baisse des protections sociales, des salaires et de la fiscalité, mettant à mal une politique de convergence économique et sociale.

La question sociale semble aujourd'hui encore le parent pauvre d'une Union fragmentée, malgré une volonté politique affichée : le « triple A social » réclamé par la Commission européenne en 2014 met la performance et la cohésion sociales au cœur d'une « convergence vers le haut » pour les États membres. Mais la difficulté à obtenir un consensus au sein d'une Europe élargie et l'affaiblissement des mécanismes de dialogue interrogent les partenaires sociaux sur leur capacité à relancer l'Europe sociale.

Dans cette optique, l'économie sociale et solidaire, véritable pont entre réalité économique et engagement social, doit être renforcée. L'Union européenne doit ainsi doter l'ESS des outils nécessaires pour lui permettre de changer d'échelle et de contribuer au développement d'une Europe toujours fragile.

Plus largement, une impulsion forte doit être donnée au dialogue social, conciliant à la fois autonomie des parties prenantes et efficacité, et ainsi transformer la crise économique en opportunité politique.

The French Nonprofit Sector Laura Nirello, Lionel Prouteau, 2018-08-20 This article deals with the literature on the French nonprofit sector NPS A preliminary part is devoted to presenting and discussing the characteristics that shape the approaches to this sector in France We stress the strong influence of legal categories on the sector's definition and in this context the importance of the status inherited from the 1901 Act on contracts of association This raises a problem for a more analytical approach to the sector because the diversity of the nonprofit organizations NPOs regulated under this Act risks being overshadowed In this first part we also underline the primacy accorded in France to the concept of the social economy which has today become the social and solidarity economy SSE over that of the nonprofit sector In the second part the article outlines some landmarks in the history of the French NPS French NPOs were for many years objects of suspicion arbitrariness and repression on the part of the public authorities and this persisted until the 1901 legislation on contracts of association was enacted However this hostile context did not prevent the sector from having a richer existence than is sometimes admitted This literature review also focuses on empirical studies of the sector placing a particular emphasis on the more recent ones These French studies basically adopt two types of approach The first is concerned essentially with the NPOs and focuses its attention on their economic importance whether measured in terms of financial resources employment or less frequently added value The second approach investigates the kinds of individual participation the sector engenders by examining the various forms it takes such as membership of NPOs or voluntary work This review ends with the analysis of the challenges that NPS faces in a context characterized by the increasing constraints on public funding changes in the nature of such funding with a substitution of contracts for subsidies an increased competition among NPOs as well as between NPOs and for-profit enterprises The article concludes that despite the advances in research on the French NPS some aspects like formal volunteering and the role of voluntary associations are still understudied while others like informal groups and informal volunteering are almost totally ignored

Social Entrepreneurship and Social Innovation Mario Biggeri, Enrico Testi, Marco

Bellucci, Roel During, H. Thomas R. Persson, 2018-09-21 This book provides comprehensive and advanced analysis of the characteristics of social entrepreneurship in Europe. It offers innovative up to date research on the ecosystems of social entrepreneurship, the behavior of social entrepreneurs, their ability to produce social innovation, social capital and social inclusion, and the role of stakeholders in fostering socially oriented businesses. Moreover, it addresses the diversity of the European social enterprise sector from an evolutionary perspective with particular reference to the rise of social entrepreneurship and the role of new generation social entrepreneurs throughout Europe. Multidisciplinary contributions authored by experts from business and accounting, economics and sociology serve the purpose of delivering a holistic study of social entrepreneurship, also providing the necessary data for delivering policy implications on the features of the most effective enabling social and institutional ecosystems. The broad approach based on different theoretical frameworks and methodologies across numerous disciplines enables the authors to tackle all of the complex research issues connected to social entrepreneurship in the region. The book builds on the results of the European Union 7FP European Union's Research and Innovation funding program for 2007-2013 funded EFSEIIS Enabling the flourishing and evolution of social entrepreneurship for innovative and inclusive societies research project. The central theme of the book is an evolutionary perspective on the dynamics and the rise of the social enterprise in Europe. This evolutionary perspective can be used in an economic as well as a social longitudinal analysis of changing contexts and entrepreneurial practices. The evolutionary perspective will be used as a tool to account for the specificity of developmental pathways in different contexts and countries.

Editorials and the Power of Media Elisabeth Le, 2010 Editorials define at a given time how media construct their socio-cultural environment and where they position themselves in it. In this sense, they are snapshots of media socio-cultural identities whose study is crucial for the understanding of media actions and interactions on the political stage. This book contributes to the study of media roles in politics with a methodological discursive communication identity framework and its application to a corpus of editorials. This allows for the definition of editorials as a genre and it reveals that thanks to a very adroit interweaving of their socio-cultural identities, news media can play a much more active role on the political stage than studies on framing and agenda setting have hitherto shown. The place of media in political communication models might therefore need to be reviewed. This book is intended for all those interested in media and politics, whatever their academic specializations.

Comprendre le débat sur la constitution de l'Union Européenne Eric Dacheux, 2005 Quel est le véritable enjeu du débat sur la Constitution européenne? Tel est l'objet central de cet ouvrage qui dans un langage clair et accessible, poursuit trois objectifs. Informer. Ce livre présente de manière simplifiée le fonctionnement actuel des institutions, les principales innovations du traité des États européens qui ont précédé celui sur la constitution. Il propose également un historique et un glossaire définissant les termes fondamentaux. Découvrir. Quels sont les acteurs centraux du débat public européen? Comment surmonter les différences culturelles pour organiser un débat dans plusieurs langues entre des citoyens européens?

qui ignorent le fonctionnement réel de l'Union. Quels rôles jouera-t-elle ? Telles sont quelques-unes des questions qui sont abordées dans cet ouvrage à l'aide d'exemples concrets. Argumenter. Ce livre défend deux thèses : la démocratie européenne ne souffre pas d'un déficit d'information mais d'un manque d'utopie. Le débat public européen ne doit pas se clore après le résultat du vote mais au contraire se poursuivre par un débat sur l'identité et le territoire de l'Union. Un livre indispensable pour comprendre les enjeux des débats actuels sur le Traité constitutionnel.
