Historical Developments

The West dominated the global political order at the beginning of the 20th century, but both land-based and maritime empires gave way to new states by the century's end.

The older, land-based Ottoman, Russian, and Qing empires collapsed due to a combination of internal and external factors. These changes in Russia eventually led to communist revolution.

States around the world challenged the existing political and social order, including the Mexican Revolution that arose as a result of political crisis.

 -young turks: overthrew the government and implemented democratic reforms such as parliamentary system

 -revolution: Karl marx started up with ideas (social equalities, no private property, collective living, **proletariat**(working class) must overthrow the **bourgeoisie**)
 -were not well equipped when WWI broke out to fight strong states such as Germany which led to food shortages, massive casualties, poor weapons uniforms etc.
 -Revolution in Russia occurred due to food shortages etc., after fall of Nicholas II in 1917, massive chaos ensued-many different groups promoting their agendas and seeking power, provided opening for more radical groups such as the Bolsheviks led by Vladimir

3. Describe the factors that led to the collapse of the Qing Dynasty in China.

- Japan had modernized so much it was now a threat to China and led to the Sino-Japanese War where China was defeated
