United Nations Documents Index April June 2006:

United Nations Documents Index Dag Hammarskjöld Library, 2007 **The United Nations Special Procedures System** Aoife Nolan, Rosa Freedman, Thérèse Murphy, 2017-01-09 The United Nations Special Procedures system is a key element of the evolving international framework for human rights protection and promotion. However, despite the system's expansion, the range of roles and functions performed by mandate holders and the mounting evidence of its strengths and limitations, there has been very little academic interrogation or analysis of Special Procedures. This lacuna is ever more problematic given the growing profile and effectiveness of the Special Procedures work, as well as the increasing attention and challenges that they face both externally from States and internally from within the UN system. Given the current state of play of Special Procedures, it is essential that scholarly attention be focussed upon the system. How does it contribute to international human rights protection? How, when and why does it fail to do so? What steps can and should be taken to address shortcomings both within the system and in terms of the legal and political context within which it operates? Featuring expert contributions from key players within and expert commentators on the Special Procedures system, this volume addresses these questions in an in-depth and rigorous scholarly manner.

The Index is a two-volume set. [Conflict and Peace in Western Sahara](#) János Besenyő, R. Joseph Huddleston, Yahia H. Zoubir, 2022-12-26 This book offers the first comprehensive analysis of MINURSO, the United Nations Mission for the Referendum in Western Sahara, focused on its activities, composition, purpose, and operational future in Western Sahara, the world's last colony. The book's focus is broad, examining MINURSO from key historical, legal, military, and political angles, whilst assessing the future of UN peacekeeping missions in the Western Sahara. Supported by a diverse international mix of perspectives and professions, including academics, lawyers, soldiers, and humanitarian aid workers, an in-depth view of MINURSO is provided, rooted in practical Western Saharan field experience. The authors reveal the complexities of the region and of the mission locally, but also analyze MINURSO through a global lens, focusing on relations with the United States, China, Russia, France, and African states. This approach emphasizes the importance of the region as a site of international struggle while remaining conscious of local contexts. A landmark contribution to peacekeeping studies, the book is vital reading for practitioners and academics focused on the Western Saharan conflict and the MENA region, but will also be of interest to those engaged in international relations, international law, and security studies.

Small Arms Survey 2007 Small Arms Survey, Graduate Institute of International Studies (Geneva, Switzerland), 2007-09-06 The Small Arms Survey 2007 features a special focus on the complex issue of

urban violence *In Defense of Politicization of Human Rights* Elvira Domínguez-Redondo, 2020-06-01 This book constitutes the first comprehensive study of the United Nations Special Procedures covering their history methods of work institutional status relationship with other politically driven organs and processes affecting their development Using concrete examples the book shows how cooperation between states rather than legalistic processes have had beneficial impacts on the protection and promotion of human rights *The Origins of ISIS* Simon Mabon, Stephen Royle, 2016-11-30 The rapid expansion of ISIS and its swathe of territorial gains across the Middle East have been headline news since 2013 Yet much media attention and analysis has been focussed upon the military exploits brutal tactics and radicalisation methods employed by the group While ISIS remains a relatively new phenomenon it is important to consider the historical and local dynamics that have shaped the emergence of the group in the past decade In this book Simon Mabon and Stephen Royle provide the reader with a comprehensive overview of the roots tactics and ideology of the group exploring the interactions of the various participants involved in the formative stages of ISIS Based on original scholarly sources and first hand research in the region this book provides an authoritative and closely analysed look at the emergence of one of the defining forces of the early twenty first century **Policy-Making in the GCC** Neil Quilliam, Mark C. Thompson, 2017-09-11 The GCC is a major player in the post 2011 reordering of the Middle East Despite the rise in prominence of individual Gulf states especially Kuwait Qatar Saudi Arabia and the United Arab Emirates and the growth of the GCC as a collective entity surprisingly little attention has been paid to the actual mechanics of policy making in the region This book analyses the vital role that institutions are coming to play in shaping policy in the Gulf Arab states The research coincides with two key developments that have given institutions new importance in the policy process the emergence of a new generation of leaders in the Gulf and the era of low oil prices Both developments along with dramatic demographic change have compelled state and citizens to re evaluate the nature of the social contract that binds them together Contributors assess the changing relationship between state and citizen and evaluate the role that formal and informal institutions play in mediating such change and informing policy The book shows how academic social and economic institutions are responding to the increasingly complex process of decision making where citizens demand better services and further empowerment and states are obliged to seek wider counsel although wanting to retain ultimate authority With contributions from both academics and practitioners this book will be highly relevant for researchers and policymakers alike *The Annotated Digest of the International Criminal Court, 2004-2006* Cyril Laucci, 2007-11-30 The International Criminal Court was established from the July 1 2002 entry into force of the Rome Statute The first decisions rendered by the Court were published in July 2004 and by the end of December 2006 the number of decisions had reached 230 The Annotated Digest of the International Criminal Court 2004 2006 is the first volume in a series that compiles the most significant legal findings from public decisions rendered by the International Criminal Court In total 230 decisions were reviewed for the preparation of the present volume which examines the decisions

issued from 2004 and 2006 The abstracts selected for inclusion in this volume concern the first situations referred to the Court by the Democratic Republic of the Congo the Central African Republic and the Sudan as well the initiation of cases against Thomas Lubanga Dyilo Joseph Kony Vincent Otti Raska Lukwiya Okot Odhiambo and Dominic Ongwen Abstracts were selected based on the following criteria i clarification of a legal issue or interpretation of a legal provision ii implementation or application of a legal provision and iii meaningfulness with respect to international justice human rights or international humanitarian law Abstracts are quoted in their original language and a summary in English is included where only a French language passage is available Each abstract is organized under the relevant Statute Rule of Procedure and Evidence or Regulation of the Court together with a short description of the topic The Digest series is intended foremost as a tool for international criminal law practitioners and academics interested in public humanitarian law and the work of the Court An index and reference guide is provided to facilitate cross referencing among the volumes in the series **Climate Change**

as a Security Risk Hans Joachim Schellnhuber, 2010-09-23 Without resolute counteraction climate change will overstretch many societies adaptive capacities within the coming decades This could result in destabilization and violence jeopardizing national and international security to a new degree However climate change could also unite the international community This is provided that we recognize climate change as a threat to humankind and so set the course for adopting a dynamic and globally coordinated climate policy If we fail to do so climate change will draw ever deeper lines of division and conflict in international relations triggering numerous conflicts between and within countries over the distribution of resources especially water and land and over the management of migration or over compensation payments between the countries mainly responsible for climate change and those countries most affected by its destructive effects With Climate Change as a Security Risk WBGU has compiled a flagship report on an issue that quite rightly is rising rapidly up the international political agenda The authors pull no punches on the likelihood of increasing tensions and conflicts in a climatically constrained world and spotlight places where possible conflicts may flare up in the 21st century unless climate change is checked The report makes it clear that climate policy is preventative security policy
