Universal Access in Human-Computer Interaction. Context Diversity Constantine Stephanidis, 2011-06-24. The four volume set LNCS 6765-6768 constitutes the refereed proceedings of the 6th International Conference on Universal Access in Human Computer Interaction UAHCI 2011 held as Part of HCI International 2011 in Orlando, FL, USA, in July 2011, jointly with 10 other conferences addressing the latest research and development efforts and highlighting the human aspects of design and use of computing systems. The 47 revised papers included in the third volume were carefully reviewed and selected from numerous submissions. The papers are organized in the following topical sections: universal access in the mobile context; ambient assisted living and smart environments; driving and interaction; interactive technologies in the physical and built environment.

Web Accessibility Simon Harper, Yeliz Yesilada, 2008-08-01. Covering key areas of evaluation and methodology, client side applications, specialist and novel technologies, along with initial appraisals of disabilities, this important book provides comprehensive coverage of web accessibility. Written by leading experts in the field, it provides an overview of existing research and also looks at future developments, providing a much deeper insight than can be obtained through existing research libraries, aggregations, or search engines. In tackling the subject from a research rather than practitioner standpoint, scientists, engineers, and postgraduate students will find a definitive and foundational text that includes field overviews, references, issues, new research problems and solutions, and opinions from industrial experts and renowned academics from leading international institutions including Adobe, Google, IBM, W3C, and York, Dartmouth, and Kansai Universities.
