Education, Space and Urban Planning Angela Million,Anna Juliane Heinrich,Thomas Coelen,2016-07-26 This book examines a range of practical developments that are happening in education as conducted in urban settings across different scales It contains insights that draw upon the fields of urban planning urbanism geography architecture education and pedagogy It brings together current thinking and practical experience from German and international perspectives This discussion is organised in four segments schools and the neighbourhood education and the neighbourhood education and the city and finally education and the region Contributors cover a wide range of contemporary and significant socio political aspects of education over the last decade They reinforce emergent thinking that space and its urban context are important dimensions of education This book also underscores the need for more research in the relationships between education and urban development itself Current urban planning does not fully connect our understanding in education with what we know in the spatial and planning sciences Accordingly this release is an early attempt to bring together a growing body of integrated and interdisciplinary reflection on education theory and practice

The Little Book of Second Mentions Juliet & Matthew Maguire,2025-08-19 To avoid repetition journalists often try to be creative when referencing something for the second time in a news article for example Boris Johnson at the first mention could become the blond buffoon at the second mention while Donald Trump could become the bloviating billionaire with extra points for alliteration Once you see one you start seeing them everywhere and it becomes addictive This grammatical tool christened elegant variation is used by journalists trying to avoid making their articles boring through repetition but its use is not an exact science and the results can sometimes be hilarious Every day the Second Mentions team is sent examples of these spotted by journalists who are keen to point out shining examples used by their fellow writers or sometimes claiming responsibility for their own efforts and non journalists who enjoy the simple pleasure of happening upon these second mentions while reading news articles And so from distended dachshunds to marine marauders and from 5ft 1in nonagenarians to pear shaped money guzzlers The Little Book of Second Mentions is the perfect gift for everyone with an

inventive passion for the English language from those with a general interest in current affairs to those working in the media
