Utopia In Performance Finding Hope At The Theater:

Utopia in Performance Jill Dolan, 2010-02-05 Jill Dolan is the theatre's most astute critic and this new book is perhaps her most important. *Utopia in Performance* argues with eloquence and insight how theatre makes a difference and in the process demonstrates that scholarship matters too. It is a book that readers will cherish and hold close as a personal favorite and that scholars will cite for years to come. David Román, University of Southern California. What is it about performance that draws people to sit and listen attentively in a theater hoping to be moved and provoked, challenged and comforted? In *Utopia in Performance*, Jill Dolan traces the sense of visceral emotional and social connection that we experience at such times: connections that allow us to feel for a moment not what a better world might look like but what it might feel like and how that hopeful utopic sentiment might become motivation for social change. She traces these utopian performatives in a range of performances including the solo performances of feminist artists Holly Hughes, Deb Margolin and Peggy Shaw; multicharacter solo performances by Lily Tomlin, Danny Hoch and Anna Deavere Smith; the slam poetry event Def Poetry Jam; The Laramie Project; Blanket, a performance by postmodern choreographer Ann Carlson; *Metamorphoses* by Mary Zimmerman; and Deborah Warner's production of *Medea* starring Fiona Shaw. While the book richly captures moments of feeling utopia found within specific performances, it also celebrates the broad potential that performance has to provide a forum for being human together for feeling love, hope and commonality in particular and historical rather than universal and transcendent ways.

Utopia in Performance Paul Henle, 2003 **Performing Utopia** Rachel Bowditch, Pegge Vissicaro, 2017 In her landmark study *Utopia in Performance Finding Hope at the Theatre*, Jill Dolan departed from historical writings on utopia which suggest that social reorganization and the redistribution of wealth are utopian efforts to argue instead that utopia occurs in fragmentary utopian moments often found embedded within performance. While Dolan focused on the utopian performative within a theatrical context, this volume edited by Rachel Bowditch and Pegge Vissicaro expands her theories to encompass performance in public life from diasporic hip hop battles, Chilean military parades, commemorative processions, Blackfoot powwows and post-Katrina Mardi Gras to the Philadelphia Mummers Parade, Festas Juninas in Brazil, the Renaissance Fairs in Arizona and neoburlesque competitions. How do these performances rehearse and enact visions of a utopic world? What can the lens of utopia and dystopia illuminate about the potential of performing bodies to transform communities, identities, values and beliefs across time? *Performing Utopia* not only answers these questions but offers a diverse collection of case studies focusing on utopias, dystopias and heterotopias enacted through the performing body.

Shared Heritage Revisited Dalya Yafa Markovich, Christiane Dätsch, 2024-05-06 Culture is constructed, negotiated, managed and shared by various ideological, political and moral reasonings which manifest themselves tangibly and intangibly in public monuments, architecture, memorial sites, theaters, museums, orchestras and heritage associations. The contributions to this volume explore the intersection of cultural heritage and nationality in societies that are characterized by national

multi national and post national concepts They question the roles that cultural heritage plays in its various contexts and the ways in which ideology functions to produce it **The Experimental Translator** Douglas Robinson, 2023-01-24 This book celebrates experimental translation taking a series of exploratory looks at the hypercyborg translator the collage translator the smuggler translator and the heteronymous translator The idea isn't to legislate traditional translations out of existence or to win some kind of literary competition with the source text but an exuberant participation in literary creativity Turns out there are other things you can do with a great written work and there is considerable pleasure to be had from both the doing and the reading of such things This book will be of interest to literary translation studies researchers as well as scholars and practitioners of experimental creative writing and avant garde art postgraduate translation students and professional literary translators

Performing Queer Latinidad Ramon H. Rivera-Servera, 2012-10-26 Performing Queer Latinidad highlights the critical role that performance played in the development of Latina o queer public culture in the United States during the 1990s and early 2000s a period when the size and influence of the Latina o population was increasing alongside a growing scrutiny of the public spaces where latinidad could circulate Performances from concert dance and street protest to the choreographic strategies deployed by dancers at nightclubs served as critical meeting points and practices through which LGBT and other nonnormative sex practitioners of Latin American descent individuals with greatly differing cultures histories of migration or annexation to the United States and contemporary living conditions encountered each other and forged social cultural and political bonds At a time when latinidad ascended to the national public sphere in mainstream commercial and political venues and Latina o public space was increasingly threatened by the redevelopment of urban centers and a revived anti immigrant campaign queer Latinas os in places such as the Bronx San Antonio Austin Phoenix and Rochester NY returned to performance to claim spaces and ways of being that allowed their queerness and latinidad to coexist These social events of performance and their attendant aesthetic communication strategies served as critical sites and tactics for creating and sustaining queer latinidad

Theatrical Speech Acts: Performing Language Erika Fischer-Lichte, Torsten Jost, Saskya Iris Jain, 2020-01-10 Theatrical Speech Acts Performing Language explores the significance and impact of words in performance probing how language functions in theatrical scenarios what it can achieve under particular conditions and what kinds of problems may arise as a result Presenting case studies from around the globe spanning Argentina Egypt Germany India Indonesia Korea Kenya Nigeria Rwanda Thailand the UK and the US the authors explore key issues related to theatrical speech acts such as post colonial language politics histories practices and theories of translation for in performance as well as practices and processes of embodiment With scholars from different cultural and disciplinary backgrounds examining theatrical speech acts their preconditions their cultural and bodily dimensions as well as their manifold political effects the book introduces readers to a crucial linguistic dimension of historical and contemporary processes of interweaving performance cultures Ideal for drama theater performance and translation scholars worldwide

Theatrical Speech Acts opens up a unique perspective on the transformative power of language in performance **Staging Interspaces in Contemporary British Theatre** Vicky Angelaki, 2024-06-03 This open access book considers how relationships to place and spatial ecologies more broadly are becoming redefined in light of intersecting climate health identity and care crises Through an interdisciplinary intersectional discourse it investigates how spaces of liminality frame contemporary human conditions in their interactional modes with both human and non human ecologies The interspace grounds the discussion indicating states of flux and transience where the in between is the defining characteristic This open access monograph then takes up the new complexity in one s relationship s to their surrounding spaces through a rigorous discussion of texts and performance contexts in cutting edge contemporary British theatre on a national and international scale It seeks to address how in betweenness spatially temporally environmentally geographically and socially conceived has been emerging as the primary state for the unmoored individual of our time and how it might serve as catalyst for performing one s agency in modes more empathetic not only to other humans but also and equally to the non human world

Anarchism and Art Mark Mattern, 2016-03-01 Situated at the intersection of anarchist and democratic theory Anarchism and Art focuses on four popular art forms DIY Do It Yourself punk music poetry slam graffiti and street art and flash mobs found in the cracks between dominant political economic and cultural institutions and on the margins of mainstream neoliberal society Mark Mattern interprets these popular art forms in terms of core anarchist values of autonomy equality decentralized and horizontal forms of power and direct action by common people who refuse the terms offered them by neoliberalism while creating practical alternatives As exemplars of central anarchist principles and commitments such forms of popular art he argues prefigure deeper forms of democracy than those experienced by most people in today s liberal democracies That is they contain hints of future more democratic possibilities while modeling in the present the characteristics of those more democratic possibilities Providing concrete evidence that progressive change is both desirable and possible they also point the way forward **Ecocriticism in Taiwan** Chia-ju Chang, Scott Slovic, 2016-06-01

Ecocriticism is a mode of interdisciplinary critical inquiry into the relationship between cultural production society and the environment The field advocates for the more than human realm as well as for underprivileged human and non human groups and their perspectives Taiwan is one of the earliest centers for promoting ecocriticism outside the West and has continued to play a central role in shaping ecocriticism in East Asia This is the first English anthology dedicated to the vibrant development of ecocriticism in Taiwan It provides a window to Taiwan s important contributions to international ecocriticism especially an emerging vernacular trend in the field emphasizing the significance of local perspectives and styles including non western vocabularies aesthetics cosmologies and political ideologies Taiwan s unique history geographic location geology and subtropical climate generate locale specific vernacular thinking about island ecology and environmental history as well as global environmental issues such as climate change dioxin pollution species extinction energy decisions

pollution and environmental injustice In hindsight Taiwan's industrial modernization no longer appears as a success narrative among Asia's Four Little Dragons but as a cautionary tale revealing the brute force entrepreneurial exploitation of the land and the people In this light this volume can be seen as a critical response to Taiwan's postcolonial capitalist industrial modernity as manifested in the scholars readings of Taiwan's mountain and river ocean animal and aboriginal non fictional narratives environmental documentaries and art installations This volume is endowed with a mixture of ecocosmopolitan and indigenous sensitivities Though dominated by the Han Chinese ethnic group and its Confucian ideology Taiwan is a place of complicated ethnic identities and affiliations The succession of changing colonial and political regimes made even more complex by the island's sixteen aboriginal groups and several diasporic subcultures South Asian immigrants Western expatriates and diverse immigrants from the Chinese mainland has led to an ongoing quest for political and cultural identity This complexity urges Taiwan based ecoscholars to pay attention to the diasporic comparative and intercultural dimensions of local specificity either based on their own diasporic experience or the cosmopolitan features of the Taiwanese texts they scrutinize This cosmopolitan vernacular dynamic is a key contribution Taiwan has to offer current ecocritical scholarship
