**United States Air Force in Vietnam** Lou Drendel, Norm Taylor, 2013-09-27 It has been 40 years since the United States involvement in Vietnam officially ended after a decade of concentrated aerial warfare Vietnam is generally thought of as the first war the United States lost and yet the sacrifices made by those who did the fighting should not and will not be thought of as made in vain Quantum leaps in tactics and technology driven by the necessities of combat survival put the USAF on a path to worldwide supremacy as exemplified by resounding victories in the Gulf Wars of the future The combat pilots of Vietnam were destined to become the combat leaders of the future Almost without exception their experiences in Vietnam created a resolve to never repeat the many mistakes made in the promulgation of that war This is a photographic history of a long series of deployments by a myriad of USAF aircraft from the fighters that were the tip of the spear to the support aircraft that performed logistical and special missions Of the 301 black and white and 62 color photos there are over 100 previously unpublished photos that are enhanced by several in depth first person narratives from the pilots who fought this war The United States Air Force John C. Fredriksen, 2011-01-12 Understand the growth and evolution of American air power with this overview of the history of the world's most successful aviation force The United States Air Force A Chronology captures the sweep of U S Air Force history from the service's inception to present times Concise entries arranged by date touch upon military events such as victories and defeats significant political administrative and technological changes affecting the service and significant events in the careers of noted leaders Daily occurrences are described within the context of greater historical events such as wars The chronology covers all aspects of the U S Air Force and its historical antecedents U S Air Service Army Air Corps and Army Air Force commencing with the Balloon Corps in the American Civil War and extending through Operation IRAQI FREEDOM and Operation ENDURING FREEDOM in Afghanistan Events of note major and minor are listed in the order of occurrence The book includes all major air campaigns in all major conflicts as well as such noteworthy events as record breaking flights and the introduction of new aircraft **Air Force Magazine**, 2017 *The Liberator Legend* Philip A. St. John, 1990 *The Air Reservist*, 1965 **America's Secret MiG Squadron** Gaillard R. Peck, Jr, 2012-07-20 The personal account of the original Red Eagle of the establishment equipment and training practices of the highly classified MiG squadron of the USAF America's Secret MiG Squadrons is the story of a group of incredibly brave military pioneers who put their lives on the line to establish a training program that would prepare the US Air Force for a potential Cold War battle with Soviet aircraft As a F 4 Phantom II pilot in Vietnam Col Peck had been shocked by the technological abilities of Soviet built aircraft and at the poor level of training available to US pilots to aid them in their battles with Soviet MiGs in the skies over Vietnam Working with the support of Gen Hoyt S Vandenberg Jr and under conditions of extreme secrecy the CONSTANT PEG program was launched with Peck as the original Red Eagle This is the fascinating history of the men who trained to fly and maintain covertly obtained MiGs for the first time providing an

insider's perspective, personal anecdotes and photographs revealing how Peck battled bureaucracy and scepticism to ultimately establish the premier fighter pilot training center, the real Top Gun. [Air Force Chaplains: Air Force chaplains, 1961-1970](#) United States. Air Force. Office of the Chief of Chaplains, Daniel B. Jorgensen, 1961. *Legend* Eric Blehm, 2016-04-26 The true story of the U S Army's 240th Assault Helicopter Company and a Green Beret Staff Sergeant's heroic mission to rescue a Special Forces team trapped behind enemy lines during the Vietnam War from New York Times bestselling author Eric Blehm On May 2 1968 a twelve man Special Forces team covertly infiltrated a small clearing in the jungles of neutral Cambodia where U S forces were forbidden to operate Their objective just miles over the Vietnam border was to collect evidence that proved the North Vietnamese Army was using the Cambodian sanctuary as a major conduit for supplying troops and materiel to the south via the Ho Chi Minh Trail What the team didn't know was that they had infiltrated a section of jungle that concealed a major enemy base Soon they found themselves surrounded by hundreds of NVA under attack low on ammunition stacking the bodies of the dead as cover in a desperate attempt to survive the onslaught When Special Forces Staff Sergeant Roy Benavidez heard their distress call he jumped aboard the next helicopter bound for the combat zone What followed would become legend in the Special Operations community Flown into the fray of battle by the 240th Assault Helicopter Company Benavidez jumped from the hovering aircraft ran nearly 100 yards through withering enemy fire and despite being immediately and severely wounded organized an extraordinary defense and rescue of the Special Forces team Written with extensive access to family members surviving members of the 240th Assault Helicopter Company on the ground eye witness accounts never before published as well as recently discovered archival and declassified military records Blehm has created a riveting narrative both of Roy Benavidez's life and career and of the inspiring almost unbelievable events that defined the brotherhood of the air and ground warriors in an unpopular war halfway around the world Legend recounts the courage and commitment of those who fought in Vietnam in service of their country and the story of one of the many unsung heroes of the war **Warplane** Hal Sundt, 2023-10-03 The A 10 is the Air Force's unlikely success story an airplane designed to support the Army and one that ground troops came to venerate Originally conceived with the express purpose of destroying Soviet tanks the Air Force only developed it to keep funding away from the Army's response to the mission the AH 56 Cheyenne helicopter Inspired by the biography of a tank busting German pilot in World War II the engineering and design of the A 10 fell to Pierre Sprey a precocious civilian who'd enrolled at Yale when he was just 15 years old and now barely 30 was exiled to a Pentagon backwater with little if any supervision The end result was one of the finest military aircraft ever built a plane essentially constructed around a 19.5 foot 4 000 pound cannon that fired 30mm depleted uranium bullets at a blistering rate Looking like it was built from discarded airplane parts it was probably the ugliest combat aircraft ever built thus the Warthog appellation But it was also an incredibly reliable ground attack aircraft beloved by ground troops from Iraq to Afghanistan Despite repeated attempts to replace it with stealth aircraft and drones

over 280 A 10s remain in service today serviced by dedicated and imaginative engineers and maintainers and defended by a fervent cohort of advocates descended from the Military Reform movement This is the story of intra service rivalries Pentagon obsessions with speed and stealth over tactical simplicity and an aircraft that shows no sign of obsolescence as it nears fifty years in service     Air Power and National Security ,1985
