Political Rhetoric Mary E. Stuckey, 2017-07-12 Rhetoric is among the most important and least understood elements of presidential leadership Presidents have always wielded rhetoric as one tool of governance and that rhetoric was always intended to facilitate political ends such as image building persuasion of the mass public and inter branch government persuasion But as mass media has grown and then fragmented as the federal bureaucracy has continued to both expand and calcify and as partisanship has heightened tensions both within Congress and between Congress and the Executive rhetoric is an increasingly important element of presidential governance Scholars have derived ways to explain how these developments and the presidents use of rhetoric have contributed to and detracted from the health of American democracy

This briefing book offers a succinct reflection on the ways in which historical developments have encouraged the use of political rhetoric. It explores strategies of going public to provide some leverage over the political system and the lessons one might derive from these choices. This essential analysis, written for lay readers, scholars, students, and future presidents, is the first in Transaction's innovative Presidential Briefings series. Mary E. Stuckey covers the scholarly literature with authority and offers examples of rhetoric that have lasting influence.

The collection focuses on women from different parties, races, religions, and immigrant statuses who fulfill roles as candidates, staffers, first families, journalists, and grassroots organizers. This is the election that gave rise to the Trump presidency and the MeToo movement, and the women considered here have left trails and revealed how far there is yet to go for women achieving power in the highest echelons of American politics, media, and society.

Sentimental State(s) Heike Paul, Sarah Pritz, 2025-08-12 The word state has a double meaning, signifying both a condition and a political entity. Starting from this observation, the contributors to this volume provide a cross-cultural and cross-media discussion of the role of the sentimental in political culture. In their case studies from all over the world, they focus on affective politics of order and belonging in processes and constellations of community building. They analyze sentimental encodings used in symbolic interactions ranging from foundational narratives and state-orchestrated public rituals to visualizations of citizenship and protest movements.
