Unesco Southeast Asia Comparative Perspective:

UNESCO in Southeast Asia Victor T. King, 2016 **UNESCO in Southeast Asia** Victor T. King, Universiti Brunei Darussalam. Institute of Asian Studies, 2013 World Heritage and Tourism Bailey Ashton Adie, 2019-05-16 This book provides a comprehensive discussion of the phenomenon of World Heritage tourism through a critical global perspective that encompasses both supply and demand Individual chapters critically engage with four main topics crucial to this subject area A chapter on visitors defines the World Heritage tourist segment highlighting on site behavior and visitor needs Building on this a marketing chapter questions the functionality of the World Heritage brand as a tourist attractor and instead argues that tourist growth is due to effective marketing following World Heritage inscription The third chapter presents a holistic management framework centred on planning place and people while the concluding chapter situates World Heritage tourism in a global context discussing threats such as climate change International case studies from a wide variety of both natural and cultural sites provide a representative discussion of the topic across varying geographical political and cultural contexts This will be of great interest to upper level students researchers and academics in the fields of tourism heritage studies and geography as well as practitioners in these fields who wish to better understand the crucial interplay of these areas

Asia's Heritage Trend Jongil Kim, Minjae Zoh, 2023-09-20 Kim and Zoh bring together a team of contributors to analyse the role of heritage studies across Asia and its impact on Asia and its constituent countries Is there such a thing as Asian heritage Is it more helpful to understand Asia as a single unit or as a set of sub regions What can we learn about Asia s present through its archaeology and heritage Covering a wide range of countries including Afghanistan Cambodia China Korea Laos Myanmar Japan Taiwan Thailand and Vietnam the contributors to this book address these key questions In doing so they look at a number of critical issues such as UNESCO World Heritage status cultural propaganda cultural erasure and difficult heritage While addressing Asia s past they also observe key issues within present day Asia further providing conceptual and practical insights into the methods that are being applied to the study of Asia s heritage today A valuable resource for scholars and students of Asian history and culture archaeology heritage studies anthropology and religious studies

Decolonising Heritage in South Asia Himanshu Prabha Ray, 2018-09-05 This volume cross examines the stability of heritage as a concept It interrogates the past which materialises through multi layered narratives on monuments and other objects that sustain cultural diversity It seeks to understand how interpretations of monuments as texts are affected at the local level of experience even as institutions such as UNESCO work to globalise and fix constructs of stable and universal heritage Shifting away from a largely Eurocentric concept associated with architecture and monumental archaeology this book reassesses how local and regional heritage needs to be balanced with the global and transnational It argues that material objects and monuments are not static embodiments of culture but are rather a medium through which identity power and society are produced and reproduced This is especially relevant in South and Southeast Asian contexts

where debates over heritage often have local regional and national political implications and consequences Reevaluating how traditional valuation of monuments and cultural landscapes could help aid sustainability and long term preservation of the heritage this book will be useful for scholars and researchers of South and Southeast Asian history heritage studies archaeology cultural studies tourism studies and political history as well
