Managing Discovery in the Life Sciences Philip A. Rea, Mark V. Pauly, Lawton R. Burns, 2018-02-01 In this book distinguished scholars Philip A Rea Mark V Pauly and Lawton R Burns explore the science and management behind marketable biomedical innovations They look at how the science actually played out through the interplay of personalities the cultures within and between academic and corporate entities and the significance of serendipity not as a mysterious phenomenon but one intrinsic to the successes and failures of the experimental approach With newly aggregated data and case studies they consider the fundamental economic underpinnings of investor driven discovery management not as an obstacle or deficiency as its critics would contend or as something beyond reproach as some of its proponents might claim but as the only means by which scientists and managers can navigate the unknowable to discover new products and decide how to sell them so as to maximize the likelihood of establishing a sustainable pipeline for still more marketable biomedical innovations

The Technology Management Handbook Richard C. Dorf, 1998-07-27 If you are not already in a management

position chances are you soon will be According to the Bureau of Statistics the fastest growing areas of employment for engineers are in engineering science management With over 200 contributing authors The Technology Management Handbook informs and assists the more than 1 5 million engineering managers in the practice of technical management Written from the technical manager s perspective and written for technologists who are managers The Technology Management Handbook presents in depth information on the science and practice of management Its comprehensive coverage encompasses the field of technology management offering information on Entrepreneurship Innovations Economics Marketing Product Development Manufacturing Finance Accounting Project Management Human Resources International Business

Strategic Management in the Media Lucy Küng, 2008-04-11 This book provides vital insights into the elements of strategy and their application to media firms Solidly grounded in theory but not pedantic it is essential reading for those who make or wish to comprehend choices of media companies Robert Picard University of J nk ping Insightful contextually analytical yet easy to comprehend Strategic Management in the Media successfully applies the adaptive and interpretative areas of strategic theory in the media sectors It provides a unique perspective in which common themes linking media strategy and industry environment are thoughtfully discussed Sylvia M Chan Olmsted University of Florida an invaluable asset for students of media management The use of pertinent examples and case studies throughout brings the analysis to life and contributes to a highly readable introduction Gillian Doyle University of Glasgow This book is a comprehensive accessible and expert introduction to strategy within a media management context It is divided into two parts part one providess an introduction to and overview of the media industry from a strategic management perspective looking in detail at the sectors that together comprise the industry newspaper book and magazine publishing music radio and television and the strategic forces at work in each This provides the foundation for part two which analyses a number of strategic topics central to the media sector such as technological change organisational structure leadership and creativity and innovation The chapters follow the same structure the relevant theory is outlined its application to the media industry is discussed and case studies from the media industry are used to illustrate the theory and illuminate its relevance for the media field The cases and examples used come from all sectors of the industry and a range of geographic regions and include News Corporation Endemol BBC Bertelsmann CNN MTV Disney and Pixar

Innovation and Entrepreneurship in Biotechnology, an International Perspective Damian Hine, John Kapeleris, 2006-01-01 This book is aimed at providing a large audience including practitioners politicians and decision makers with useful insights in relation to innovation and entrepreneurship in the biotechnology industry It offers an international perspective and a set of theoretical lenses to underline the roles and the effects of entrepreneurship and scientific innovation as key factors to support new firm emergence and to achieve and maintain competitiveness in this so important industry Alain Fayolle EM Lyon CERAG Laboratory France and Solvay Business School Belgium The biotechnology industry across the globe is growing dramatically

in line with rapidly emerging scientific and technological developments This book explores both the theoretical and practical aspects of entrepreneurship in the biotechnology industry focusing on the innovation processes underpinning success for new biotechnology firms NBFs It argues that biotechnology is at a crossroads to date the science has been solid yet commercial success remains elusive and that it will be the commercial success of NBFs which will dictate the long term viability of this crucial industry The authors go on to examine the roles played by both entrepreneurship and innovation in the competitiveness of biotechnology companies through a focus on intellectual property strategies product development valuing biotechnology ventures funding innovation and R D alliances and networking changing industry structures evidenced through the shifting value chain and the impact of globalization on the changing industry and organizational life cycles International case studies with a focus on human biosciences support the important theoretical developments at the heart of this book Innovation and Entrepreneurship in Biotechnology offers original and valuable insights to researchers academics and students as well as to practitioners involved with innovation and entrepreneurship in the field of biotechnology

Strategy-Making and Organizational Evolution Robert Alexander Burgelman,Yuliya Snihur,Llewellyn Douglas William Thomas,2023-03-23 This Element presents several frameworks of strategy making that serve to analyze organizational evolution processes within and beyond the firm These frameworks form an integrated evolutionary ecological lens to examine the dynamics of strategy making in organizational evolution They highlight the role of the internal selection environment for analyzing processes and practices at various managerial levels top middle and operational within the organization The Element also explains the role of the CEO in maintaining and updating the internal selection environment and contributing to organizational evolution as well as making fundamental decisions about organizational splits of the firm s business models as an ecosystem evolves
