Ayn Rand , Essays on Ayn Rand's The

Fountainhead Robert Mayhew, 2007-01-01 Ayn Rand's *The Fountainhead* is still remembered and enjoyed today as the philosopher's first best selling novel In this unique study of *The Fountainhead* Dr Robert Mayhew brings together historical literary and philosophical essays that analyze the novel's style its use of humor and its virtues of productivity independence and integrity The essays make extensive use of previously unpublished material from the Ayn Rand Archives offering a new collection of material to explore and consider This book leads through the creation publication and reception of the 1943 novel that made Rand famous Mayhew's collection of essays offers an insightful and critical perspective on the much regarded novel and is a necessary read for anyone interested in Ayn Rand and great American literature

Ayn Rand

Explained Ronald E. Merrill, 2013 Scorned by the established critics Rand wrote brilliant popular novels that have become permanent best sellers and founded an comprehensive philosophical and cultural movement which is shaking the foundations of the post New Deal American political order Merrill examines her espousal and then rejection of Nietzschean philosophy her dismissal of religious faith and her influence on and yet hostility to both conservatism and libertarianism

Essays on Ayn Rand's Atlas Shrugged Robert Mayhew, 2009-01-01 This is the first scholarly study of *Atlas Shrugged* covering in detail the historical literary and philosophical aspects of Ayn Rand's magnum opus Topics explored in depth include the

history behind the novel's creation publication and reception its nature as a romantic novel and its presentation of a radical new philosophy

Essays on Ayn Rand's Anthem Robert Mayhew, 2005-05-20 In this first book length study of Ayn Rand's anti utopia Anthem essays explore the historical literary and philosophical themes presiding in this novella written in opposition to the totalitarianism of the Soviet Union and Nazi Germany Written in 1937 published in 1938 in Britain and subsequently in a revised form in the United States in 1946 Anthem investigates the importance of the ego and freedom and the individual against the state Editor Robert Mayhew has collected a variety of essays dealing with such topics including the history behind the novella's creation publication and reception its connection to other anti utopian novels and the significance of ego and freedom which it portrays and defends This book is important to philosophers as well as readers looking to gain a better understanding of Ayn Rand and Anthem

Ayn Rand Mimi R. Gladstein, 2013-02-14 The novelist and philosopher Ayn Rand was one of the most influential 20th century advocates of free market capitalism Her work inspired Objectivism a philosophical movement and former US Federal Reserve Chairman Alan Greenspan cited Rand as a formative intellectual influence In this outstanding volume Mimi Gladstein details Rand's belief in the moral supremacy of individualism over collectivism highlighting her contribution to libertarian thought

A History of Women Philosophers M.E. Waithe, 2013-03-07 Like their predecessors and like their male counterparts most women philosophers of the 20th century have significant expertise in several specialties Moreover their work represents the gamut of 20th century philosophy's interests in moral pragmatism logical positivism philosophy of mathematics of psychology and of mind Their writings include feminist philosophy classical moral theory reevaluated in light of Kant Mill and the 19th century feminist and abolitionist movements and issues in logic and perception Included in the fourth volume of the series are discussions of L Susan Stebbing Edith Stein Hedwig Conrad Martius Simone de Beauvoir Simone Weil Mary Whiton Calkins Gerda Walther and others While pre 20th century women philosophers were usually self educated those of the 20th century had greater access to academic preparation in philosophy Yet for all the advances made by women philosophers over two and a half millennia the philosophers discussed in this volume were sometimes excluded from full participation in academic life and sometimes denied full professional academic status

Essays on Ayn Rand's "We the Living" Robert Mayhew, 2012-02-16 Ayn Rand remains a truly significant figure of modern philosophy Her unique vision of a world in which man relying on reason acts wholly for his own good is skillfully developed and illustrated in her most famous novels Atlas Shrugged and The Fountainhead But Rand's first novel We the Living a lesser known but no less important book offers an early form of the author's nascent philosophy the philosophy Rand later called Objectivism In the second edition Robert Mayhew once again brings together pre eminent scholars of Rand's writing The edition includes three new chapters as well as an epilogue by renowned Rand scholar Leonard Peikoff In part a history of We the Living from its earliest drafts to the Italian film later based upon it Mayhew's collection goes on to explore the enduring significance of Rand's first novel as a work both of

philosophy and of literature For Ayn Rand scholars and fans alike this enhanced second edition is a compelling examination of a novel that set the tone for some of the most influential philosophical literature to follow **Ayn Rand** Chris Matthew Sciabarra, 2013-10-15 Author of *The Fountainhead* and *Atlas Shrugged* Ayn Rand 1905-1982 is one of the most widely read philosophers of the twentieth century Yet despite the sale of over thirty million copies of her works there have been few serious scholarly examinations of her thought Ayn Rand *The Russian Radical* provides a comprehensive analysis of the intellectual roots and philosophy of this controversial thinker It has been nearly twenty years since the original publication of Chris Sciabarra's *Ayn Rand: The Russian Radical* Those years have witnessed an explosive increase in Rand sightings across the social landscape in books on philosophy politics and culture in film and literature and in contemporary American politics from the rise of the Tea Party to recent presidential campaigns During this time Sciabarra continued to work toward the reclamation of the dialectical method in the service of a radical libertarian politics culminating in his book *Total Freedom: Toward a Dialectical Libertarianism* Penn State 2000 In this new edition of Ayn Rand Chris Sciabarra adds two chapters that present in depth analysis of the most complete transcripts to date documenting Rand's education at Petrograd State University A new preface places the book in the context of Sciabarra's own research and the recent expansion of interest in Rand's philosophy Finally this edition includes a postscript that answers a recent critic of Sciabarra's historical work on Rand Shoshana Milgram Rand's biographer has tried to cast doubt on Rand's own recollections of having studied with the famous Russian philosopher N O Lossky Sciabarra shows that Milgram's analysis fails to cast doubt on Rand's recollections or on Sciabarra's historical thesis *Metaethics, Egoism, and Virtue* Allan Gotthelf, James G. Lennox, 2014-07-30 Philosopher novelist Ayn Rand 1905-1982 is a cultural phenomenon Her books have sold more than twenty five million copies and countless individuals speak of her writings as having significantly influenced their lives In spite of the popular interest in her ideas or perhaps because of it Rand's work has until recently received little serious attention from academics Though best known among philosophers for her strong support of egoism in ethics and capitalism in politics there is an increasingly widespread awareness of both the range and the systematic character of Rand's philosophic thought *Metaethics Egoism and Virtue* examines central aspects of Ayn Rand's ethical theory Though her endorsement of ethical egoism is well known one of her most familiar essay collections is *The Virtue of Selfishness* the character of her egoism is not Leading Rand scholars and specialists in ethical theory address issues such as the basis of Rand's egoism in a virtue centered normative ethics her account of how moral norms in general are themselves based on a fundamental choice by an agent to value his own life and how her own approach to the foundations of ethics is to be compared and contrasted with familiar approaches in the analytic ethical tradition Philosophers interested in the objectivity of value in the way ethical theory is and is not virtue based and in acquiring a serious understanding of an egoistic moral theory worthy of attention will find much to consider here *Metaethics Egoism and Virtue* is the first of a new series developed in conjunction with the Ayn Rand Society to offer a fuller scholarly

understanding of this highly original and influential thinker The Ayn Rand Society an affiliated group of the American Philosophical Association Eastern Division seeks to foster scholarly study by philosophers of the philosophical thought and writings of Ayn Rand

Capitalism at Work Robert L. Bradley, 2014-05-14 Read the Intro Chapter PDF View the Ayn Rand Appendix View an interview with author Robert L Bradley Jr at Reason.com Capitalism took the blame for Enron although the company was anything but a free market enterprise and company architect was hardly a principled capitalist On the contrary Enron was a politically dependent company and in the end a grotesque outcome of America's mixed economy That is the central finding of Robert L Bradley's *Capitalism at Work* The blame for Enron rests squarely with political capitalism a system in which business firms routinely obtain government intervention to further their own interests at the expense of consumers taxpayers and competitors Although Ken Lay professed allegiance to free markets he was in fact a consummate politician Only by manipulating the levers of government was he able to transform Enron from a 3 billion natural gas company to a 100 billion chimera one that went in a matter of months from seventh place on Fortune's 500 list to bankruptcy But *Capitalism at Work* goes beyond unmasking Enron's sophisticated foray into political capitalism Employing the timeless insights of Adam Smith Samuel Smiles and Ayn Rand among others Bradley shows how fashionable anti-capitalist doctrines set the stage for the ultimate business debacle Those errant theories like Enron itself elevated form over substance ignored legitimate criticism and bypassed midcourse correction Political capital

Concepts and Their Role in Knowledge Allan Gotthelf, James G. Lennox, 2014-08-01 Philosopher novelist Ayn Rand 1905-1982 is a cultural phenomenon Her books have sold more than twenty-eight million copies and countless individuals speak of her writings as having significantly influenced their lives Despite her popularity Rand's philosophy of Objectivism has received little serious attention from academic philosophers *Concepts and Their Role in Knowledge* offers scholarly analysis of key elements of Ayn Rand's radically new approach to epistemology The four essays by contributors intimately familiar with this area of her work discuss Rand's theory of concepts including its new account of abstraction and essence and its central role in her epistemology how that view leads to a distinctive conception of the justification of knowledge her realist account of perceptual awareness and its role in the acquisition of knowledge and finally the implications of that theory for understanding the growth of scientific knowledge The volume concludes with critical commentary on the essays by distinguished philosophers with differing philosophical viewpoints and the author's responses to those commentaries This is the second book published in Ayn Rand Society Philosophical Studies which was developed in conjunction with the Ayn Rand Society to offer a fuller scholarly understanding of this highly original and influential thinker The Ayn Rand Society an affiliated group of the American Philosophical Association Eastern Division seeks to foster scholarly study by philosophers of the philosophical thought and writings of Ayn Rand

The Routledge Handbook of Accounting Ethics Eileen Z. Taylor, Paul F. Williams, 2020-12-29 The perspective of this book is to present ethics as a conversation about how we decide what is good or bad right or wrong It is a collection of

conversations employed by educators to assist accounting students in developing their understanding of accounting's ethical aspects and to help them develop into critical thinkers who consider the ethical complexities of the function of accounting in human society. Because we are social beings, ethics is a central human concern since it involves determining the ethicality of human actions and their effect on other individuals as well as determining the collective societal acceptance or rejection of an action. Thus the book's primary goal is to call attention to the intersectionality of accounting and ethics and to encourage students and researchers to consider the ethical implications of accounting decisions. The book contains a diversity of perspectives within which discussions of accountants and accounting's ethical responsibilities may occur. The contributing authors were deliberately chosen for their diverse perspectives on whence moral guidance for accounting may come. Each chapter stands on its own and represents the thinking of its authors. The book is not a primer on correct behavior for accountants but a place where educators may spur the conversation along.

The Freedom of Peaceful Action Stuart K. Hayashi, 2014-04-23. The Freedom of Peaceful Action is the first installment of the trilogy The Nature of Liberty which makes an ethical philosophic case for individual liberty and the free market against calls for greater government regulation and control. The trilogy makes a purely secular and nonreligious ethical case for the individual's rights to life, liberty, private property, and the pursuit of happiness as championed by the U.S. Founding Fathers. Inspired by such philosophic defenders of free enterprise as John Locke, Herbert Spencer, and Ayn Rand, The Nature of Liberty shows that such individual rights are not imaginary or simply assertions but are institutions of great practical value making prosperity and happiness possible to the degree that society recognizes them. The trilogy demonstrates the beneficence of the individual rights approach by citing important findings in the emerging science of evolutionary psychology. Although the conclusions of evolutionary psychology have been long considered to be at odds with the philosophies of individual liberty and free markets, The Nature of Liberty presents a reconciliation that reveals their ultimate compatibility as various important findings of evolutionary psychology being logically applied confirm much of what philosophic defenders of liberty have been saying for centuries. Moreover, proceeding from the viewpoint of Rand, this work argues that the structure of society most conducive to practical human well-being is commensurately the most moral and humane approach as well. The trilogy's first installment, The Freedom of Peaceful Action, focuses on the secular philosophic foundation for a society based on individual rights. Starting from a defense of the efficacy of observational reason against criticisms from Immanuel Kant and Karl Popper, it demonstrates how a philosophic position of individual liberty and free markets is the logical result of the consistent application of human reason to observing human nature. This installment demonstrates that any political system that wishes for its citizens to thrive must take human nature into account and that an accounting of human nature reveals that a system of maximum liberty and property protection is the one most conducive to peace and human well-being.

Ayn Rand Alexandra Popoff, 2024-08-06. A deeply researched biography of the prominent and divisive writer Ayn Rand whose pro-capitalist novels and nonfiction have

influenced three generations of Americans Biographer Alexandra Popoff traces the life and creative achievement of Ayn Rand 1905 1982 one of America's most provocative writers and whose best selling novels *The Fountainhead* and *Atlas Shrugged* have enjoyed impressive longevity Born into a Jewish family in Saint Petersburg Russia Rand then Alisa Rosenbaum lived through the 1917 Bolshevik Revolution Civil War and the onset of Soviet totalitarian dictatorships experiences that made her profoundly anticommunist When in 1926 Rand escaped from Stalinist Russia to realize her talent in America she was also determined to expose the Communist system Through her apprenticeship in Hollywood where she worked as a scriptwriter to her first anti Communist novel *We the Living* Rand doggedly pursued her goal battling the Soviet belief system along with its precepts of collectivism and statism She defended American capitalism individualism prosperity and creativity her literary heroes were talented high achievers While Marx had declared war on capitalism and prophesied the triumph of the proletariat Rand whose family was dispossessed by the Bolsheviks glorified the wealth creator and held the masses in contempt In *Atlas Shrugged* her most controversial novel she promoted laissez faire capitalism and the morality of rational self interest She envisaged apocalypse in America if it followed the socialist path Library Journal, 1990 Includes beginning Sept 15 1954 and on the 15th of each month Sept May a special section School library journal ISSN 0000 0035 called Junior libraries 1954 May 1961 Also issued separately **Joss Whedon and Religion** Anthony R. Mills, John W. Morehead, J. Ryan Parker, 2013-09-20 This is a collection of new essays on the religious themes in and the implications of the works of Joss Whedon creator of such shows as *Buffy the Vampire Slayer* *Angel* and *Firefly* and more recently writer and director of the box office hit *Marvel's The Avengers* The book addresses such topics as ethics racism feminism politics witchcraft spiritual transformation identity community heroism apocalypse and other theologically significant themes of Whedon's creative enterprises The disciplinary approaches vary as well history theology philosophy of religion phenomenology cultural studies and religious studies are all employed The various essay authors differ in that some are clearly believers in God some are clearly not and others leave that matter aside Ayn Rand Cult Jeff Walker, 2012-03-30 Despised by the intellectual establishment Ayn Rand continues to attract many thousands of devoted followers Her Objectivist movement preaches an uncompromising hard line on politics art sex and psychological health Though much has been written about Rand *The Ayn Rand Cult* is the first book to explain the true origin of her ideas and to show how they were shaped into a new atheistic religion Jeff Walker shatters many myths about Rand exposing Objectivism as a classic cult unusual because of its overt emphasis on self interest rationality and atheism but typical of cults in its guru worship thought control trial and excommunication of deviants and hostility to existing society
