## **The Weirdness Of Being Heideggers Unheard Answer To The Seinsfrage:**

The Weirdness of Being Ivo De Gennaro, 2014-10-20 The ongoing publication of Heidegger's complete works has called into question the interpretive and translative practices that have historicized Heidegger's thinking through the adaptation of categories and mind sets inherited from metaphysics Ivo De Gennaro argues that the posthumous treatises in particular many of which have yet to be translated into English show that the other onset of thinking that Being and Time inaugurated and which those historicizing accounts have interpreted and translated away has already taken place This book on the other hand speaks solely from that other onset that of being itself While arguing the one pointedness of Heidegger's entire path of thinking De Gennaro draws mainly on the posthumous treatises to offer both a provisional exploration of and an introduction to a thinking whose sense and implications have barely begun to emerge This challenging and original interpretation marks an important contribution to Heidegger scholarship

**Das Denken Martin Heideggers III 1 herausgegeben von Hans-Christian Günther** Hans-Christian Günther, 2021 II Brief Summary of the Book Heidegger and Kant explores the Auseinandersetzung between these two great thinkers on various levels including the finitude of human knowledge moral action and responsibility and the interdependence between language and art It is shown that Heidegger's attempt to uncover and appropriate what is unthought in Kant's thinking extends across the entire Critical philosophy Conversely this task of destructive retrieval has implications for transforming Heidegger's ontological project which comes to light to two of his pivotal books after Being and Time specifically Contributions to Philosophy From Enowning and Mindfulness

Historical Dictionary of Heidegger's Philosophy Frank Schalow, 2019-11-29 Martin Heidegger's thinking is a complex and his terminology is as nuanced as any thinker in the history of philosophy As the historian of philosophy par excellence he also exhibits both a greater appreciation and mastery of previous thinkers than any almost any other philosopher before or since The Historical Dictionary of Heidegger's Philosophy Third Edition addresses this dual challenge of reading understanding and interpreting Heidegger's vast writings The book provides a comprehensive and detailed account of the key terms shaping Heidegger's philosophy as well as outlining the development of his thought spanning the entirety of his career spanning almost sixty years The Dictionary also includes a discussion of Heidegger's seminal writings the spanning his entire Gesamtausgabe Complete Edition up through volume 99 of the projected 102 volumes This third edition of Historical Dictionary of Heidegger's Philosophy Third Edition contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 800 cross referenced entries that provides a clear and comprehensive exposition of the key developments in his life and his thought This book is an excellent resource for students researchers and anyone wanting to know more about Martin Heidegger

*Heidegger's Ecological Turn* Frank Schalow, 2021-09-05 This book makes explicit the ecological implications of Martin Heidegger It examines how the trajectory of Heidegger's thinking harbors an ecological turn which comes to the forefront in his attempt to anticipate the impending crisis precipitated by modern

technology Schalow's emphasis on such key motifs as stewardship dwelling and letting be Gelassenheit serves to coalesce the problem of freedom in a new and innovative way in order to expand the interpretive or hermeneutic horizon for re-examining Heidegger's philosophy By prioritizing a response to today's environmental crisis and the possible impact upon future generations the author traverses a divide within Heidegger scholarship by developing a deeper critical outlook on his philosophy without either reiterating standard interpretations or rejecting them wholesale He develops a trans-human approach to ethics which by prioritizing the welfare of the earth nature and animals counters the anthropocentric bias and destructive premise of modern technology Heidegger's Ecological Turn will be of interest to Heidegger scholars and researchers working in phenomenology hermeneutics continental philosophy and environmental philosophy

*The Enigma of Art: On the Provenance of Artistic Creation* Gino Zaccaria, 2021-05-25 In this book Gino Zaccaria offers a philosophical meditation on the issue of art in light of its originary sense He shows how this sense can be fully understood provided that our thinking on the one hand returns to the ancient Greek world where it must heed the voice and hints of the goddess Athena and on the other hand listens to artist thinkers close to our current epoch such as Cézanne van Gogh and Boccioni Indeed the path of this meditation has as its guide the well-known sentence by the painter from Aix-en-Provence which reads *Je vous dois la vrit en peinture et je vous la dirai* What will finally appear in this way will not be an abstract or historical notion of art but its enigma that is to say the promise of another initiation of art itself

**Wallace Stevens and Martin Heidegger** Ian Tan, 2022-06-20 This book is a unique contribution to scholarship of the poetics of Wallace Stevens offering an analysis of the entire oeuvre of Stevens's poetry using the philosophical framework of Martin Heidegger Marking the first book-length engagement with a philosophical reading of Stevens it uses Heidegger's theories as a framework through which Stevens's poetry can be read and shows how philosophy and literature can enter into a productive dialogue It also makes a case for a Heideggerian reading of poetry exploring his later philosophy with respect to his writing on art language and poetry Taking Stevens's repeated emphasis on the terms being consciousness reality and truth as its starting point the book provides a new reading of Stevens with a philosopher who aligns poetic insight with a reconceptualization of the metaphysical significance of these concepts It pursues the link between philosophy American poetry as reflected through Stevens and modernist poetics looking from Stevens's modernist techniques to broader European philosophical movements of the twentieth century

**The Ethics of Economic Responsibility** Ralf Lüfter, 2020-12-09 *The Ethics of Economic Responsibility* raises fundamental ethical questions related to the conceptualization of economic responsibility that is the imperative to fulfil certain economic obligations It builds on a basic characterization of the question of ethics in order to introduce responsibility as a constitutive element for a new determination of economic knowledge Drawing on the metaphysical tradition of philosophy the book explores the distinction between operability-based responsibility and end-in-itself-based responsibility and also considers what is tentatively called being-related responsibility By presenting these

arguments about the notion of economic responsibility the book contributes to the growing calls for ethical questions to not be merely complementary to the ongoing discourse of economic sciences but rather to sit at its core in such a way as to restore the intrinsic ethical dimension of economics itself The book marks a significant contribution to the literature on the philosophy of economics applied ethics more broadly and the critical discourse concerning mainstream economics **The New Yearbook for Phenomenology and Phenomenological Philosophy** Burt C.
