Using The Open Archives Initiative Protocol For Metadata Harvesting Third Millennium Cataloging:

Using the Open Archives Initiative Protocol for Metadata Harvesting Timothy W. Cole, Muriel Foulonneau, 2007 Online scholarly publishing is revolutionizing scholarly communication and the Open Archives Initiative OAI is among those protocols leading the way in the transformation process OAI enables access to Web accessible material by harvesting or collecting the metadata descriptions of the records in an archive so that services can be built using metadata from many archives Through a series of case studies Cole and Foulonneau guide the reader through the process of conceiving implementing and maintaining an OAI compliant repository Its applicability to both institutional archives and discipline based aggregators are covered with equal attention paid to the technical and organizational aspects of creating and maintaining such repositories

XML for Catalogers and Metadata Librarians Timothy W. Cole, Myung-Ja K. Han, 2013-05-23 This book provides a foundation of knowledge for catalogers metadata librarians and library school students on the Extensible Markup Language XML one of the most commonly listed qualifications in today's cataloger and metadata librarian job postings How are today's librarians to manage and describe the ever expanding volumes of resources in both digital and print formats The use of XML in cataloging and metadata workflows can improve metadata quality the consistency of cataloging workflows and adherence to standards This book is intended to enable current and future catalogers and metadata librarians to progress beyond a bare surface level acquaintance with XML thereby enabling them to integrate XML technologies more fully into their cataloging workflows Building on the wealth of work on library descriptive practices cataloging and metadata XML for Catalogers and Metadata Librarians explores the use of XML to serialize process share and manage library catalog and metadata records The authors expert treatment of the topic is written to be accessible to those with little or no prior practical knowledge of or experience with how XML is used Readers will gain an educated appreciation of the nuances of XML and grasp the benefit of more advanced and complex XML techniques as applied to applications relevant to catalogers and metadata librarians

Martha M. Yee, 2007-10-30 Libraries archives and museums hold a wide variety of moving images all of which require the same level of attention to issues of organization and access as their print counterparts Consequently the people who create collection level records and metadata for these resources need to be equally conversant in the principles of cataloging Martha Yee covers both descriptive AACR2R AMIM and FIAF rules and subject cataloging with a focus on LCSH In the process the reader is encouraged to think critically and to be prepared to make decisions in ambiguous situations where solutions to problems are not always obvious or clearly dictated by specific rules **FRSAD** Marcia Lei Zeng, Athena Salaba, Maja Žumer, 2012-09-11 The first comprehensive exploration of the development and use of the International Federation of Library Associations and Institutions IFLA newly released model for subject authority data covering everything from the rationale for creating the model to practical steps for implementing it FRSAD Conceptual Modeling of Aboutness explores the full dimensions of the IFLA s Functional Requirements for Subject Authority Data model showing how putting the model to work can ease information sharing across systems domains and environments Written by three leading members of the IFLA working group that developed the model FRSAD moves from the theoretical foundations of knowledge organization to a complete conceptual overview of the model to specific working guidelines for its implementation The book is filled with insights into the factors driving the model s development as well as numerous illustrative examples of its practical applications in real world settings It also focuses on the benefits of using the model when developing knowledge organization systems KOS within the library domain and beyond **Subject Access to a Multilingual Museum Database**

Allison Kupietzky, 2007-10-30 Translating visual works into verbal form is clearly a formidable task While libraries have a century of cooperative cataloging behind them museums and other cultural institutions have tended to go their separate ways believing the objects in their collections are unique Dr Kupietzky has put together a guide for digitizing encyclopedic multilingual museums that promises to both standardize and streamline the process Part I provides a review of the literature

and of the problems concerning methods used in the computerization of museums Part II offers practical guidelines for mono or multilingual museums seeking to implement a database to aid in cataloguing their holdings A six step process of computerizing museum collections the SAGE K method was developed to facilitate the application of these ideas by all museums and enable them to achieve the goal of digitization Metadata for Digital Resources Muriel Foulonneau,Jenn Riley,2014-01-23 This book assists information professionals in improving the usability of digital objects by adequately documenting them and using tools for metadata management It provides practical advice for libraries archives and museums dealing with digital collections in a wide variety of formats and from a wider variety of sources This book is forward thinking in its approach to using metadata to drive digital library systems and will be a valuable resource for those creating and managing digital resources as technologies for using those resources grow and change Provides practical guidance on the key choices that information professionals in libraries archives and museums must make when defining and implementing a metadata strategy Provides insight on the new area of metadata librarianship while positions are opening in many organizations and many professionals worldwide are charged with managing and sharing metadata Focuses on metadata usability and the careful definition of what a digital library system must do in order to define a metadata strategy **Library Science and Administration: Concepts, Methodologies, Tools, and Applications** Management Association, Information Resources,2017-11-30 Effective administration of libraries is a crucial part of delivering library services to the public To develop and implement best practices librarians must be aware and informed of the recent advances in library administration Library Science and Administration Concepts Methodologies Tools and Applications is a comprehensive reference source for the latest scholarly material on trends techniques and management of libraries and examines the benefits and challenges of library administration Highlighting a range of pertinent topics such as digital libraries information sciences and academic libraries this multi volume book is ideally designed for academicians researchers practitioners and librarians seeking current research on library science and administration Disability and Equity in Higher Education Accessibility Alphin, Jr., Henry C.,Lavine, Jennie,Chan, Roy Y.,2017-03-24 Education is the foundation to almost all successful lives It is vital that learning opportunities are available on a global scale regardless of individual disabilities or differences and to create more inclusive educational practices Disability and Equity in Higher Education Accessibility is a comprehensive reference source for the latest scholarly material on emerging methods and trends in disseminating knowledge in higher education despite traditional hindrances Featuring extensive coverage on relevant topics such as higher education policies electronic resources and inclusion barriers this publication is ideally designed for educators academics students and researchers interested in expanding their knowledge of disability inclusive global education **Library & Information Science Abstracts** ,2007 Selecting and Managing Electronic Resources Vicki L.
