Spectacular Flops Michael Brian Schiffer, 2018-12-31 Many technologies begin life as someone's vision of an ambitious perhaps audacious technology that is expected to have a revolutionary impact on consumers whether families companies or societies However if this highly touted technology fails prematurely at some point in its life history it becomes a spectacular flop Employing a behavioral perspective this book presents a sample of twelve spectacular flops encompassing the past three centuries ranging from the world's first automobile to the nuclear powered bomber Because technologies may fail from many different causes spectacular flops pose a special challenge to the author's long term project of furnishing generalizations about technological change Instead of constructing generalizations that apply to all spectacular flops this book provides limited generalizations that pertain to particular groups of technologies bounded by parameters such as long term development projects and one off projects The

reader need have no prior familiarity with the technologies because basic principles are introduced as needed
